England's Rural Realms Edward Bujak, 2007-10-24 The English countryside in the nineteenth century experienced the

shifting power struggle from the great landed estates towards democratisation Challenging received scholarship that the landed estates declined in power and patronage Bujak places the Victorian globalisation of trade alongside the democratisation of the English countryside By doing so he reveals that the economic decline of the great landed estates was balanced by their continued social and political influence in the countryside up to the Great War With its focus on Suffolk a county at the forefront of agricultural improvement and thus hardest hit by the agricultural depression the patterns revealed by England's Rural Realm demonstrates the durability of the great estate system across the English countryside

The Origins of the Lloyd George Coalition Robert James Scally, 2015-03-08 This book examines the intrusion of imperialist modes of thought into the domestic politics of the Edwardian period and the war years The author analyzes the fusion of social imperialist ideology with the Lloyd George insurgency in the Liberal Party and reinforces the hypothesis that European imperialism in this era aligned itself with progressive Liberalism to form the chief defense against rising democratic and socialist forces Major events of the war years such as the collapse of the Liberal Party and the dispute over war aims are shown to be the products of the continuing conflict between these forces rather than merely the result of the circumstances of war The author describes the development of the body of social imperialist ideas and strategies between the Boer War and the formation of the Lloyd George Coalition of 1916 The political course of the Coalition idea is traced past the crisis of 1910 into the war years and the debate over plans for reconstruction Thus the Coalition of 1916 is seen mainly as an outgrowth of the prewar political crisis a device originally designed as a response to domestic issues and adapted only later to the pressures of war This original interpretation of the Coalition and its origins establishes the historical significance of social imperialism and places Lloyd George and the British right in new perspective Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Liberal Magazine, 1908 [The Golden Talking-Shop](#) Edward Pearce, 2016-09-15 In the late 1890s Britain was basking in the high noon of empire albeit with the sobering experience of the Boer War just around the corner By 1956 the year of the Suez debacle and less than a lifetime later the age of empire was drawing rapidly to a close and Britain's position as an independent great power was over In between the country had experienced two devastating world wars India the jewel in her imperial crown had gained independence And there had been far reaching changes on the domestic front the birth of the welfare state full men's and eventually women's suffrage and the foundation of the National Health Service to name but a few Throughout this momentous period the Oxford Union the world's most famous debating society continued to meet to debate and discuss the changing world around them Sometimes their debates had important repercussions in the

wider world such as the notorious King and Country debate of 1933 which made headlines around the globe and which Winston Churchill described as that abject squalid shameless avowal More often than not the debates had merely a local impact even if among the debaters were many of the leaders thinkers and opinion formers of the future figures such as Harold Macmillan Archbishop Temple Edward Heath and Tony Benn In The Golden Talking Shop former Parliamentary sketch writer and Union member Edward Pearce tells the story of Britain and the world in the first half of the twentieth century as seen from the perspective of these Union debates sometimes shocking sometimes wittily amusing and often both The students do most of the talking along the way revealing the changing preoccupations prejudices and assumptions of their changing times A distinct pre First World War fashion for Social Darwinism is in due course replaced by a widespread 1930s penchant for Stalinism with civilized opinion reliably breaking in on occasion too Above all browsing these debates taken straight from another age gives the reader a vivid sometimes piquant sense of a Britain which is now passing from living memory and serves as a powerful reminder of the ways in which the past and its attitudes really are a foreign country
