*The Russian Empire and Czarism* Victor Bérard, 2015-06-15 Excerpt from *The Russian Empire and Czarism* Among the many benefits of scientific invention is the machinery by which nations are enabled to convey to each other their warmest sentiments at the moment of conception correction of error in the making remonstrance against hurt planned in ignorance warning as stern as may be needed against intentional or unregarded injury confession of resentful suspicion in themselves detection of unjust suspicion in their neighbours and such friendly observations as occur to lookers on at dangerous games How much the world would gain by the interchange of such admonitory and advisory criticism if only guided wisely and scanned by its recipients with the attention that seamen give to the portents of varying weather The truth is however that such criticism is seldom guided wisely and never scanned with the seaman's earnest but cool and unoffended regard Nor are all times good for its delivery or its reception Unhappily the most inopportune time is that when it should be most serviceable The world being at peace and the nation in a fairway of ease and prosperity the truest and sharpest recital of our faults even those that are dangerous to ourselves alone fails of its due effect Attention it may gain but only the attention of complacency About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
