**American Art** Barbara S. Groseclose, 2000 Many well known artists including Thomas Eakins and Winslow Homer and lesser known artists like Harriet Hosmer are closely examined as is the art world of the time In addition to discussing the free movement of American visual culture between high and low Barbara Groseclose interweaves nineteenth century art criticism with current art history to create a fascinating insight into the changing interpretations of American art of this period BOOK JACKET **American Painters on Technique** Lance Mayer, Gay Myers, 2011 This is the first comprehensive study of an

important but largely unknown part of the history of American art the materials and techniques used by American painters It is based on extensive research into primary and secondary sources including artist recipe books letters journals and painting manuals many of which are unpublished and or little known to scholars In interpreting this mass of evidence the authors have used the experience gained from having museums and private collectors Detailed information is provided on the methods of many painters including Benjamin West Gilbert Stuart Washington Allston Thomas Sully Thomas Cole and William Sidney Mount Among the important topics discussed are the quest for the secrets of the old masters which inspired experimentation with a surprising variety of materials how artists believed their paintings might change over time the application of brownish toning layers and the evolving self confidence of American experimenters and innovators during the second quarter of the nineteenth century Because many Americans wrote down what they learned in Europe the book provides new information for those studying European painting techniques as well Thomas Cole's Journey Elizabeth

Mankin Kornhauser, Tim Barringer , 2018-01-29 Thomas Cole 1801 1848 is celebrated as the greatest American landscape artist of his generation Though previous scholarship has emphasized the American aspects of his formation and identity never before has the British born artist been presented as an international figure in direct dialogue with the major landscape painters of the age Thomas Cole's Journey emphasizes the artist's travels in England and Italy from 1829 to 1832 and his crucial interactions with such painters as Turner and Constable For the first time it explores the artist's most renowned paintings The Oxbow 1836 and The Course of Empire cycle 1834 36 as the culmination of his European experiences and of his abiding passion for the American wilderness The four essays in this lavishly illustrated catalogue examine how Cole's first hand knowledge of the British industrial revolution and his study of the Roman Empire positioned him to create works that

offer a distinctive even dissident response to the economic and political rise of the United States the ecological and economic changes then underway and the dangers that faced the young nation A detailed chronology of Cole s life focusing on his European tour retraces the artist s travels as documented in his journals letters and sketchbooks providing new insight into his encounters and observations With discussions of over seventy works by Cole as well as by the artists he admired and influenced this book allows us to view his work in relation to his European antecedents and competitors demonstrating his major contribution to the history of Western art     *Art and the Empire City* Metropolitan Museum of Art (New York, N.Y.),2000 Presented in conjunction with the September 2000 exhibition at the Metropolitan Museum this volume presents the complex story of the proliferation of the arts in New York and the evolution of an increasingly discerning audience for those arts during the antebellum period Thirteen essays by noted specialists bring new research and insights to bear on a broad range of subjects that offer both historical and cultural contexts and explore the city s development as a nexus for the marketing and display of art as well as private collecting landscape painting viewed against the background of tourism new departures in sculpture architecture and printmaking the birth of photography New York as a fashion center shopping for home decorations changing styles in furniture and the evolution of the ceramics glass and silver industries The 300 plus works in the exhibition and comparative material are extensively illustrated in color and bandw Oversize 9 25x12 25 Annotation copyrighted by Book News Inc Portland OR     **Exhibiting Contradiction** Alan Wallach,1998 A leading scholar of art art history and American studies considers the way art museums have depicted American society and the American past In closely focused and often controversial essays Alan Wallach explores the opposing ideologies that drove the development of the American art museum in the 19th century and the tensions and contradictions characteristic of recent museum history 40 illustrations     **Poe and the Visual Arts** Barbara Cantalupo,2015-06-10 Although Edgar Allan Poe is most often identified with stories of horror and fear there is an unrecognized and even forgotten side to the writer He was a self declared lover of beauty who from childhood s hour had not seen As others saw Poe and the Visual Arts is the first comprehensive study of how Poe s work relates to the visual culture of his time It reveals his deep worship of all beauty which resounded in his earliest writing and never entirely faded despite the demands of his commercial writing career Barbara Cantalupo examines the ways in which Poe integrated visual art into sketches tales and literary criticism paying close attention to the sculptures and paintings he saw in books magazines and museums while living in Philadelphia and New York from 1838 until his death in 1849 She argues that Poe s sensitivity to visual media gave his writing a distinctive graphicality and shows how despite his association with the macabre his enduring love of beauty and knowledge of the visual arts richly informed his corpus     **NEH Exhibitions Today** ,2000     The Politics of Taste in Antebellum Charleston Maurie D. Elizabeth Ann Garrison,1995 **Enchanted Lives, Enchanted Objects** Dianne Sachko Macleod,2008 This insightful and beautifully illustrated book offers the first feminist analysis of the phenomenon of women art collectors in America Dianne Sachko Macleod brings a surprising paradox to light showing that collecting which provided wealthy women with a private sense of solace also liberated them to venture into the public sphere and make a lasting contribution to the emerging American culture Beginning in the antebellum period continuing through the Gilded Age and reaching well into the twentieth century Macleod shows how elite women enlisted the objets d art and avant garde paintings in their collections in causes ranging from the founding of modern museums to the campaign for women s suffrage Exhibitions Today National
