The Philosophical Frontiers of Christian Theology; Essays Presented to D.M. Mackinnon

Brian Hebblethwaite, 1982 *Donald MacKinnon's Theology* Andrew Bowyer, 2019-08-22 Andrew Bowyer presents the first comprehensive examination of Donald MacKinnon's theology in relation to his moral philosophy. He offers an original and creative reading of MacKinnon's methodology and important insights into the key influences and core questions which stood at the heart of his work. Bowyer outlines MacKinnon's contributions to Anglican theology in the aftermath of the Second World War, highlighting the therapeutic nature of his approach in as far as it combined a call for intense self-awareness with a commitment to moral realism. As one of the most influential Anglican theologians in the mid twentieth century, MacKinnon's writings reveal him as a restive and unsystematic thinker. However, Bowyer argues that a series of reoccurring questions, obsessions, might better honour the memory of MacKinnon's temperament, appear throughout his work, relating to the tensions between the realism and idealism, the call to be morally serious, the nature of theological truth claims, and the perennially disruptive presence of Christ. Bowyer examines the key influences on MacKinnon's thought, the centrality of Christology to his project, his engagement with literature and literary criticism, as well as his response to Wittgenstein's later philosophy. This volume offers an appreciation of his contribution and a critique of his legacy.

Theology in Transposition Myk Habets, 2013-11-01 T. F. Torrance was one of the most significant English language theologians of the 20th century, known extensively for his curatorship of the English translation of Barth's *Church Dogmatics*, but also for his own prodigious theological scholarship. The complexity and astonishing breadth of Torrance's output, however, have made assessment and appropriation markedly difficult. This volume seeks to rectify that lack of assessment through careful exposition of the vital centers and interconnections within Torrance's theology, alongside constructive appraisal and critique of his contributions to contemporary theology.

Trinitarian Personhood Bill Ury, 2002-02-01 The concept of the person is a crucial yet elusive component in the development of Western thought. Few

concepts are as replete with definitional difficulty Equally important is the application of a proper definition to all major Christian doctrinal commonplaces This work recognizing the insufficiency of modern theology to offer a cogent concept of person proposes a thorough historical and theological evaluation of Trinitarian personhood presented in three critical paradigm shifts by which one can measure the development of the idea of true personhood presented The three watershed eras of discernment of divine personhood presented are seen here as first the Cappadocian position of the mutual indwelling perichoresis of the divine persons is contrasted with Augustine's view of the place of relations in defining divine persons Second the ideas of Richard of St Victor whose *caritas consummata* and its relational implications met the nemesis of the Thomistic category of subsistent relations And last as an example of this important discussion in modernity the German Heribert Mhlen's dynamic phenomenological approach to Triune personhood is offered as a means of countering the implicit modalisms of Barth and Rahner If the personhood of God is in essence Being in Another then Christianity must apply that ontology to all sectors of reality to be fully Christian

Thomas F. Torrance Paul D. Molnar, 2016-02-17 This book provides an important study of the theology of Thomas F Torrance who is generally considered to have been one of the most significant theologians writing in English during the twentieth century with a view toward showing how his theological method and all his major doctrinal views were shaped by his understanding of the doctrine of the Trinity Torrance pursued a theology that was realist because he attempted to think in accordance with the unique nature of the object that is known In holding to such a methodology he drew an analogy between theology and natural science This book demonstrates how for Torrance God relates with humanity within time and space so that creation finds its meaning in relation to God and not in itself this enabled him to avoid many theological pitfalls such as agnosticism subjectivism and dualism while explaining the positive implications of various Christian doctrines in a penetrating and compelling manner This book offers an important resource for students of theology and for scholars who are interested in seeing how serious dogmatic theology shapes and should shape our understanding of the Christian life

A Model for Evangelical Theology Graham McFarlane, 2020-09-15 Written by a skilled theologian with over two decades of classroom experience this introduction to evangelical theology explains how connecting to five sources of Christian theology Scripture tradition reason experience and community leads to a richer and deeper understanding of the faith Graham McFarlane calls this the evangelical quintilateral which he recommends as a helpful rubric for teaching theology This integrative model introduces students to the sources themes tasks and goals of evangelical theology making the book ideal for introductory theology courses

Reason in the Service of Faith Paul Helm, 2023-03-01 Paul Helm is a distinguished philosopher with particular interests in the philosophy of religion His work covers some of the most important aspects of the field as it has developed in the last thirty years with particular contributions to metaphysics religious epistemology and philosophical theology In celebration of Helm's life's work *Reason in the Service of Faith* brings together a range of his essays which reflect these central concerns of his thought Over thirty of

