Self-Assessment for the MRCP (Part One) Charles F Corke, 1996-01-17 This new edition of a well proven revision aid retains the attractive formula of posing the questions initially with a subsequent section of explanatory notes and a reference to a major text which the MRCP candidate might reasonably be expected to read before presenting to the examination. To give the MRCP candidate a greater range of problems the number of questions has been raised to 300 and these have been updated to ensure that the range is representative of the examination and the changes to medical practise that have occurred since the third edition. This book will continue to appeal to all candidates for the MRCP and other higher examinations with related interest.

Self-assessment for MRCP. C. F. Corke, 1984-01-01

Self- Assessment on Trauma and Orthopaedics Philip Ting, 2001 This is probably the only illustrated examination revision book in trauma and orthopaedics aimed solely at undergraduate and Part 1 MRCS candidates. It has been carefully constructed to test as much of the required knowledge as is practical and is presented so that each MCQ or illustration provides a concise and informative account of key areas of trauma and orthopaedics. With the answers and explanations following directly after each question it is ideally suited for quick studying on the move.

Self-Assessment: BOFs for MRCP(UK) and MRCP(I) Part I Osama Shukir Muhammed Amin, 2023-02-02 This is the third edition of my book Self Assessment for MRCP UK part 1 which was published in 2009. The second edition entitled Self Assessment 650 BOFs for MRCP UK and MRCP I Part I was published in late 2016. It has been six years. The third edition has undergone several changes and updates. COVID 19 strikes every chapter. In authoring this book I tried my best to include the most common examination themes. You may encounter negative or positive stems. The questions objective is to teach i.e. a rapid review of every subject and theme. This book differs from my book Get Through MRCP part I BOFs which was published in the year 2008 by the Royal Society of Medicine Press in London and my book MRCP UK and MRCP I Part I Best of Fives Volume I which was published in 2022. The former concentrates mainly on the diagnosis and management i.e. what is the diagnosis, what is the next best step, what feature is consistent with your preliminary diagnosis and so on. The latter concentrates on several updates in the management of many diseases, addresses some novel diseases and topics and focuses on COVID 19. Undoubtedly if you are well prepared you will pass the examination very easily. No need to panic when you hear about your colleagues' experiences. Lack of preparation is the single most common reason for failure. Remember practice makes perfect. Read and self assess that's it. Good luck with your career and exams.
