Unsung Hero of the Russian Avant-Garde: The Life and Times of Nikolay Punin Natalia Murray, 2012-06-27 This book is the first biography of Nikolay Punin 1888 1953 One of the most prominent art critics of the avant garde in 1919 Punin was the Commissar of the Hermitage and Russian Museums he was lecturing at the Academy of Arts and at the State University in Petrograd and subsequently Leningrad He was the right hand of Lunacharsky and the head of the Petrograd branch of the Visual Arts Department of Narkompross From 1913 till 1938 Punin worked at the Russian Museum and organized several major exhibitions of Russian art Yet his name is not widely known in the West primarily because his file languished in the KGB archives since he died in 1953 partly because his grave in the Gulag where he died is marked only by a number and partly because his own reputation became submerged under that of his lover poet and writer Anna Akhmatova Through the life and inheritance of Nikolay Punin this book will examine the very phenomenon of the Russian avant garde and its fate after the October Revolution as well as the artistic trends and cultural policies which dominated Soviet art in the 1930 1950s For an interview with the author on The Voice of Russia July 19th 2012 click here **In Search of Russian Modernism**

Leonid Livak, 2018-11-30 A critical reexamination of Russian modernist cultural historiography Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures by the Modern Language Association The writing and teaching of Russian literary and cultural history have changed little since the 1980s In Search of Russian Modernism challenges the basic premises of Russian modernist studies removing the aura of certainty surrounding the analytical tools at our disposal and suggesting audacious alternatives to the conventional ways of thinking and speaking about Russian and transnational modernism Drawing on methodological breakthroughs in Anglo American new modernist studies Leonid Livak explores Russian and transnational modernism as a story of a self identified and self conscious interpretive community that bestows a range of meanings on human experience Livak s approach opens modernist studies to integrative and interdisciplinary analysis including the extension of scholarly inquiry beyond traditional artistic media in order to account for modernism s socioeconomic and institutional history Writing with a student audience in mind Livak presents Russian modernism as a minority culture coexisting with other cultural formations while addressing thorny issues that regularly come

up when discussing modernist artifacts Aiming to open an overdue debate about the academic fields of Russian and transnational modernist studies this book is also intended for an audience of scholars in comparative literary and cultural studies specialists in Russian and transnational modernism and researchers engaged with European cultural historiography

Reframing Russian Modernism Irina Shevelenko, 2018-12-11 Presenting a multifaceted portrait of modernist culture in Russia an array of distinguished scholars shows how artists and writers in the early twentieth century engaged with politics science and religion At a time when many Russian social institutions looked to the past modernist arts powerfully amplified a gamut of new ideas about individual and collective transformation Expanding upon prior studies that focus more specifically on literary manifestations of the movement Reframing Russian Modernism features original research that ranges broadly from political aesthetics to Darwinism to yoga These unique complementary perspectives counter reductionism of any kind integrating the study of Russian modernism into the larger body of humanistic scholarship devoted to modernity

Monochrome Craig Staff, 2015-09-17 The monochrome a single colour of paint applied over the entirety of a canvas remains one of the more contentious modernist artistic inventions But whilst the manufacture of these pictures of nothing was ostensibly straightforward their subsequent theorisation has been anything but More than a history Monochrome Darkness and Light in Contemporary Art is the first account of the monochrome s lively role in contemporary art Liberated from the burden of representation the monochrome first stood for emancipation an ideological and artistic impulse that characterised the avant garde of the early twentieth century Historically the monochrome embodied the most extreme form of abstraction and pure materiality Yet more recently adaptations of the art form have focused on a broader range of cultural and interpretive contexts Provocative innovative and timely this book argues that the latest artistic strategies go beyond stylistic concerns and instead seek to re engage with ideas around authorship process and the conditions of the visible as they are given and understood through both light and darkness Discussing works by artists such as Katie Paterson Hiroshi Sugimoto Tom Friedman Bruno Jakob Sherrie Levine and Ceal Floyer the book shows that the debates around an artwork s form and its possibility for meaning that the monochrome first engendered remain very much alive in contemporary visual culture

Journeys beyond the Pale Leah V. Garrett, 2003-03-15 Journeys beyond the Pale is the first book to examine how Yiddish writers from Mendeleyev to Der Nister to the famed Sholem Aleichem used motifs of travel to express their complicated relationship with modernization The story of the Jews of the Pale of settlement encompasses current day Russia the Ukraine Belarus and

