Philanthropy in England, 1480 - 1660 W. K. Jordan, 2013-10-28 This study documents a momentous shift which occurred in men's aspirations for their society in the course of the sixteenth and seventeenth centuries The author has examined gifts and bequests left for charitable causes over a period of nearly two centuries in ten English counties in order to assess the changing pattern of social aspirations and observe the different velocities of change among the several social classes Professor Jordan examines the problem of poverty in the early modern world and discusses the various measures taken by the Tudors and Stuarts to deal with the needs of the poor He concludes that poverty was principally relieved by an immense outpouring of charitable wealth This wealth flowed principally from an urban aristocracy determined not only to care for the hopelessly destitute but so to enlarge the area of opportunity so that poverty could be prevented At the same time the Elizabethan law of charitable uses marshalled this generous wealth into effective agencies The study closes with a full assessment of the noble achievements of the period the founding of a widespread and effective system of education the establishment of almshouses in all parts of England and extraordinary and fertile experiments with the several agencies of social rehabilitation The author records in this volume a great and enduring historical achievement he records as well the triumph of the secular preoccupations of mankind This book was first published in 1959

He discusses relatively neglected aspects of the subject such as the death bed will making and the last rites He also examines the rich variety of commemorative media and practices and is the first to describe the development of the English funeral sermon between the late Middle Ages and the eighteenth century Dr Houlbrooke shows how the need of the living to remember the dead remained important throughout the later medieval and early modern periods even though its justification and means of expression changed *Cognitive Ecologies and the History of Remembering* E. Tudor England Lucy Wooding,2023-01-03 A compelling authoritative account of the brilliant conflicted visionary world of Tudor England When Henry VII landed in a secluded bay in a far corner of Wales it seemed inconceivable that this outsider could ever be king of England Yet he and his descendants became some of England s most unforgettable rulers and gave their name to an age The story of the Tudor monarchs is as astounding as it was unexpected but it was not the only one unfolding between 1485 and 1603 In cities towns and villages families and communities lived their lives through times of great upheaval In this comprehensive new history Lucy Wooding lets their voices speak exploring not just how monarchs ruled but also how men and women thought wrote lived and died We see a monarchy under strain religion in crisis a population contending with war rebellion plague and poverty Remarkable in its range and depth Tudor England explores the many tensions of these turbulent years and presents a markedly different picture from the one we thought we knew

Empire, Religion and Revolution in Early Virginia, 1607-1786 J. Bell,2013-07-30 The book is a new study that examines the contrasting extension of the Anglican Church to England s first

two colonies Ireland and Virginia in the 17th and 18th centuries It discusses the national origins and educational experience of the ministers the financial support of the state and the experience and consequences of the institutions Were We Ever Protestants? Sivert Angel, Hallgeir Elstad, Eivor Andersen Oftestad, 2019-09-23 This anthology discusses different aspects of Protestantism past and present Professor Tarald Rasmussen has written both on medieval and modern theologians but his primary interest has remained the reformation and 16th century church history In stead of a traditional Festschrift honouring the different fields of research he has contributed to this will be a focused anthology treating a specific theme related to Rasmussen s research profile One of Professor Rasmussen s most recent publications a little popularized book in Norwegian titled What is Protestantism reveals a central aspect research interest namely the Weberian interest for Protestantism s cultural significance Despite difficulties he finds the concept useful as a Weberian Idealtypus enabling research on a phenomenon combining theological historical and sociological dimensions Thus he employs the Protestantism as an integrative concept to trace the makeup of today s secular societies This profiled approach is a point of departure for this anthology discussing important aspects of historiography in reformation history Continuity and breaks surrounding the reformation contemporary significance of reformation history research traces of the reformation in today s society The book relates to current discussions on Protestantism and is relevant to everyone who want to keep up to date with the latest research in the field *Pottery and Social Life in Medieval England* Ben Jervis, 2014-07-31 How can pottery studies contribute to the study of medieval archaeology How do pots relate to documents landscapes and identities These are the questions addressed in this book which develops a new approach to the study of pottery in medieval archaeology Utilising an interpretive framework which focuses upon the relationships between people places and things the effect of the production consumption and discard of pottery is considered to see pottery not as reflecting medieval life but as one actor which contributed to the development of multiple experiences and realities in medieval England By focussing on relationships we move away from viewing pottery simply as an object of study in its own right to see it as a central component to developing understandings of medieval society The case studies presented explore how we might use relational approaches to re consider our approaches to medieval landscapes overcome the methodological and theoretical divisions between documents and material culture and explore how the use of objects could have multiple implications for the formation and maintenance of identities The use of this approach makes this book not only of interest to pottery specialists but also to any archaeologist seeking to develop new interpretive approaches to medieval archaeology and the archaeological study of material culture

