Self-Reflection Sandra Christian, 2020-04-16 How often do you take time to reflect When do you feel safe enough to be vulnerable Can you be completely honest with yourself about what you think and feel Sandra Christian takes us on a fascinating journey in this book A woman of mixed ethnical origin she was classified at birth as Colored Indian under the Apartheid regime in South Africa where she tried to find peace despite being different She later flees to Europe as a young mother where under great psychological pressure she establishes herself and succeeds in creating a life for herself and her son Only it comes at a cost In this book she reflects on numerous aspects of her life that have made

her the woman she is today She encourages you the reader though poignant questions to stand still and seriously connect with your inner self helping you to understand why you do the things you do and showing you how to create the amazing life you desire *God's Existence: Religious and Scientific Reflection* Ravi K. Puri Ph.D.,2022-12-06 When war crimes and calamities occur the belief in God is shaken The idea comes to mind Does God Exist If there is a God then why is he not preventing deadly events comprising genocides assassinations crimes and atrocities On the contrary He does not interfere That means there is no God Are people worshiping at various religious places Churches Mosques and Temples for various reasons wasting their time If God does not exist all these religious places should be closed and turned into cinemas entertainment clubs and sports stadiums God is not any object that His existence can be proved It can be felt by seeing His splendid creation The act of creation reveals the creator To know His existence is to know his magnificent creation and redemption He is the transcendent designer and has not revealed Himself so far to anyone No God His prophet deputy or beloved can interfere with any life on any planet Each soul has its journey and is responsible for its actions God is apathetic to the creation of the universe or any happening in the universe The universe goes on as per its natural laws So let us not blame God for any catastrophe occurring in the world **The Names of God in Judaism, Christianity, and Islam** Máire Byrne,2011-07-07 This book offers a welcome solution to the growing need for a common language in interfaith dialogue particularly between the three Abrahamic faiths in our modern pluralistic society The book suggests that the names given to God in the Hebrew Bible the New Testament and the Qur'an could be the very foundations and building blocks for a common language between the Jewish Christian and Islamic faiths On both a formal interfaith level as well as between everyday followers of each doctrine this book facilitates a more fruitful and universal understanding and respect of each sacred text exploring both the commonalities and differences between each theology and their individual receptions In a practical application of the methodologies of comparative theology Maire Byrne shows that the titles names and epithets given to God in the sacred texts of Judaism Christianity and Islam contribute towards similar images of God in each case and elucidates the importance of this for providing a viable starting point for interfaith dialogue *The Islamic Guide to Depression: 10 Spiritual Reflections* Idris Salik,2024-01-29 Embark on a transformative journey towards healing and inner peace with *The Islamic Guide to Overcoming Depression 10 Spiritual Reflections* by Idris Salik In this profound guide Salik seamlessly blends Islamic spirituality with practical insights to offer a holistic approach to managing depression and nurturing mental health Idris Salik drawing from a deep well of Islamic teachings and personal experiences provides a compassionate and wise perspective on the often daunting challenges of depression Through ten key spiritual reflections readers are guided towards a profound understanding of life's complexities learning valuable tools for managing mental health and cultivating resilience Each reflection from Subsistence to Transcendence unveils a unique facet of the Islamic approach to tackling depression providing valuable insights for those navigating the delicate terrain of mental health Salik delves into the significance of

Happiness and Well-Being in Islam Sálua Omais, 2025-07-16 This book presents a theoretical model to understand happiness and well being in Islam combining a positive psychology approach and the teachings of the Quran and the Sunnah With the evolution of positive psychology the study of well being gained broader and deeper dimensions that today encompass different peoples cultures and worldviews The fact that most of the knowledge disseminated around the world has been built from a Western perspective has created gaps in science about non Western people's cultures and worldviews This reality has given rise to new epistemological trends such as the revival of Islamic psychology which seeks to recover classic knowledge and include new theoretical perspectives on the human psyche in line with Islamic beliefs and values The topic of well being in Islam has aroused interest among Western researchers in recent years both in positive psychology due to its third wave and in the field of the psychology of religion While Western science fragments knowledge into different areas of psychology focusing on behaviors and actions that generate positive emotional states and relationships the conception of well being in Islamic psychology seems to coordinate all these behaviors with values meanings and spiritual connections integrating content from various approaches holistically It is a system that connects beliefs religious teachings spiritual practices and prosocial behaviors based on a logic in which God the individual and society are closely related to each other Happiness and Well Being in Islam will be of interest to both researchers and practitioners in fields such as clinical psychology psychological assessment positive psychology psychology of religion and Islamic psychology by providing

Thus in this book author Ayesha Syahira shares her comforting words of reflection that guides the heart to seek the mercy of Allah in the face of turbulent storms in life.

Western Reflections on Islam Kristian Ulrichsen, 2007

Western Reflections on Islam is a detailed and insightful analysis of the state of the current relationship between western nations and the Muslim world. Beginning with a historical tracing of perceptions of Islam in the West from the early Middle Ages until the present day, the publication sets out the key factors that have shaped and continue to shape the primarily negative relationship that currently dominates. This negative perception ignores the primary role that Islam played in the mediaeval period in preserving the intellectual heritage of the ancient world at a time when western civilization was in decline during the Dark Ages. The first part of the book explores the various phases of the complex and multi-dimensional relationship between Islam and the West over the centuries.
