Perhaps the first conscious beating of the drum sound occurred as we gestated in the wombs of our mothers. Beat after beat we grew within the sea of our births and then we were born into the air of the world when did we begin to separate from that beat. How long will it be before we hear the beating again. Gabriel Horn. *White Deer of Autumn* is an award winning writer who has provided a nuanced look at Native American culture and spirituality for decades. Now he shows how drumming can take us back to our true selves and connect us to each other and the earth. *Spirit Drumming* follows his journey to the drums including a history of drumming in Native American communities, an investigation of drums as living beings, and an authoritative reckoning on vibration as a conduit for healing. In addition to sharing stories of people he has known who have been affected by the drums, he also provides information on how to integrate other sacred elements in your drumming such as feathers, cedar, sweetgrass, and tobacco. Transcripts of chants you can use in your own practice and ceremonies for thanksgiving, birth, the harvest, children, and more. *Religion, Theatre, and Performance* Lance Gharavi, 2011-12-21 The intersections of religion, politics, and performance form the loci of many of the most serious issues facing the world today. Sites where some of the world's most pressing and momentous events are contested and played out. That this circumstance warrants continued thoughtful and imaginative engagement from those within the fields of theatre and performance is one of the guiding principles of this volume. This collection features a diverse set of perspectives written by some of the top scholars in the relevant fields on the many modern intersections of religion with theatre and performance. Contributors argue that religion can no longer be conceived of as a cultural phenomenon that is safely sequestered in the private sphere. It is instead an explicitly public force that stimulates and complicates public actions and thus a crucial component of much performance. From mystic theologies of acting to the neuroscience of spirituality in rituals to the performance of secularism, these essays address a broad variety of religious traditions sharing a common conception of religion as a crucial object of discourse, one that is formed by and significantly formative of performance. *Indigenous Novels, Indigenized Worlds* Don K. Philpot, 2023-08-16 The fictional worlds created by many contemporary American and Canadian Indigenous novelists for young people provide unique access to the lived experiences of Indigenous people past, present, and future, and the often inaccessible worlds they inhabit. Readers age 10-16 will gain many insights about Indigenous people and themselves.

Indigenous and non Indigenous readers alike through sustained immersion in fictional worlds where Indigenous people are foregrounded active autonomous respected and valued
