**Tashkent** Paul Michael Stronski, 2010-09-19 Paul Stronski tells the fascinating story of Tashkent an ethnically diverse primarily Muslim city that became the prototype for the Soviet era

reimagining of urban centers in Central Asia Based on extensive research in Russian and Uzbek archives Stronski shows us how Soviet officials planners and architects strived to integrate local ethnic traditions and socialist ideology into a newly constructed urban space and propaganda showcase The Soviets planned to transform Tashkent from a feudal city of the tsarist era into a flourishing garden replete with fountains a lakeside resort modern roadways schools hospitals apartment buildings and of course factories The city was intended to be a shining example to the world of the successful assimilation of a distinctly non Russian city and its citizens through the catalyst of socialism As Stronski reveals the physical building of this Soviet city was not an end in itself but rather a means to change the people and their society Stronski analyzes how the local population of Tashkent reacted to resisted and eventually acquiesced to the city s socialist transformation He records their experiences of the Great Terror World War II Stalin s death and the developments of the Krushchev and Brezhnev eras up until the earthquake of 1966 which leveled large parts of the city Stronski finds that the Soviets established a legitimacy that transformed Tashkent and its people into one of the more stalwart supporters of the regime through years of political and cultural changes and finally during the upheavals of glasnost *Fabergé Eggs* Will Lowes, Christel Ludewig McCanless, 2001 This work presents detailed technical descriptions of 66 Faberge eggs as well as the stories of people involved in their making or presentation *The Practical Mechanic's Journal*, 1862 *Colonial Theories of Institutional Development* Daniel Oto-Peralías, Diego Romero-Ávila, 2017-03-23 This book analyzes the role played by initial endowments and colonizer identity in seeking to explain institutional development in former colonies It presents a model of two styles of imperialism that integrates the colonial origin and endowment views explaining current institutions The authors argue that Great Britain and Portugal adopted an economically oriented style which was pragmatic and sensitive to initial conditions For this style of imperialism the endowment view is applicable In contrast France employed a politically oriented style of imperialism in which ideological and political motivations were more present This led to a uniform colonial policy that largely disregarded initial endowments In turn the case of Spain represents a hybrid of the two models The empirical analysis presented here reveals a remarkable degree of heterogeneity in the relationship of endowments and colonizer identity with current institutions *Brewing Classic Styles* Jamil Zainasheff, John Palmer, 2007-10-08 Award winning brewer Jamil Zainasheff teams up with homebrewing expert John J Palmer to share award winning recipes for each of the 80 plus competition styles Using extract based recipes for most categories the duo gives sure footed guidance to brewers interested in reproducing classic beer styles for their own enjoyment or to enter into competitions **Oxford History of Western Music** Richard Taruskin, 2009-07-27 The Oxford History of Western Music is a magisterial survey of the traditions of Western music by one of the most prominent and provocative musicologists of our time This text illuminates through a representative sampling of masterworks those themes styles and currents that give shape and direction to each musical age Taking a critical perspective this text sets the details of music the chronological sweep of figures works and musical ideas within the larger context of

world affairs and cultural history Written by an authoritative opinionated and controversial figure in musicology The Oxford History of Western Music provides a critical aesthetic position with respect to individual works a context in which each composition may be evaluated and remembered Taruskin combines an emphasis on structure and form with a discussion of relevant theoretical concepts in each age to illustrate how the music itself works and how contemporaries heard and understood it It also describes how the c
