Great's keen interest in landscape design. It reconstructs Grigorii Potemkin's attempts to transform the Crimea physically and symbolically into the garden of the empire. And it reveals the centrality of the garden for noblemen such as Andrei Bolotov and Alexander Kurakin who expressed their political philosophy and their anxieties about unstable social relations through landscaping. The book follows the destiny of western aesthetic categories notably of the picturesque as they are first adopted then transformed and ultimately rejected. It analyzes the historical role and mythological representations of the country estate along with Leo Tolstoy's fraught commitment to Yasnaya Polyana and his critique of estate mythology in *War and Peace*. Finally this study exposes how the current fashion for gardening in Russia in particular among New Russians alludes to imperial landscaping culture in order to justify a retreat from the public sphere. Russian Parks and Gardens Tat'iāna Vladimirovna Volodina, 2000 *Family Urban Agriculture in Russia* Louiza M. Boukharaeva, Marcel Marloie, 2015-02-27 The book results from research carried out by the authors since 1999 on urban gardening collectives in Russia then from the extension of this research towards collective urban gardening in France with some investigations in other European Union Member States and Brazil. This research was carried out within the framework of Kazan University currently the Institute of Administration and Territorial Development of the Federal University of Kazan and the French National Institute for Agricultural Research INRA. It enabled the creation of an international research network entitled Sustainable Development of Cities the Relationship between City Dwellers and Nature. This research was developed with help from a three year research contract October 2009 September 2012 with the GESSOL programme of the French Ministry of Ecology on the theme of the use of urban and peri urban soils for the sustainable development of cities. The final report of this research contract provides the basis for the book. The Secret Life of the Georgian Garden Kate Felus, 2016-12-09 Georgian landscape gardens are among the most visited and enjoyed of the UK's historical treasures. The Georgian garden has also been hailed as the greatest British contribution to European Art seen as a beautiful composition created from grass trees and water a landscape for contemplation. But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous. Beautifully illustrated in colour and black white this book is about the daily life of the Georgian garden. It reveals its previously untold secrets from early morning rides through to evening amorous liaisons. It explains how by the eighteenth century there was a desire to escape the busy country house where privacy was at a premium and how these gardens evolved aesthetically with modestly sized far flung temples and other eye catchers to cater for escape and solitude as well as food drink music and fireworks. Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown arguably Britain's greatest ever landscape gardener and the book is uniquely positioned to put Brown's work into its social context. **Gardens of Grandeur** Pasquale De Marco, 2025-07-17 From the imperial gardens of St Petersburg to the public parks of Moscow from the gardens of the aristocracy to the gardens of the Russian people Russian gardens are a reflection of the history culture and traditions of the Russian people.
