Russia From Workers State To State Capitalism:

Russia Peter Binns, Tony Cliff, Chris Harman, 1987 From Workers State to State Capitalism *State Capitalism in Russia* Tony Cliff, 2018-07-24 State Capitalism in Russia first published in 1955 offers a radically different interpretation of what happened in the decades after the Russian Revolution that Stalin's assault on the gains of the 1917 revolution caused the reemergence of class divisions and capitalist modes of production This argument about the development of state capitalism became a cornerstone of an anti Stalinist socialist movement that insisted that socialism must be founded on workers power and mass democracy **Russia: From Proletarian Revolution to State-Capitalist Counter-Revolution** Raya Dunayevskaya, 2017-07-10 Russia From Proletarian Revolution to State Capitalist Counter Revolution is a selection of writings by the Marxist Humanist philosopher Raya Dunayevskaya which begins with an examination of Lenin's Hegel Notebooks his philosophic preparation for proletarian revolution followed by a section on What Happens After the revolution the first years post 1917 Analyses of Trotsky Stalin Bukharin and Luxemburg are presented A key section is Russia's Transformation into Opposite The Theory of State Capitalism Opposition to Russian state capitalism such as the 1953 East Germany Revolt and the 1956 Hungarian Revolution are described Mao's China as another form of state capitalism as well as the Sino Soviet conflict is discussed The study ends with a battle of ideas with other analyses of the Revolution and its aftermath **What Was The USSR?** Aufheben Collective, 2020-10-13 The Russian Revolution and the subsequent establishment of the USSR as a workers state has dominated political thinking for more than three generations In the past it seemed enough for communists to define their radical separation with much of the left by denouncing the Soviet Union as state capitalist This is no longer sufficient if it ever was Many Trotskyists for example now feel vindicated by the restoration of capitalism in Russia To transform society we not only have to understand what it is we also have to understand how past attempts to transform it failed In What Was The USSR Aufheben explores the inadequacies of the theory of the USSR as a degenerated workers state and the various versions of the theory that the USSR was a form of state capitalism Aufheben is a UK based libertarian communist journal that has been active since 1992 What Was The USSR was a series of articles published by them in issues 6-9 between 1997 and 2000 The Radical Reprint by Pattern Books is made to be as accessible and as close to manufacturing cost as possible *A History of Marxian Economics, Volume II* Michael Charles Howard, John Edward King, 2014-07-14 This second volume completes a critical history of the social political and theoretical forces behind Marxian economics the only work in English to offer such comprehensive treatment Beginning with Marxian analyses of the Great Depression and Stalinism it explores the theories developed to explain the long boom in Western capitalism after the Second World War Later chapters deal with post Leninist theories of imperialism and continuing controversies in value theory and the theory of exploitation After outlining recent work on the second slump the integration of rational choice theory into Marxism and the political economy of socialism the book concludes with a review and evaluation of Marxian

theory over the whole period since Marx's death. Praise for the first volume: Howard and King have done an excellent job. One comes away with the impression of Marxian economics being a vibrant subject relevant to the problems of these times and useful in practical matters. Meghnad Desai, *The Times Higher Education Supplement*. Originally published in 1992. The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

[Russia: From Revolution To Counter-Revolution](#) Ted Grant, **Rethinking Theory and History in the Cold War** Richard Saull, 2001. *Rethinking Theory and History in the Cold War* focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War. Using an historical materialist method, the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio-economic production. Seen from this perspective, the state, the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society. **BOOK JACKET**

Marx's Labor Theory of Value Hayashi Hiroyoshi, 2005. Karl Marx's ideas have been declared dead on more than one occasion only to emerge with new relevance a few years later. But the collapse of communism seemed to be the final nail in his coffin. The end of history had been reached, we were told, and poor old Karl was wrong. Or was he? In *Marx's Labor Theory of Value: A Defense*, Hayashi Hiroyoshi argues that Marx will continue to be relevant as long as capitalism continues to exist. This is simply because no one grasped the nature of capitalism on a more profound level than Marx did. Hayashi presents the most fundamental aspects of Marxist economic thought, centering on the discussion of the commodity at the beginning of *Capital*. Also included are detailed examinations of Adam Smith's theory of value and the concepts of ground rent, credit, and productive labor. Hayashi shows that Marx's labor theory of value is the key not only to understanding capitalism but also for grasping the essential characteristics of socialism. And socialism as the real solution to the contradictions of capitalism turns out to have little in common with the recently deceased communist states. Now that history has resumed after its brief hiatus, it's time to return to Marx.

