The New Russian Diaspora Vladimir Shlapentokh, Munir Sendich, Emil Payin, 1994 In the wake of the USSR's collapse more than 25 million Russians found themselves living outside Russian territory their status ambiguous This volume prepared under the sponsorship of the Kennan Institute offers a comprehensive and amply documented examination of the issue

Russia Rodric Braithwaite, 2022-08-25 Wise and thorough Spectator Brisk and readable very valuable Financial Times He is an engaging guide and writes with the same flair demonstrated in his previous bestseller *Afgantsy* Sunday Telegraph A scholarly yet highly readable gallop through the last 1000 years of Russian history To understand this tormented nation you can do no better than read this illuminating portrait Jonathan Dimbleby With its attack on Ukraine Russia's future seems almost as uncertain as its past The largest country in the world with the largest arsenal of nuclear weapons has been known over the past thousand years as Rus Muscovy the Russian Empire and the Soviet Union Thirty years ago it was reinvented as the Russian Federation Russia is not an enigma but its past is violent tragic sometimes glorious and certainly complicated Like the rest of us the Russians constantly rewrite their history They too omit episodes of national disgrace in favour of patriotic anecdotes sometimes more rooted in myth than reality Expert and former ambassador Rodric Braithwaite unpicks fact from fiction to discover what lies at the root of the Russian story more relevant to the rest of the world now than ever before

The Disastrous 1990s in Russia Konstantin Sidorov, 2022 The 1990s dive into cowboy capitalism and democracy with advice from the West led to an utter breakdown in the former Soviet Union Shocking concrete examples of the corruption chaos and misery are related by an eye witness Facing destruction they chose a strong smart leader and so we have Putin

Russia's Revolution from Above 1985-2000 Gordon M. Hahn, Relying on a wealth of detailed institutional policy and elite information Hahn presents a magisterial study that fills a significant void in our understanding of USSR's destruction While readers may at times feel

overwhelmed readers are presented with a conceptual approach that can be useful for appreciating ongoing institutional changes and oftentimes subtle elite maneuverings in the post Soviet era John P Willerton University of Arizona This is a big book in all respects weighty both in size and scholarship The core is a meticulous analysis of the perestroika period of the Soviet

Union 1985 91 Followed by a concluding general chapter that applies the earlier analysis to post Communist Russia 1992 2000 The work is based on years of painstaking analysis considerable archival research and numerous interviews The Russian Review This is an important book with a number of substantive strengths Slavic Review The fall of the Soviet communist regime in 1991 offers a challenging contrast to other instances of democratic transition and change in the last decades of the twentieth century The 1991 revolution was neither a peaceful revolution from below as occurred in Czechoslovakia nor a negotiated transition to democracy like those in Poland Hungary or Latin America It was not primarily the result of social modernization the rise of a new middle class or of national liberation movements in the non Russian union republics Instead as Gordon Hahn argues the Russian transformation was a bureaucrat led state based revolution managed by a group of Communist Party functionaries who won control over the Russian Republic RSFSR in the mid 1990s Hahn describes how opportunistic Party and state officials led by Boris Yeltsin defected from the Gorbachev camp and proceeded in 1990 91 to dismantle the institutions that bound state and party These revolutionaries from above seized control of political economic natural and human resources and then separated the party apparatus from state institutions on Russian Republic territory With the failed August 1991 hard line coup Yeltsin banned the Communist Party and decreed that all Union state organs including the KGB and military were under RSFSR control In Hahn s account this mode of revolutionary change from above explains the troubled development of democracy in Russia and the former Soviet republics Hahn shows how limited mobilization of the masses stunted the development of civil societies and the formation of political parties and trade unions with real grass roots The result is a weak society unable to nudge the state to concentrate on institutional reforms society needs for the development of a free polity and economy Russia s Revolution from Above goes far in correcting the historical record and reconceptualizing the Soviet transformation It should be read by historians economists political scientists and Russia area scholars Gordon M Hahn is visiting scholar at the Hoover Institution Stanford University His articles on Soviet and Russian politics have appeared in Europe Asia Studies Problems of Post Communism Russian Review and Russian History Histoire Russe [The Armchair Diplomat on Europe](#) Melissa Rossi, 2005-08-04 It happens all the time you re watching the Champion s League pondering Robert Kilroy Silk s unnatural glow reading the latest newspaper debate about EU bendy banana laws and thinking what s really going on in Europe Does anyone actually know what they re talking about And where are Riga and Vilnius anyway You needn t worry any more With this armchair guide you ll discover the strange and fascinating world that calls itself Europe without ever having to leave your own home There are insights into culture how to join the Finns beating themselves with birch twigs in the sauna the lowdown on the people that matter porn stars turned politicians in Italy fascinating facts and explanations of historical rifts and you thought the relationship between Britain and France was bad You ll find out how to talk like Berlusconi unravel the workings of the EU and guide yourself from the Baltics to Belgium Portugal to Poland The Armchair Diplomat Europe offers the basics of euro education for very little

