**Resources in Education** ,1998 **Handbook of Classroom Management** Carolyn M. Evertson,Carol S. Weinstein,2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems

continue to be a major cause of teacher burnout and job dissatisfaction. Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field. The Handbook of Classroom Management has four primary goals: 1 to clarify the term classroom management; 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers' managerial tasks; 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry; and 4 to promote a vigorous agenda for future research in this area. To this end 47 chapters have been organized into 10 sections, each chapter written by a recognized expert in that area. Cutting across the sections and chapters are the following themes: First, positive teacher-student relationships are seen as the very core of effective classroom management. Second, classroom management is viewed as a social and moral curriculum. Third, external reward and punishment strategies are not seen as optimal for promoting academic and social-emotional growth and self-regulated behavior. Fourth, to create orderly, productive environments, teachers must take into account student characteristics such as age, developmental level, race, ethnicity, cultural background, socioeconomic status, and ability. Like other research handbooks, the Handbook of Classroom Management provides an indispensable reference volume for scholars, teacher-educators in service, practitioners, and the academic libraries serving these audiences. It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management.

Handbook of Research on Engineering Education in a Global Context, Smirnova, Elena V., Clark, Robin P., 2018-08-31

Engineering education methods and standards are important features of engineering programs that should be carefully designed both to provide students and stakeholders with valuable, active, integrated learning experiences and to provide a vehicle for assessing program outcomes. With the driving force of the globalization of the engineering profession, standards should be developed for mutual recognition of engineering education across the world, but it is proving difficult to achieve. The Handbook of Research on Engineering Education in a Global Context provides innovative insights into the importance of quality training and preparation for engineering students. It explores the common and current problems encountered in areas such as quality and standards management, information systems innovation, and enhanced learning technologies in education, as well as the challenges of employability, entrepreneurship, and diversity. This publication is a vital reference source for science and engineering educators, engineering professionals, and educational administrators interested in topics centered on the education of students in the field of engineering.

**Social interaction, identity and language learning during residence abroad**, Rosamond Mitchell, Nicole Tracy-Ventura, Kevin McManus, 2015-08-10

Study and residence abroad are important for adult second language learning, promoting oral skills fluency and sociopragmatic competence in particular, alongside broader intercultural competence. However, learner achievements during residence abroad are variable and cannot be fully understood without attention to the social settings in which learners engage and the social networks they develop. This edited collection explores

the relationship between sociocultural experience identity and language learning among student sojourners abroad Three broad themes are identified the contribution of different settings host families student exchanges work placements etc to language learning opportunity the role of social networks in sojourners language practices and learning success and their evolving social identities The book is relevant for a readership interested in informal second language learning as well as for managers of residence abroad programmes

**Here's How to Do Accent Modification** Robert McKinney, 2019-03-15 Here s How to Do Accent Modification A Manual for Speech Language Pathologists is designed for speech language pathologists SLPs working with clients on accent modification in American English A growing number of non native speakers are interested in improving their communication skills and SLPs need preparation to work with this clientele The text provides copious advice and many diverse techniques for teaching accent modification from the level of basic sounds to the level of discourse The text emphasizes realistic goal setting so that clients focus on becoming effective communicators as opposed to sounding exactly like native speakers The objective is a balance between clear and natural speech Many SLPs favor intelligibility over naturalness because of their backgrounds working with speech delayed children but with non native speakers this often leads to unnatural speech and listeners focus on how something is said as opposed to what is said Here s How to Do Accent Modification is uniquely geared toward the skills and backgrounds of SLPs working with clients in a one on one setting but is also an excellent introductory text for any English as a Second Language ESL teacher Robert McKinney brings this unique perspective as a speech language pathologist with degrees in both Communication Disorders and Teaching English as a Second Language Also included with the text are numerous practical activities and worksheets for working with clients The ebook includes audio files and video clips to demonstrate working with non native speakers
