

Philip II

John C. Rule, John Jay TePaske

Philip II:

Philip II Patrick Williams, 2001-08-01 Four hundred years after his death Philip II remains one of the most controversial figures in history admired and reviled in equal measure He is a figure of global importance the first ruler on whose territories the sun never set He led Europe in its defence against the seemingly irresistible power of the Ottoman Empire and many of the nations of Western Europe were forged in part by their responses to his ambitions Portugal was conquered and most of Italy was controlled by him while the Low Countries England and France fought long and bitter wars against him Philip proclaimed himself the leader of Catholic Europe but quarrelled incessantly with the popes of the Counter Reformation In consolidating his monarchy in Spain Philip used the arts as a political tool Titian and Palestrina did some of their greatest work for him This new study traces the development of Philip II and of a kingship that lay at the heart of European political religious and cultural evolution It looks in detail at the ministers who worked with this most demanding of kings and at the government that evolved during his reign It deals also with the pressures of a tortured private life and explores the paradox of a man who as a young ruler was deeply prudent but who became extraordinarily aggressive in his old age and who by his successes and failures both of them on an epic scale re shaped the world in which he lived **Philip II** William Thomas

Walsh, 1989 Walsh s greatest book about Europe s most powerful king ever But more it is a panorama of the entire 16th century Covers the birth of Protestantism and the secret efforts to undermine Catholic unity the Huguenot wars in France the Sack of Rome Great Siege Battle of Lepanto Spanish Armada Council of Trent etc and Henry VIII Mary Tudor Elizabeth I St Pius V St Teresa of Avila St Ignatius of Loyola etc Reads fast never bogs down Beautiful hardbound gift edition Individually shrink wrapped for protection **Philip II of Spain and the Architecture of Empire** Laura

Fernández-González, 2021-05-08 Philip II of Spain was a major patron of the arts best known for his magnificent palace and royal mausoleum at the Monastery of San Lorenzo of El Escorial However neither the king s monastery nor his collections fully convey the rich artistic landscape of early modern Iberia In this book Laura Fern ndez Gonz lez examines Philip s architectural and artistic projects placing them within the wider context of Europe and the transoceanic Iberian dominions **Philip II of Spain and the Architecture of Empire** investigates ideas of empire and globalization in the art and architecture of the Iberian world during the sixteenth century a time when the Spanish Empire was one of the largest in the world Fern ndez Gonz lez illuminates Philip s use of building regulations to construct an imperial city in Madrid and highlights the importance of his transformation of the Simancas fortress into an archive She analyzes the refashioning of his imperial image upon his ascension to the Portuguese throne and uses the Hall of Battles in El Escorial as a lens through which to understand visual culture history writing and Philip s kingly image as it was reflected in the funeral commemorations mourning his death across the Iberian world Positioning Philip s art and architectural programs within the wider cultural context of politics legislation religion and theoretical trends Fern ndez Gonz lez shows how design and images traveled across the Iberian world

and provides a nuanced assessment of Philip's role in influencing them. Original and important, this panoramic work will have a lasting impact on Philip II's artistic legacy. Art historians and scholars of Iberia and sixteenth-century history will especially value Fernández González's research.

Imprudent King Geoffrey Parker, 2014-11-11 Philip II is not only the most famous king in Spanish history but one of the most famous monarchs in English history: the man who married Mary Tudor and later launched the Spanish Armada against her sister Elizabeth I. This compelling biography of the most powerful European monarch of his day begins with his conception 1526 and ends with his ascent to Paradise 1603, two occurrences surprisingly well documented by contemporaries. Eminent historian Geoffrey Parker draws on four decades of research on Philip as well as a recent extraordinary archival discovery: a trove of 3,000 documents in the vaults of the Hispanic Society of America in New York City, unread since crossing Philip's own desk more than four centuries ago. Many of them change significantly what we know about the king. The book examines Philip's long apprenticeship, his three principal interests: work, play, and religion, and the major political, military, and personal challenges he faced during his long reign. Parker offers fresh insights into the causes of Philip's leadership failures: was his empire simply too big to manage, or would a monarch with different talents and temperament have fared better?

Philip II of Macedonia Ian Worthington, 2008 Alexander the Great is probably the most famous ruler of antiquity. But what of his father Philip II, who united Macedonia, created the best army in the world at the time, and conquered and annexed Greece? This biography brings to light Philip's political, economic, military, social, and cultural accomplishments.

Philip II. of Spain Martin Andrew Sharpe Hume, 1899 *Philip II of Spain* Martin Andrew Sharp Hume, 1920 The World is Not Enough Geoffrey Parker, 2001 CONTENTS Preface Lecture I Managing the First Global Empire Lecture II The Messianic Vision of Philip II Bibliographic Guide Abbreviations Notes *The Mediterranean and the Mediterranean World in the Age of Philip II* Fernand Braudel, 1995 Braudel's Mediterranean is a tour de force, one of the classics of this century's historical writing. Charles Tilly, author of *As Sociology Meets History*

Philip II, the Father of Alexander the Great Edward M. Anson, 2020-10-01 Philip II was not only the father of Alexander the Great but in many respects was also the father of his son's incredible career. It was the father who unified Macedonia into the first European nation and who created the army with which his son conquered the Persian Empire and inaugurated the Hellenistic Age. This volume is not the standard biography but rather an examination of the major controversies concerning his life and reign. How did Philip in roughly twenty years transform a divided territory and little more than a geographical conception into a national state? How did he change the very nature of ancient Western warfare? How did he transform this formerly exploited region into the master of the Greek world? Each chapter discusses one of the major academic controversies surrounding this transformative figure, bringing new clarity to the career of a man whose reputation has been so overshadowed by his illustrious son.

