## **Sacred Gaia Holistic Theology And Earth System Science:**

**Sacred Gaia** Anne Primavesi, 2002-09-11 Gaia the scientific theory founded by James Lovelock in 1979 embraces the earth as a whole dynamic entity whose sum is always larger than its parts While science and theology are often seen as contraries which negate or dilute one another Gaia theory harmonizes both systems of thought Sacred Gaia cogently describes Gaia theory s analysis of human and earthly evolution Anne Primavesi s remarkable effortlessly coherent book helps us to recognize the sacredness of our origins and our responsibility for the future *Bonhoeffer's Christocentric Theology and Fundamental Debates in Environmental Ethics* Steven C. van den Heuvel, 2017-05-04 There is widespread understanding of the close connection between religion and the ecological crisis and that in order to amend this crisis theological resources are needed This monograph seeks to contribute to this endeavor by engaging the theology of Dietrich Bonhoeffer His theology is particularly suitable in this context due to its open ended nature and to the prophetic and radical nature of the questions he was prepared to ask that is why there are many other attempts to contextualize Bonhoeffer s theology in areas that he himself has not directly written about In this monograph Steven van den Heuvel first of all addresses the question of how to translate Bonhoeffer s theology in a methodologically sound way He settles on a modified form of the general method of correlation Then secondly van den Heuvel sets out to describe five major concepts in Bonhoeffer s work bringing these into critical interplay with discussions in environmental ethics and eco theology In making the correlations he thoroughly describes each concept situating it in the historic and intellectual background of Bonhoeffer s time He then transposes these concepts to contemporary environmental ethics describing what contribution Bonhoeffer s theology can make **A Non-Philosophical Theory of Nature** A. Smith, 2013-07-18 Utilizing Francois Laruelle s non philosophical method Smith constructs a unified theory of philosophical theology and ecology by challenging environmental philosophy and theology claiming that and engagement with scientific ecology can radically change the standard metaphysics of nature as well as ethical problems related to the natural *Science in Civil Society* John Ziman, 2016-09-22 These days science is everywhere It pervades our whole society Sometimes it is just a clutter of commonplace frivolities like new fashion fabrics Sometimes it miraculously preserves our life like penicillin Sometimes like climate change it looms over us as a portent of doom sometimes it promises a way of escape from such a fate Sometimes like a nuclear warhead it enshrouds us in political terror sometimes like a verification technology it offers an antidote to such evils How should we respond to this ambiguous and ubiquitous thing called science *Post-Christian Feminisms* Lisa Isherwood, 2016-04-08 This book explores the impact and contribution of post theories in the field of Christian feminist theology Post theory is an important and cutting edge discursive field which has revolutionized the production of knowledge in both feminism and theology This book fills a gap by providing a text that can make authoritative statements on the use and status of post theory in feminist theology and secondly it makes an on going contribution to the discourse of Christian feminist theology and its liberation agenda