[Ted Grant Selected Works](#) Ted Grant, 2018-12-20. The reissue of the first volume of Ted Grant's *Selected Works* marks a new stage in making his ideas more widely known to a new generation of Marxists. Stalinism may no longer be as pressing an issue as it was in the latter half of the 20th century, but it is far more than a theoretical/historical question today. The situation is deeply impacted by the events of the past. In the post-World War II period, Marxists had to explain the phenomenon of Stalinism, which was no longer confined to the degenerated workers' state of the USSR but was spreading

around the world While every other leader of the Fourth International lost their bearings on this and every other fundamental question veering to ultraleftism opportunism reformism and even the extreme right Ted stayed the course sticking to the fundamentals of Marxism to navigate these uncharted waters His writings on these momentous and complex events are a textbook example of how to apply the ideas of Lenin and Trotsky to the changing world around us a must read for all those who wish to master the Marxist method By Ted Grant with an updated introduction by John Peterson **The Next**

Democracy? Tony Milligan, 2016-07-18 Representative democracy has long been problematic and subject to erosion through the introduction of components of direct democracy referenda voter initiatives and systems of recall Following the increase of direct action across the world through the Occupy movement and the rise of new populist parties championing greater citizen inclusion in decision making many are considering whether the hierarchical system of political control might have had its day But what might be the alternative next democracy This book considers the viability of a populist conception of democratic organization which puts power into the hands of ordinary citizens Examining contemporary and classic theory to contextualize the critique of existing systems the book goes on to explore alternative arrangements tested out by activists eco protestors and anti capitalists from the recent Occupy agenda to Gandhi s experiments in alternative living Milligan confronts the practical challenges posed by these systems of direct democracy and discusses the considerable difficulties of scaling up and sustaining them in state level contexts Whilst the book concedes that such concerns are genuine it argues that a theory of generalized direct democracy can shake off its utopian aspirations and become a legitimate alternative for the future **Raya Dunayevskaya: Philosopher of Marxist-Humanism** Eugene Gogol, 2004-07-28 This study of the origins and development of Marxist Humanism probes the philosophic organizational labors of Raya Dunayevskaya Beginning with her work as secretary to Leon Trotsky in exile in Mexico in 1937-38 the book explores her development of state capitalist theory in the 1940s and her thought dive into Hegel s Absolutes in the 1950s Each of Dunayevskaya s major works Marxism and Freedom 1958 Philosophy and Revolution 1973 and Rosa Luxemburg Women s Liberation and Marx s Philosophy of Revolution 1983 is examined inseparable from the objective world events and revolutionary subjectivity that unfolded from the 1940s into the 1980s The U S Russia super power rivalry the Sino Soviet Conflict the rise of the Afro Asian Latin American and East European revolts and revolutions together with the Black Di mension Women s Liberation anti war youth and rank and file labor struggles in the United States all in fusion with the re creation of the Hegelian and Marxian dialectic in the later half of the twentieth century formed the contours of Dunayevskaya s labors traced within this new work Her final unfinished and unpublished studies on Dialectics of Organization and Philosophy are examined in the concluding part

Zheng Chaolin, Selected Writings, 1942-1998, 2022-12-05 Zheng Chaolin helped found the Chinese Communist Party s European branch in Paris in 1922 and its Trotskyist Opposition in Shanghai in 1931 He held the world record in political imprisonment seven years under Chiang Kai shek as a revolutionary and 27 under Mao as a counterrevolutionary thus

beating by a year Auguste Blanqui's previous record After joining the revolution in his teens his commitment never wavered Born in 1901 he died in 1998 so his life was coterminous with the century and a dramatic embodiment of its vicissitudes This book is record of his contribution to revolutionary thought in China *Marxism and Freedom* Raya

