**Mrs. Delany (Mary Granville)** George Paston, 1900

**The Circuit of Apollo** Laura L. Runge, Jessica Cook, 2019-05-10 Written by a combination of established scholars and new critics in the field the essays collected in Circuit of Apollo attest to the vital practice of commemorating women's artistic and personal relationships In doing so they illuminate the complexity of female friendships and honor as well as the robust creativity and intellectual work contributed by women to culture in the long eighteenth century Women's tributes to each other sometimes took the form of critical engagement or competition but they always exposed the feminocentric networks of artistic social and material exchange women created and maintained both in and outside of London This volume advocates for a new perspective for researching and teaching early modern women that is grounded in admiration Distributed for the University of Delaware Press

**The Paper Garden** Molly Peacock, 2011-03-29 Mary Delany was seventy two years old when she noticed a petal drop from a geranium In a flash of inspiration she picked up her scissors and cut out a paper replica of the petal inventing the art of collage It was the summer of 1772 in England During the next ten years she completed nearly a thousand cut paper botanicals which she called mosaicks so accurate that botanists still refer to them Poet biographer Molly Peacock uses close ups of these brilliant collages in The Paper Garden to track the extraordinary life of Delany friend of Swift Handel Hogarth and even Queen Charlotte and King George III How did this remarkable role model for late blooming manage it After a disastrous teenage marriage to a drunken sixty one year old squire she took control of her own life pursuing creative projects spurning suitors and gaining friends At forty three she married Jonathan Swift's friend Dr Patrick Delany and lived in Ireland in a true expression of midlife love But after twenty five years and a terrible lawsuit her husband died Sent into a netherland of mourning Mrs Delany was rescued by her friend the fabulously wealthy Duchess of

Portland The Duchess introduced Delany to the botanical adventurers of the day and a bonanza of exotic plants from Captain Cook's voyage which became the inspiration for her art Peacock herself first saw Mrs Delany's work more than twenty years before she wrote *The Paper Garden* but like a book you know is too old for you she put the thought of the old woman away She went on to marry and cherish the happiness of her own midlife in a parallel to Mrs Delany and by chance rediscovered the mosaics decades later This encounter confronted the poet with her own aging and gave her and her readers a blueprint for late life flexibility creativity and change *Lactilla, Milkwoman of Clifton* Mary Waldron, 1996 Ann Yearsley was an English poet playwright and novelist who lived most of her life in a village near Bristol Though she began her adult life as a milkwoman she later became the chief support of her family through her writing and proprietorship of a circulating library This literary biography offers the most thoroughly researched and reasoned account to date of the complex political and social causes of Yearsley's gradual exclusion from the annals of literature Yearsley published her first volume of poetry in 1785 with the support of Hannah More and other members of the Bluestocking circle who regarded her as something of a primitive savant Soon thereafter however Yearsley broke with her patrons in a bitter dispute regarding the book's profits Although condemned for ingratitude by More and her friends Yearsley continued to publish with the support of more liberal members of the establishment Nevertheless the more conservative counsels prevailed as events in France from 1789 demonstrated the dangers of popular political agitation Although Yearsley consistently rejected such activity her perceived status tended to label her at least potentially subversive Consequently most commentary on her work during her later writing life and the century after her death portrayed her primarily as the ungrateful protégée of the more acceptable More and mistakenly associated her with such avowed radicals as Mary Wollstonecraft Although present day Marxist and feminist theorists deserve much credit for revitalizing interest in Yearsley says Mary Waldron the writer has often been just as misrepresented or misunderstood by her modern champions being celebrated for the very qualities or tendencies erroneously attributed to her by earlier readers and critics With the publication of this broad literary historical study a more complete picture of Yearsley as an individual and on her own terms emerges *Bluestockings Now!* Deborah Heller, 2016-03-03 Bringing together top specialists in the field this edited volume challenges the theory that the eighteenth century British intellectual women known as the Bluestockings were an isolated phenomenon spanning the period from the 1750s through the 1790s On the contrary the contributors suggest the Bluestockings can be conceptualized as belonging to a chain of interconnected networks taking their origin at a threshold moment in print media and communications development and extending into the present The collection begins with a definition of the Bluestockings as a social role rather than a fixed group a movement rather than a static phenomenon an evolving dynamic reaching into our late modern era Essays include a rare transcript of a Bluestocking conversation new previously unknown Bluestockings brought to light for the first time and descriptions of Bluestocking activity in the realms of natural history arts and crafts theatre industry travel and international

connections The concluding essay argues that the Blues reimagined and practiced women's work in ways that adapted to and altered the course of modernity decisively putting a female imprint on economic social and cultural modernization Demonstrating how the role of the Bluestocking has evolved through different historical configurations yet has structurally remained the same the collection traces the influence of the Blues on the Romantic Period through the nineteenth century and proposes the reinvention of Bluestocking practice in the present

**Literature and Science, 1660-1834, Part I, Volume 4** Judith Hawley, 2024-10-28 This volume reproduces primary texts which embody the polymathic nature of the literature of science and provides editorial overviews and extensive references to provide a resource for specialized academics and researchers with a broad cultural interest in the long 18th century

