*Insights and Commentaries: South and Central Asia* Ms Anita Sengupta,Mr Mirzokhid Rakhimov,2015-08-15 This volume emerged out of a search for scholarship that has studied connectivity between South and Central Asia from a variety of perspectives Geographically and culturally the vision that India has had of the region she referred to as Central Asia is of a space extending across China westward upto the Aral Sea and including within it Balkh Bukhara and Samarkand The Indian fascination with the region extends to various levels as this is the region out of which invading tribes entered India across whose Silk Routes trade flourished and also the region where Indian culture and religion spread Keeping this in mind the

volume begins with an overview of positions from which the region has been traditionally situated from the Indian perspective as also reflections on the current scenario in terms of the geopolitical transformations of recent times It then moves on to examine the history of the political cultural and economic connections between the two regions from comparative perspectives Written by specialists from Uzbekistan the articles reflect on connections that had ancient roots and shared historical experiences The first set of articles focus on the historical linkages between the two regions Another set looks at similar developments in the region in terms of transformations in the socio political life of the people as also in the economy Encounters and the necessity of security cooperation between the two regions is the focus of a third set of articles The second part of the volume looks into certain issues that are significant in both South and Central Asia Written with Uzbek insight they reflect on Soviet and post Soviet state policies on a range of issues from gender and maternity policies ethnic policies and social stratification information policy and policies related to global organizations that have comparable relevance in the Indian context

**The Russian Empire 1450-1801** Nancy Shields Kollmann, 2017-02-09

Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today The Russian Empire 1450 1801 surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450 1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures

*Writing at Russia's Border* Katya Hokanson, 2008-01-01

It is often assumed that cultural identity is determined in a country's metropolitan centres Given Russia's long tenure as a geographically and socially diverse empire however there is a certain distillation of peripheral experiences and ideas that contributes just as much to theories of national culture as do urban centred perspectives *Writing at Russia's Border* argues that Russian literature needs to be

reexamined in light of the fact that many of its most important nineteenth century texts are peripheral not in significance but in provenance Katya Hokanson makes the case that the fluid and ever changing cultural and linguistic boundaries of Russia's border regions profoundly influenced the nation's literature posing challenges to stereotypical or territorially based conceptions of Russia's imperial military and cultural identity A highly canonical text such as Pushkin's *Eugene Onegin* 1831 which is set in European Russia is no less dependent on the perspectives of those living at the edges of the Russian Empire than is Tolstoy's *The Cossacks* 1863 which is explicitly set on Russia's border and has become central to the Russian canon Hokanson cites the influence of these and other peripheral texts as proof that Russia's national identity was dependent upon the experiences of people living in the border areas of an expanding empire Produced at a cultural moment of contrast and exchange the literature of the periphery represented a negotiation of different views of Russian identity an ingredient that was ultimately essential even to literature produced in the major cities *Writing at Russia's Border* upends popular ideas of national cultural production and is a fascinating study of the social implications of nineteenth century Russian literature
