Thomas Jefferson Thomas Jefferson, 2016 Philosopher diplomat politician inventor writer architect even gardener from a historical perspective Thomas Jefferson emerges as an extraordinary individual This is the first time an editor has focused principally on his comments regarding his time while serving as minister to France from 1784 to 1789 He was clearly many things to many people but precisely because of these multifaceted endeavors he has become so deeply entwined in the tapestry of America's grand democratic experiment that the quest to picture him clearly and objectively in his own life and times remains arguably elusive The most comprehensive portrait of the American founding fathers can be seen in their personal letters and journal entries Jefferson is certainly no exception and those he wrote during his service as American minister to France through many of the most critical episodes in both French and American history are of singular importance The format of the letters has been preserved whenever possible and collectively they provide a unique glimpse into the character and thought processes of Jefferson the diplomat While Thomas Jefferson is responsible for a voluminous body of literature this is the first time an editor has focused principally on his correspondence while serving as minister to France The format of the selected letters as Jefferson wrote them is preserved whenever possible and they are presented for the interest of a general readership as well as for students of military diplomatic or political history The addressees are identified particularly those who have been lost to history and where indicated explanatory notes are provided to assist the reader in placing the correspondence in its particular historical political or conceptual context Readers are encouraged to arrive at their own conclusions as to the intention of a specific piece of correspondence After serving as a

member Virginia House of Burgesses the Continental Congress and as governor of Virginia in 1784 Thomas Jefferson was again called into public service to France first as trade commissioner and then as Benjamin Franklin's successor as minister. To be sure he emerged as an excellent ambassador for he had the same capacity to combine symbolic and practical representation that made Franklin's stay in France such an important episode in Franco-American relations. In a court almost paralyzed by ceremony and bored with excesses in dress and ornamentation Jefferson's republican asceticism, his directness and apparent candor lent him a distinction and significance which no amount of modishness could have gained for him. By design Dr. Woods has elected to approach Jefferson's time in France from more of a documentary perspective, an interesting journey to say the least. For whether he is writing to peers such as James Madison, Patrick Henry and George Washington to French associates such as the Marquis de Lafayette and Hector St. John de Crevecoeur or even to his more social acquaintances such as Maria Cosway and Abigail Adams, Jefferson writes with at times surprising candor. And whether the subject might be an impassioned argument against Federalism, addressing the detail of international trade agreements or even commenting on botany and agricultural issues, his words reflect remarkable clarity, insight and eloquence. As the text presents in their entirety the original written correspondence which succeeding generations of historians have repeatedly cited as the basis for their interpretation of events or conclusions of fact, *Thomas Jefferson Diplomatic Correspondence Paris 1784-1789* moves a step further, emerging as both a comprehensive reference resource and a unique supplement to the existing literature.