Poland **Eyesight Alone** Caroline A. Jones, 2005 Even a decade after his death Clement Greenberg remains controversial One of the most influential art writers of the twentieth century Greenberg propelled Abstract Expressionist painting in particular the monumental work of Jackson Pollock to a leading position in an international postwar art world On radio and in print Greenberg was the voice of the new American painting and a central figure in the postwar cultural history of the United States Caroline Jones's magisterial study widens Greenberg's fundamental tenet of opticality the idea that modernist art is apprehended through eyesight alone to a broader arena examining how the critic's emphasis on the specular resonated with a society increasingly invested in positivist approaches to the world Greenberg's modernist discourse Jones argues developed in relation to the rationalized procedures that gained wide currency in the United States at midcentury in fields ranging from the sense data protocols theorized by scientific philosophy to the development of cultural forms such as hi fi that targeted specific senses one by one Greenberg's attempt to isolate and celebrate the visual was one manifestation of a large scale segmentation or bureaucratization of the body's senses Working through these historical developments Jones brings Greenberg's theories into contemporary philosophical debates about agency and subjectivity Eyesight Alone offers artists art historians philosophers and all those interested in the arts a critical history of this generative figure bringing his work fully into dialogue with the ideas that shape contemporary critical discourse and shedding light not only on Clement Greenberg but also on the contested history of modernism itself

The Dialogics of Critique Michael Gardiner, 2002-03-11 As interest in the work of Bakhtin grows there is an increasing demand for a well organized readable text which explains his main ideas and relates them to current social and cultural theory This book is designed to supply this demand Elegantly written with the needs of the student coming to Bakhtin for the first time in mind it provides the essential guide to this important and neglected thinker

The Concept of Modernism Astradur Eysteinnsson, 2018-07-05 The term modernism is central to any discussion of twentieth century literature and critical theory Astradur Eysteinnsson here maintains that the concept of modernism does not emerge directly from the literature it subsumes but is in fact a product of critical practices relating to nontraditional literature Intervening in these practices and correlating them with modernist works and with modern literary theory Eysteinnsson undertakes a comprehensive reexamination of the idea of modernism Eysteinnsson critically explores various manifestations of modernism in a rich array of American British and European literature criticism and theory He first examines many modernist paradigms detecting in them a conflict between modernism's culturally subversive potential and its relatively conservative status as a formalist project He then considers these paradigms as interpretations and fabrications of literary history Seen in this light modernism both signals a historical change on the literary scene and implies the context of that change Laden with the implications of tradition and modernity modernism fills its major function that of highlighting and defining the complex relations between history and postrealist literature Eysteinnsson focuses on the ways in which the concept of modernism directs our understanding of literature and literary

history and influences our judgment of experimental and postrealist works in literature and art He discusses in detail the relation of modernism to the key concepts postmodernism the avant garde and realism Enacting a crisis of subject and reference modernism is not so much a form of discourse he asserts as its interruption a possible other modernity that reveals critical aspects of our social and linguistic experience in Western culture Comparatists literary theorists cultural historians and others interested in twentieth century literature and art will profit from this provocative book **Catalog of Copyright Entries. Glynn, 2016-04-30 Glynn provides a new reading of Vladimir Nabokov's work by seeking to challenge the notion that he was a Symbolist writer concerned with a transcendent reality Glynn argues that Nabokov's epistemology was in fact anti Symbolist and that this aligned him with both Bergsonism and Russian Formalism which intellectual systems were themselves hostile to a Symbolist epistemology Symbolism may be seen to devalue material reality by presenting it as a mere adumbration of a higher realm Nabokov however valued the immediate material world and was creatively engaged by the tendency of the deluded mind to efface that reality Narratology Wolf Schmid, 2010-06-17 This book is a standard work for modern narrative theory It provides a terminological and theoretical system of reference for future research The author explains and discusses in detail problems of communication structure and entities of a narrative work point of view the relationship between narrator's text and character's text narrativity and eventfulness and narrative transformations of happenings The book outlines a theory of narration and analyses central narratological categories such as fiction mimesis author reader narrator etc A detailed bibliography and glossary of narratological terms make this book a compendium of narrative theory which is of relevance for scholars and students of all literary disciplines