Roots of Reform: Contextual Interpretation of Church Fittings in Norfolk During the English Reformation

Jason Robert Ladick, 2021-06-10 This volume provides a thorough examination of the impact of the English Reformation through a detailed analysis of medieval and early modern church fittings surviving at parish churches located throughout the

county of Norfolk in England *Receiving Back One's Deeds* Benjamin M. Dally, 2022-11-16 This book investigates the relationship between justification by faith and final judgment according to works as found in Paul's second epistle to the Corinthians within a Protestant theological framework Benjamin M Dally first demonstrates the diversity and breadth of mainstream Protestant soteriology and eschatology beginning at the time of the Reformation by examining the confessional standards of its four primary ecclesial theological streams Lutheran Reformed Anabaptist and Anglican The soteriological structure of each is assessed i.e. how each construes the relationship between justification and final judgment with particular attention given to how each speaks of the place of good works at the final judgment This initial examination outlines the theological boundaries within which the exegesis of Second Corinthians can legitimately proceed and illuminates language and conceptual matrices that will be drawn upon throughout the remainder of the book Then drawing upon the narrative logic of Paul's Early Jewish thought world Dally examines the text of Second Corinthians to discern its own soteriological framework paying particular attention to both the meaning and rhetorical function of the judgment according to works motif as it is utilized throughout the letter The book concludes by offering a Protestant synthesis of the relationship between justification and final judgment according to works in Second Corinthians giving an explanation of the role of works at the final judgment that arguably alleviates a number of tensions often perceived in other readings devoted to this key aspect of Pauline exegesis and theology Dally ultimately argues a three fold thesis 1 For the believer one's earthly conduct taken as a whole is best spoken of in the language of inferior secondary cause and or basis as far as its import at the last judgment 2 One's earthly conduct again taken as a whole is soteriologically necessary not solely but secondarily nonetheless and not simply of importance for the bestowal of non soteriological eschatological rewards 3 There are crucial resources from within mainstream Protestantism to authorize such ways of speaking and to simultaneously affirm these contentions in conjunction with a robust strictly forensic imputational traditional Protestant understanding of the doctrine of justification by faith alone

De uiris illustribus John Leland, 2010 Equipped with some sort of commission from Henry VIII John Leland began to record the contents of English monastic libraries in 1533 and carried on until 1536 or shortly after when the first dissolutions occurred His booklists were compiled in preparation for his comprehensive dictionary of British writers entitled *De uiris illustribus* This remarkable document a proto Dictionary of National Biography lay incomplete at Leland's death The sole extant witness is the autograph manuscript now Oxford Bodleian Library MS Top gen c 4 Although antiquaries made use of *De uiris illustribus* over the next generations it did not see its way into print until 1709 when Anthony Hall produced a sometimes inaccurate edition a significant number of passages omitted under the title *Commentarii de scriptoribus Britannicis* Hall's text has formed the basis for subsequent scholarship Carley's new edition is based on a thorough examination of the autograph supplemented with readings from John Bale's epitome now Cambridge Trinity College MS R 7 15 753 The original order of Leland's text in instances where Hall was misled by multiple accretions has been restored and

longer omitted passages have been included This new edition establishes how unreliable and misleading Hall s was in many respects The facing English translation seeks to capture Leland s own excitement with his project and also to convey his shifts in interpretation during the process of revision the text mirrors in miniature the stages of the English reformation under Henry VIII The extensive introduction provides a full history of the manuscript examines sources and shows the relationship of the text to Leland s booklists and other contemporary documents