Dunayevskaya,2024-01-11 In this classic exposition of Marxist thought Raya Dunayevskaya with clarity and great insight traces the development and explains the essential features of Marx's analysis of history Using as her point of departure the Industrial and French Revolutions the European upheavals of 1848 the American Civil War and the Paris Commune of 1871 Dunayevskaya shows how Marx inspired by these events adapted Hegel's philosophy to analyze the course of history as a dialectical process that moves from practice to theory The essence of Marx's philosophy as Dunayevskaya points out is the human struggle for freedom which entails the gradual emergence of a proletarian revolutionary consciousness and the discovery through conflict of the means for realizing complete human freedom But freedom for Marx meant freedom not only from capitalist economic exploitation but also from all political restraints Continuing her historical analysis Dunayevskaya reveals how completely Marx's original conception of freedom was perverted through its adaptations by Stalin in Russia and Mao in China and the subsequent erection of totalitarian states The exploitation of the masses persisted under these regimes in the form of a new state capitalism Yet despite the profound derailment of Marxist political philosophy in the twentieth century Dunayevskaya points to developments such as the Hungarian revolt of 1956 and the Civil Rights struggles in the United States as signs that the indomitable quest for freedom on the part of the downtrodden cannot be forever repressed The Hegelian dialectic of events propelled by the spirit of the masses thus moves on inexorably with the hope for the future achievement of political economic and social freedom and equality for all **Toward the United Front** Communistische

Internationale,2011-10-14 This book offers for the first time in English the proceedings and decisions of the last congress of the Communist International held in Lenin's lifetime With an analytic introduction detailed footnotes 500 biographic notes glossary chronology and index **Russia in Transition** Elisha M. Friedman,2017-07-06 B Capital Requirements C

Machinery D Labor E Management 1 The Organization Of Industry 2 Lack Of Experience 3 Lack Of Engineers 4 Training Of Russian Engineers 5 Attitude Toward Bourgeois Engineers a Conciliation of Bourgeois Engineers b Reasons for Reversal of Attitude c Results of the New Policy 6 Penalties vs Initiative 7 Foreign Technical AID a Benefits b Difficulties c Remedies Proposed d Suspension F Foreign Contracts 1 American Corporation Contracts 2 Magnitogorsk Steel Plant 3 Foreign Concessions 4 Contracts With Individuals 5 Comments And Recommendations Of Foreign Engineers G Scientific Management Or Rationalization 1 Methods 2 Establishment Of Wage Rates a Piece Work and Bonuses b Errors in Rate Making 3 Trade Union Attitude 4 The Five Day Week a Theory b Practice c Stalin's Views d Abandonment of the Five Day Week 5 Automatic Devices 6 Lack Of An Efficient Spirit 7 Poor Planning And Inadequate Routing 8 Typical Situations a Stalingrad Tractor Plant b Magnitogorsk Steel Plant c Rostov Agricultural Machinery Plant d Nizhni Novgorod Automobile

Business Histories of the GDR and Yugoslavia Vladimir Unkovski-Korica, Saša Vejzagić, 2024-11-08 This book breaks new ground taking business history where it has only reluctantly gone in the past The introduction reviews the small but growing literature based on fresh archival materials which investigates the history of business organisation in the Global East or the Second World in the Cold War It argues that there is already a great variety of approaches that go beyond the view of the Soviet style firm as primarily a production function Focusing on East Germany and Yugoslavia seven chapters showcase new directions in the field and demonstrate that the combination of business history with other historical and disciplinary approaches can help unpack the diversity of historical experiences explain geographical variances and offer new avenues for synthesis The volume s exploration of different historical eras including those of postwar reconstruction through globalisation to transformation also shows that the Global East should not be treated as disconnected from the rest of the world but as part of wider global trends As such the volume makes a plea for the utility of studying the Global East to business history and the utility of business history to the study of the Global East The chapters in this book were originally published as a special issue of Business History Soviet Russia ,1922 **The Socialist Alternative to Bolshevik Russia** Elizabeth White, 2010-10-08 This book examines the role of the Socialist Revolutionary party which had been the largest and most popular party in Russia in 1917 and shows how after the October revolution rather than disappearing led by its leadership in exile it continued to observe and comment on developments in Russia *Industrial Pioneer* ,1921 Soviet Russia Pictorial ,1922

Recognizing the mannerism ways to get this books **Russia From Workers State To State Capitalism** is additionally useful.