*Novel Craft* Talia Schaffer, 2011-01-15 *Novel Craft* explores an intriguing and under studied aspect of cultural life in Victorian England domestic handicrafts the decorative pursuit that predated the Arts and Crafts movement Talia Schaffer argues that the handicraft movement served as a way to critique the modern mass produced commodity and the rapidly emerging industrial capitalism of the nineteenth century Her argument is illustrated with the four pivotal novels that form her study's core Gaskell's *Cranford* Yonge's *The Daisy Chain* Dickens's *Our Mutual Friend* and Oliphant's *Phoebe Junior* Each features various handicrafts that subtly aim to subvert the socioeconomic changes being wrought by industrialization Schaffer goes beyond straightforward textual analysis by shaping each chapter around the individual craft at the center of each novel paper for *Cranford* flowers and related arts in *The Daisy Chain* rubbish and salvage in *Our Mutual Friend* and the contrasting ethos of arts and crafts connoisseurship in *Phoebe Junior* The domestic handicraft also allows for self referential analysis of the text itself in scenes of craft production and destruction the authors articulate the work they hope their own fictions perform The handicraft also becomes a locus for critiquing contemporary aesthetic trends with the novels putting forward an alternative vision of making value and understanding art A work that combines cultural history and literary studies *Novel Craft* highlights how attention to the handicraft movement's radically alternative views of materiality consumption production representation and subjectivity provides a fresh perspective on the major changes that shaped the Victorian novel as a whole

*"Women and Things, 1750?950"* Maureen Daly Goggin, 2017-07-05 In contrast to much current scholarship on women and material culture which focuses primarily on women as consumers this essay collection provides case studies of women who produced material objects The essays collected here make an original contribution to material culture studies by focusing on women's social practices in relation to material culture The essays as a whole are concerned with women's complex and active engagement with material culture in the various stages of the material object's life cycle from design and production to consumption use and redeployment Also theorized and described are the ways in which women engaged in meaning making identity formation and commemoration through their manipulation of materials and techniques ranging from taxidermy and shell work to collecting autographs and making scrapbooks This volume takes as its object of investigation the overlooked and often

despised categories of women's decorative and craft activities as sites of important cultural and social work. This volume is interdisciplinary with essays by art historians, social historians, literary critics, rhetoricians, and museum curators. The scope of the volume is international with essays on eighteenth-century German silhouettes, Australian aboriginal ritual practices, Brittany mourning rites, and Soviet-era recipes that provide a comparative framework for the majority of essays, which focus on British and North American women who lived and worked in the long nineteenth century. This volume will appeal to a broad range of students and scholars in women's history, art history, cultural studies, museum studies, anthropology, cultural and social history, literature, rhetoric, and material culture studies. **The Art of Maria Tomasula** Soo Y. Kang, 2022-11-15

Maria Tomasula's still life paintings are absolutely captivating, dramatizing luscious objects of saturated colors and meticulous details through the spotlight effect against a dark backdrop. Beyond their immediate appeal, however, the still lifes usually contain disturbing features such as flowers being sharply pierced by hooks and nails or isolated body parts such as bones and organs that seem to be fiercely alive. Although the pictures are materialistically appealing due to the illusionistic style of the artist, they lend themselves to a depth of iconography that has not been accounted for in previous writings on her art. This book is the first comprehensive monograph on Tomasula, b. 1958, unraveling her complex iconography that is founded on her Mexican American heritage and Catholicism but also tracing the European still life tradition. It shows that her paintings reflect her feminist and philosophical leanings influenced by various intellectuals including Baruch Spinoza, Gilles Deleuze, and the proponents of New Materialism. Her still life converges the old with new interests; it pays tribute to traditional Mexican and European motifs but also reflects ideas and mannerism that speak to the contemporary audience. This research evidences the complexity of the Mexican American experience, which merges divergent cultural and ideological perspectives from Latin America, North America, and Europe in varied ways for different and unique individuals.

Queenship in Britain, 1660-1837 Clarissa Campbell Orr, 2002. *Queenship in Britain 1660-1837* looks at the lives of successive Queens, Princesses of Wales, and royal daughters and considers how they used their powers of patronage and operated within the confines of royal family politics. With contributions from an international group of scholars, this book brings together new approaches in gender history and court studies to present a re-evaluation of this previously neglected area in the study of the British monarchy. An explanation of these new approaches is contained in a substantial introduction. While the essays perform detailed discussions on a variety of more specific subjects, from how the foreign and Catholic wives of the restored Stuarts coped with a libertine court and a Protestant nation to the travails of Princesses of Wales, the marriage options of royal daughters, and the question of whether Queen Adelaide, wife of William IV, was a harmless philanthropist re-establishing royal respectability or a real political influence behind the throne. Women and the Material Culture of Death Beth Fowkes Tobin, 2017-07-05. Examining the compelling and often poignant connection between women and the material culture of death, this collection focuses on the objects women make, the images they keep, the practices they

use or are responsible for and the places they inhabit and construct through ritual and custom Women s material practices ranging from wearing mourning jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the death are explored in this collection as well as women s affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead The largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation Women have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners Death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders about the impermanence of life     *The Court Journals and Letters of Frances Burney* Fanny Burney, 2011-10-13 The second of six volumes that will present in their entirety Frances Burney s journals and letters from July 1786 when she assumed the position of Keeper of the Robes to Queen Charlotte to her resignation in July 1791 This volume reveals Burney s struggles to adjust to the customs and trials of a life of service in the Court of George III
