Bifurcation Analysis Michiel Hazewinkel, R. Jurkovich, J.H.P. Pealinck, 2012-12-06 Bifurcation theory has made a very fast upswing in the last fifteen years Roughly speaking it generalises to dynamic systems the possibility of multiple solutions a possibility already recognised in static systems physical chemical social when operating far from their equilibrium states It so happened that quite a few staff members of the Erasmus University Rotterdam were thinking along those lines about certain aspects of their disciplines To have a number of specialists and potential fans convene to discuss various aspects of bifurcation al thinking seemed a natural development The resulting papers were judged to be of interest to a larger public and as such are logically regrouped in this volume one in a series of studies resulting from the activities of the Steering Committee on Interdisciplinary Studies of the Erasmus University Rotterdam Although the volume is perhaps multidisciplinary rather than interdisciplinary the interdisciplinary aspect being only latent as a soft interdisciplinary exercise the application of formal structures of one discipline to another it has a right to interdisciplinary existence This book could not have been published without a generous grant of the University Foundation of the Erasmus University Rotterdam which allowed the conference to be held and the resulting papers to be published that generosity is gratefully acknowledged

The New Statesman , 1926 Cultural Change in Modern World History Peter N. Stearns, 2018-12-13 In this innovative textbook leading world historian Peter Stearns analyses key examples of culture change from around the world highlighting what culture change involves and how it can be explained and assessed both historically and in the contemporary world Culture change is one of the most interesting and significant features of human society but until now there has been no book for the classroom which looks explicitly at this phenomenon Cultural Change in Modern World History covers different kinds and levels of culture change since 1500 from colonial culture contact in British India to modernization in Meiji Japan and changing attitudes towards gay marriage in the past decade considering how we should define culture change how to deal with causation and how to evaluate continuities and consequences Stearns