Helm's selected essays and four unpublished articles are gathered into five parts: Metaphilosophical Issues, Action, Change, and Personal Identity, Epistemology, God and Creation, Providence, and Prayer. The volume is prefaced with a short editorial introduction and ends with an extensive bibliography of Helm's published works. Encountering Reality Travis M. Stevick, 2016-12-01 Encountering Reality argues for a new appreciation of T. F. Torrance on epistemology and reality. According to Torrance's realism, all authentic knowledge involves the nature of the object impressing its inherent rationality on the mind. Consequently, knowledge involves thinking in accordance with the nature of the object. We shall explore the place and function of ultimate beliefs in epistemology as well as the question as to whether such beliefs imply a retreat to either foundationalism or fideism. The inescapability of ultimate beliefs in all human knowledge requires a shift in the traditional notion of objectivity. We find that shift in the account provided by T. F. Torrance, whose epistemological position implies an alternative notion of truth. Drawing on distinctly Christian sources, Torrance emphasizes the distinction between truth and truthfulness, thereby reorienting the discussion from a focus on statements to a focus on being. This shift challenges the dichotomy between correspondence and coherence theories of truth and provides one way of transcending the scientific realism/anti-realism debate and gives rise to a practical epistemological tool: disclosure models, which function as self-correcting, self-marginalizing lenses through which we encounter reality, yielding knowledge in accordance to the nature of the thing known.

Understanding the Word James T. Butler, Bernhard W. Anderson, Edgar W. Conrad, Ben C. Ollenburger, 1985-01-01

A Short History of Atheism Gavin Hyman, 2010-09-30 The last few years have seen a remarkable surge of popular interest in the topic of atheism. Books about atheism by writers like Richard Dawkins and Christopher Hitchens have figured prominently in bestseller lists and have attracted widespread discussion in the media. The ubiquity of public debates about atheism, especially in conscious opposition to the perceived social threat posed by faith and religion, has been startling. However, as Gavin Hyman points out, despite their prevalence and popularity, what often characterises these debates is a lack of nuance and sophistication. They can be shrill, ignorant of the historical complexity of debates about belief, and tend to lapse into caricature. What is needed is a clear and well-informed presentation of how atheistic ideas originated and developed in order to illuminate their contemporary relevance and application. That task is what the author undertakes here. Exploring the rise of atheism as an explicit philosophical position, notably in the work of Denis Diderot, Hyman traces its development in the later ideas of Descartes, Locke, and Berkeley. Drawing also on the work of contemporary scholars like Amos Funkenstein and Michael J. Buckley, the author shows that since in recent theology the concept of God, which atheists negate, is changing, the triumph of its advocates may not be quite as unequivocal as Hitchens and Dawkins would have us believe.

Kant's International Relations Sean Patrick Molloy, 2019-01-23 Why does Immanuel Kant (1724-1804) consistently invoke God and Providence in his most

prominent texts relating to international politics In this wide ranging study Sen Molloy proposes that texts such as Idea for a Universal History with Cosmopolitan Intent and Toward Perpetual Peace cannot be fully understood without reference to Kant's wider philosophical projects and in particular the role that belief in God plays within critical philosophy and Kant's inquiries into anthropology politics and theology Molloy's broader view reveals the political theological dimensions of Kant's thought as directly related to his attempts to find a new basis for metaphysics in the sacrifice of knowledge to make room for faith This book is certain to generate controversy Kant is hailed as the greatest of all theorists in the field of International Relations IR in particular he has been acknowledged as the forefather of Cosmopolitanism and Democratic Peace Theory Yet Molloy charges that this understanding of Kant is based on misinterpretation neglect of particular texts and failure to recognize Kant's ambivalences and ambiguities Molloy's return to Kant's texts forces devotees of Cosmopolitanism and other Kantian schools of thought in IR to critically assess their relationship with their supposed forebear ultimately they will be compelled to seek different philosophical origins or to find some way to accommodate the complexity and the decisively nonsecular aspects of Kant's ideas

