In Western religious traditions God is conventionally conceived as a humanlike creator lawgiver and king a being both accessible and actively present in history Yet there is a concurrent and strong tradition of a God who actively hides The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible a God who is both immanent and transcendent present and absent Western Gnostic esoteric and mystical thinking capitalizes on the hidden and hiding God He becomes the hallmark of the mystics Gnostics sages and artists who attempt to make accessible to humans the God who is secreted away Histories of the Hidden God explores this tradition from antiquity to today The essays focus on three essential themes the concealment of the hidden God the human quest for the hidden God and revelations of the hidden God

The Nation ,1873 Being For Myself Alone Marcus Moseley,2005-06-13 This is a work of unprecedented scope tracing the origins of Jewish autobiographical writing from the early modern period to the early twentieth century Drawing on a multitude of Hebrew and Yiddish texts very few of which have been translated into English and on contemporary autobiographical theory this book provides a literary historical explanatory paradigm for the emergence of the Jewish autobiographical voice The book also provides the English reader with an introduction to the works of central figures in the history of Hebrew and Yiddish literature and it includes discussion of material that has never been submitted to literary critical analysis in English

The Holocaust in Historical Context Steven T. Katz,1994 With this volume Steven T Katz initiates the provocative argument that the Holocaust is a singular event in human history Unlike any previous work on the subject The Holocaust in Historical Context maintains that the Holocaust is the only example of true genocide a systematic attempt to kill all the members of a group in history In a richly documented subtly argued and amazingly wide ranging comparative historical and phenomenological analysis Katz explores the philosophical and historiographical implications of the uniqueness of the Holocaust After he establishes the nature of genocide Katz examines other occasions of mass death to which the Holocaust is regularly compared from slavery in the ancient world to the medieval persecution of heretics from the depopulation of the New World to the Armenian massacres during World War I and from the Gulag to Cambodia In the first of three volumes Katz after setting the groundwork for his analysis with four chapters dealing with essential methodological issues begins his comparative case studies with slavery in the ancient Greek and Roman world and continues with such subjects as medieval antisemitism the European witch craze the medieval wars of religion the medieval persecution of homosexuals and the French campaign against Huguenots Throughout this investigation of pre modern Jewish

and non Jewish history Katz looks at the ways in which the Holocaust has precedents and parallels and in what way it stands alone as a singular highly distinctive historical event
