

Russian Marxists

- In 1903, Russian Marxists split into two groups. Moderate revolutionaries were known as Mensheviks. The more radical Bolsheviks- were a small group of revolutionaries willing to sacrifice everything for change. Led by Vladimir Lenin-(1870-1924)he fled Russia in early 1900 to avoid arrest. He maintained contact with the Bolsheviks and waited until he could safely return.

The Russian Marxists & the Origins of Bolshevism Leopold H. Haimson, 1966 *Vladimir Akimov on the Dilemmas of Russian Marxism 1895-1903* Vladimir Akimov, 1969 **The A to Z of Marxism** David Walker, Daniel Gray, 2009-08-13

Marxism one of the few philosophies that turned into an effective movement not so long ago was the official ideology in one form or another of much of humanity It was promulgated initially by the Soviet Union then imposed on much of Central and Eastern Europe later emerged in the People's Republic of China and gradually spread to other parts of Asia and even bits of Africa and Latin America Although declining in its initial popularity it still remains strong in several countries and is supported by numerous communist and other parties and countless individuals around the world The A to Z of Marxism covers the history of Marxism and all its thinkers and schools of thought in a comprehensive manner This is done through a chronology an introductory essay a bibliography and hundreds of cross reference dictionary entries on basic terms and concepts significant thinkers and doers and also the parties and countries that followed it **Soviet Marxism and Natural Science** David Joravsky, 2013-04-15 Originally published in 1961 Russian Marxist philosophy of science originated among men and women who gave their whole lives to rebellion against established authority The original tension within Marxist philosophy between positivism and metaphysics was repressed but not resolved in this first phase of Soviet Marxism In this volume the author correlates the development of ideas with trends in the Cultural Revolution and against this background it is possible to understand why debates over general philosophy gave way to conflicts over specific sciences in the aftermath of the first Five Year Plan and why there was a genuine crisis in Soviet biology Marxism in Russia Neil Harding, 2008-11-13 This book is a documentary record of the statements and debates that defined the formative period of a movement that has affected modern politics and history more than any other It is generally acknowledged that not only were the theoretical problems faced by Russian Marxists during this period more complex than those encountered elsewhere but that they also brought to the resolution of these problems an originality and intellectual rigour second to none in the Marxist tradition As predominantly a movement of intellectuals during these years they achieved a level of articulation and sophistication unsurpassed in the literature of Marxism and that makes them such a rewarding subject of study Plekhanov Akselrod Lenin Struve Martov Trotsky Luxemburg and Kautsky all feature in both celebrated and little known texts alongside anonymous pamphleteers and writers of resolutions editorials flysheets and programmes **Berdyaev's Philosophy of Hope a Contribution to Marxist-Christian Dialogue**, **Science in Russian Culture, 1861-1917** Alexander Vucinich, 1970 A Stanford University Press classic Varieties of Marxism Shlomo Avineri, 2012-12-06 The essays included in this volume are based on papers delivered at the International Symposium on Varieties of Marxism held at the Van Leer Jerusalem Foundation on June 16-19 1974 and dedicated to the memory of George Lichtheim When the idea of such a symposium was first raised the organizers planned to have George Lichtheim as one of the main speakers at the event In our last and brief

meeting in London I suggested this to him and Lichtheim gave his consent to attend the symposium though at that time no date was yet fixed His tragic death a few months later left a gap not only in the program of the symposium but in Marxist studies generally it was felt that perhaps one way of paying tribute to his contribution to the study of a subject so near to his mind would be to name the symposium in his memory and devote an introductory paper to an attempt at an intellectual portrait of George Lichtheim as an historian of ideas The volume as published includes all papers delivered at the symposium with the exception of the papers of J L Talmon Jerusalem on Marxism and Nationalism and Gajo Petrovic Zagreb on Yugoslav Marxism Appended is also a short obituary written by me on Lichtheim for the journal Political Science published by the American Political Science Association [Myth of the Nation and Vision of Revolution](#) Jacob Leib

world Placing historians in conversation with anthropologists sociologists with literary critics and musicologists with political scientists this interdisciplinary volume presents a compelling case for reimagining citizenship that is more consistent inclusive and just in both theory and practice By placing disability front and center in academic and civic discourse Civil Disabilities tests the very notion of citizenship and transforms our understanding of disability and belonging

Reinterrogating the Classical Marxist Discourses of Revolutionary Democracy Soma Marik,2008 *A History of Western Political Thought* J. S. McClelland,Dr J S Mcclelland,2005-07-15 A History of Western Political Thought is an energetic and lucid account of the most important political thinkers and the enduring themes of the last two and a half millennia Written with students of the history of political thought in mind the book traces the development of political thought from Ancient Greece to the late twentieth century focuses on individual thinkers and texts includes 40 biographies of key political thinkers offers original views of theorists and highlights those which may have been unjustly neglected develops the wider themes of political thought and the relations between thinkers over time **Marxism (RLE Marxism)** George Lichtheim,2015-05-08 This book first published in 1961 and revised in 1964 is both a critical study of a body of thought and an historical account of how Marxist theory arose from the context of European history in the 19th century It traces the development of socialist thought from the French to the Russian Revolutions and attempts to show in what manner the political and intellectual problems of Central Europe between 1848 and 1948 came to dominate the theory and practice of that Marxist movement which formed the crucial link between the two revolutions The author takes the view that Marxism is a movement and a body of doctrine which belongs essentially to the 19th century which came to an end with the First World War and the Russian Revolution and that its impact as a doctrine has now been absorbed *The Soviet Agrarian Debate* Susan Gross Solomon,2019-07-16 The first decade of Soviet cultural life was marked by a pluralism unmatched in the subsequent history of the USSR In many fields of art and science Party and non Party proletarian and bourgeois intellectuals worked side by side vigorously debating questions of substance and method In this first major study of a Soviet field of social science in the post Revolution period Dr Solomon examines the controversy that divided social scientists studying the economy and society of the Soviet peasant during the 1920s The intellectual disagreements in post Revolution Soviet rural studies were exacerbated by social political and professional differences among the contending scholars The infighting between the groups was bitter Yet in contrast to recent studies of other Soviet professions in the 1920s the author finds that in rural studies Marxists and non Marxists had much in common Her findings suggest that the coexistence of the old and the new in Soviet rural studies might have lasted for some time had not external political forces intervened in late 1928 acting as a pressure on the field and eventually causing its demise *Paradigm Lost* Kenneth M. Stokes,2016-09-17 This sequel to Man and the Biosphere is an account of the origins and development of a cultural social energetic and systems theoretical contribution to critical Marxism It examines the intellectual contributions of the Russian philosophers A A Bogdanov and A I