Philip II and the Sacred War John Buckler, 2018-08-14 Preliminary Material The peace of 362 BC The road to war 363-357 BC First blood 355-354 BC Onomarchos Philip and Thessaly 354-353 BC The war widens 353-347 BC Peace in

346 BC Epilogue Chronology Internal politics at Delphoi Selected bibliography Index List of Plates Philip II. of Spain Charles Gayarré, 1866 Philip II of Spain Martin Andrew Sharp Hume, 1969 **Philip II of Macedonia** Richard A. Gabriel, 2010 Philip II of Macedonia 382 336 BCE unifier of Greece author of Greece's first federal constitution founder of the first territorial state with a centralized administrative structure in Europe forger of the first Western national army first great general of the Greek imperial age strategic and tactical genius and military reformer who revolutionized warfare in Greece and the West was one of the greatest captains in the military history of the West Philip prepared the ground assembled the resources conceived the strategic vision and launched the first modern tactically sophisticated and strategically capable army in Western military history making the later victories of his son Alexander possible Philip's death marked the passing of the classical age of Greek history and warfare and the beginning of its imperial age To Philip belongs the title of the first great general of a new age of warfare in the West an age that he initiated with his introduction of a new instrument of war the Macedonian phalanx and the tactical doctrines to ensure its success As a practitioner of the political art Philip also had no equal In all these things Philip exceeded Alexander's triumphs This book establishes Philip's legitimate and deserved place in military history which until now has been largely minimized in favor of his son by the classicist writers who have dominated the field of ancient biography Richard Gabriel renowned military historian has given us the first military biography of Philip II of Macedonia Philip II Geoffrey Woodward, 2013-11-14 Any assessment of Philip II's rule assumes the appearance of a paradox In analysing the nature and impact of Philip II's rule and government the author seeks to examine the extent of the changes in royal finance the economic and social issues the impact of religion both within Spain and throughout its Empire and the aims and motives behind the king's foreign policy **The Dream of Philip II** Edgar Maass, 1944 The Character of Philip II John C. Rule, John Jay TePaske, 1963 By the Spear Ian Worthington, 2014-05-02 Alexander the Great arguably the most exciting figure from antiquity waged war as a Homeric hero and lived as one conquering native peoples and territories on a superhuman scale From the time he invaded Asia in 334 to his death in 323 he expanded the Macedonian empire from Greece in the west to Asia Minor the Levant Egypt Central Asia and India Pakistan and Kashmir in the east Although many other kings and generals forged empires Alexander produced one that was without parallel even if it was short lived And yet Alexander could not have achieved what he did without the accomplishments of his father Philip II r 359 336 It was Philip who truly changed the course of Macedonian history transforming a weak disunited and economically backward kingdom into a military powerhouse A warrior king par excellence Philip left Alexander with the greatest army in the Greek world a centralized monarchy economic prosperity and a plan to invade Asia For the first time By the Spear offers an exhilarating military narrative of the reigns of these two larger than life figures in one volume Ian Worthington gives full breadth to the careers of father and son showing how Philip was the architect of the Macedonian empire which reached its zenith under Alexander only to disintegrate upon his death By the Spear also explores the impact of Greek culture in the East

as Macedonian armies became avatars of social and cultural change in lands far removed from the traditional sphere of Greek influence In addition the book discusses the problems Alexander faced in dealing with a diverse subject population and the strategies he took to what might be called nation building all of which shed light on contemporary events in culturally dissimilar regions of the world The result is a gripping and unparalleled account of the role these kings played in creating a vast empire and the enduring legacy they left behind

Netherlandish Books (NB) (2 Vols.) Andrew Pettegree, Malcolm Walsby, 2010-11-11 Netherlandish Books offers a unique overview of what was printed during the fifteenth and sixteenth centuries in the Low Countries This bibliography lists descriptions of over 32 000 editions together with bibliographical references an introduction and indexes It draws on the analysis of collections situated in libraries throughout the world This is the first time that all the books published in the various territories that formed the Low Countries are presented together in a single bibliography Netherlandish Books is an invaluable research tool for all students and scholars interested in the history culture and literature of the Low Countries as well as historians of the early modern book world Customers interested in this title may also be interested in French Vernacular Books edited by Andrew Pettegree Malcolm Walsby and Alexander Wilkinson

The Grand Strategy of Philip II Geoffrey Parker, 1998 From 1556 until his death in 1598 Philip II of Spain ruled the first global empire in history This book investigates the strengths and weaknesses of Philip s rule and the external factors that affected the achievement of his goals