Theological Ethics W. Ross Hastings, 2021-02-02 Be Prepared to Think Theologically through Today's Most Pressing Ethical and Moral Issues In Theological Ethics theologian pastor and ethicist W Ross Hastings gives pastors ministry leaders and students a guide designed to equip them to think deeply and theologically about the moral formation of persons in our communities about ethical inquiry and action and about the tone and content of our engagement in the public square The book presents a biblical perspective and a gospel centered framework for thinking about complex contemporary issues in ways that are life giving and that will lead readers into greater flourishing as human persons in community This book is distinctive in presenting A framework for theological ethics that is robustly theological and Trinitarian Ethics isolated from the gospel and theology becomes bad news but when it is informed by and empowered by participation in the triune God of grace it is part of the good news of the gospel An approach to theology and theological ethics that makes the Word of God the ultimate authority and it is therefore grounded in the biblical narrative and texts An understanding that theological ethics are inherently missional The church as the image of the triune God makes it the home of ethics but in light of its missional identity it will reverberate outwards to engage the world in ways that are humble and not power mongering that are gospel based and shalom evoking Theological Ethics is for those who lead churches or ministries or someday will and who urgently need deep theological grounding as they daily encounter ethical and moral issues where they need to provide a gracious truthful and gospel directed response X

Communion with the Triune God Dick O Eugenio, 2014-08-28 The revival of Trinitarian studies in the twentieth century ushered in a new era of theological innovation The renewed and dedicated articulation of the Trinity as a doctrine in its own right is indeed noteworthy but more important and praiseworthy are the recent endeavours of theologians to integrate the doctrine of the Trinity with other Christian doctrines and with the many variegated aspects of the life and ministries of the church Today it is common to

encounter the term Trinitarian being used as a modifier Trinitarian worship Trinitarian ecclesiology etc This book presents Thomas F Torrance as a participant theologian in this integrative paradigm Because Torrance argues that the Trinity is the ground and grammar of theology his doctrine of salvation is consistently Trinitarian But how did he formulate his unique Trinitarian soteriology Communion with the Triune God seeks to answer this question **Kant and Theology at the Boundaries of Reason** Chris L. Firestone, 2016-04-22 This book examines the transcendental dimension of Kant's philosophy as a positive resource for theology Firestone shows that Kant's philosophy establishes three distinct grounds for transcendental theology and then evaluates the form and content of theology that emerges when Christian theologians adopt these grounds To understand Kant's philosophy as a completed process Firestone argues theologians must go beyond the strictures of Kant's critical philosophy proper and consider in its fullness the transcendental significance of what Kant calls rational religious faith This movement takes us into the promising but highly treacherous waters of Kant's Religion within the Boundaries of Mere Reason to understand theology at the transcendental bounds of reason *Knowledge of the Self-Revealing God in the Thought of Thomas Forsyth Torrance* John Douglas Morrison, 2005-02-07 This work examines Thomas Forsyth Torrance's concern for the modern re-entrenchment of dualism as it has negatively affected the Christian faith and the realist knowledge of God in Christ Additionally an analysis is made of Torrance's program to faithfully restore theological thinking theological science and true objectivity out of the Christocentric Trinitarian self-disclosure of God via the modern return to critical realist epistemology in the physical sciences e.g. Einstein Polanyi The study concludes with a critical examination of the adequacy and completeness of Torrance's endeavor the problem of residual dualism in the light of his own theological and redemptive concerns **Theology and the Mirror of Scripture** Kevin J. Vanhoozer, Daniel J. Treier, 2015-12-09 In this inaugural volume in the Studies in Christian Doctrine and Scripture Daniel J. Treier and Kevin J. Vanhoozer set forth a programmatic proposal for evangelical theology rooted in the claim that the church's vocation is to mirror the witness of Scripture in its doctrine and discipleship **T. F. Torrance's Reconstruction of Natural Theology** Alexander J. D. Irving, 2019-07-15 T. F. Torrance's proposal for natural theology constitutes one of the most creative and provocative elements in his work By re-envisioning natural theology as the cognitive structure of theology determined by God's self-revelation in Jesus Christ and not as the task of philosophically reflecting on the nature or existence of God aside from religious presuppositions Torrance moves through and beyond Barth's resistance to natural theology This book establishes Torrance's unique reconstruction of natural theology within its proper intellectual context providing a fresh analysis of this important methodological innovation as it emerges from Torrance's realist epistemology As Irving demonstrates in Torrance's distinctive conception of science he operated with an approach to cognition that functions via a realist synthesis of experience and understanding and in Torrance's theological science this synthesis of experience and understanding is the synthesis of revealed theology and natural theology The author argues that this reconstruction of natural theology expresses

a dramatic vision for human agency within theological cognition adding the necessity of the human knowing subject to the priority of the divine revealer Finally this book marries Torrance s accomplishments in reconstructing natural theology to his Christocentric theological method in which God is both revealed and known in the person of Jesus Christ fully God and fully human Kant and the Question of Theology Chris L. Firestone,Nathan A. Jacobs,James H. Joiner,2017-09-21 Kant scholars and analytic philosophers use varied perspectives to address problems surrounding Kant s theories of God and religion