Congress. Commission on Security and Cooperation in Europe,1993 **The History of the Life of Peter I, Emperor of Russia, Containing a Description of Russia** ,1739 **The Russian Dilemma** Gordon M. Hahn,2021-11-17 From the end of the Mongol Empire to today Russian history is a tale of cultural political economic and military interaction with Western powers The depth of this relationship has created a geopolitical dilemma Russia has persistently been both attracted to and at odds with Western ideas and technological development which have tended to threaten Russia s sense of identity and create destabilizing divisions within society Simultaneously deepening involvement in Western international affairs brought meddling in Russian domestic politics and military invasion This book examines how the centuries old Western threat has shaped Russia s political and strategic structures creating a culture of security rooted in vigilance against Western influence and interference **The Story of the Great War (Vol. 1-8)** Various Authors,2023-12-16 The Story of the Great War Vol 1 8 is a comprehensive and meticulously curated anthology that chronicles the First World War providing a multi faceted exploration of the global conflict Through a blend of eyewitness accounts military analysis and socio political commentary these volumes capture the complexity and the tragic grandeur of a war that reshaped the world The literary style ranges from poignant personal narratives to analytical essays reflecting the diverse experiences of soldiers and civilians alike all while situating these narratives within the broader historical context of early 20th century geopolitics The anthology is the collaborative effort of various authors each contributing unique perspectives influenced by their backgrounds as historians journalists and combatants This convergence of voices serves to honor the collective memories of those impacted by the war Their motivations likely stem from a desire to not only portray the realities of war but also to prevent the amnesia that often accompanies historical trauma ensuring that the lessons learned from such conflict resonate with future generations This monumental collection is an essential read for anyone interested in understanding the profound effects of World War I whether for academic study or personal enlightenment The rich vivid storytelling coupled with scholarly insight makes it an invaluable resource for history enthusiasts students and anyone seeking to comprehend the complexities of this pivotal moment in human history European Powers in the First World War Spencer Tucker,2018-12-07 First published in 1996

The Wall Street Conspiracy Pasquale De Marco, In the tumultuous years of the early 20th century as Russia teetered on the brink of revolution a group of American financiers and industrialists saw an opportunity to profit from the chaos They secretly provided financial and material support to the Bolsheviks a radical political party led by Vladimir Lenin The Bolsheviks promised to end the war redistribute land to the peasants and create a more just and equitable society But the American capitalists had their own agenda They were not interested in helping the Russian people They were only interested in making money They saw the Bolsheviks as a means to seize control of Russia s vast natural resources and open up new markets for their goods The American intervention in the Russian Revolution had a profound impact on the course of history It helped to ensure the Bolshevik victory and the establishment of the Soviet Union It also created a deep distrust between the United States and Russia that would last for decades This book tells the story of the secret alliance between Wall Street and the Bolsheviks It is a story of greed betrayal and the devastating consequences of unchecked power Based on extensive research in government archives personal papers and other primary sources this book sheds new light on one of the most important events in modern history It is a must read for anyone interested in the history of Russia the United States or the global economy If you like this book write a review
