interrogates the role that medicine has played in the nineteenth and twentieth centuries in constructing and deconstructing the self and other including the fusion of visual objectivity and the scientific gaze in constructing perceptions of humanity Part 3 looks at the limits of medicine when the integrity of one body breaks down It contends with the ultimate question of the extent to which humanity is confined within the integrity of the human body and how medicine and the humanities work together toward responding to the finality of death This is a valuable contribution for all those interested in the medical humanities history of medicine history of ideas and the social approaches to health and illness African American Magick Stephanie Rose Bird, 2023-06-05 An inspired herbal guide to natural living with ancient techniques remedies and rituals from around the world centered on the rhythms of the seasons. Gordon, Shepard Krech III, 2012-03-01 Indigenous knowledge has become a catchphrase in global struggles for environmental justice Yet indigenous knowledges are often viewed incorrectly as pure and primordial cultural artifacts This collection draws from African and North American cases to argue that the forms of knowledge identified as indigenous resulted from strategies to control environmental resources during and after colonial encounters At times indigenous

knowledges represented a middle ground of intellectual exchanges between colonizers and colonized elsewhere indigenous knowledges were defined through conflict and struggle The authors demonstrate how people claimed that their hybrid forms of knowledge were communal religious and traditional as opposed to individualist secular and scientific which they associated with European colonialism Indigenous Knowledge and the Environment offers comparative and transnational insights that disturb romantic views of unchanging indigenous knowledges in harmony with the environment The result is a book that informs and complicates how indigenous knowledges can and should relate to environmental policy making Contributors David Bernstein Derick Fay Andrew H Fisher Karen Flint David M Gordon Paul Kelton Shepard Krech III Joshua Reid Parker Shipton Lance van Sittert Jacob Tropp James L A Webb Jr Marsha Weisiger White Musical Mythologies Edmund Mendelssohn, 2023-09-12 In a narrative that extends from fin de si cle Paris to the 1960s Edmund Mendelssohn examines modernist thinkers and composers who engaged with non European and pre modern cultures as they developed new conceptions of pure sound Pairing Erik Satie with Bergson Edgard Var se with Bataille Pierre Boulez with Artaud and John Cage with Derrida White Musical Mythologies offers an ambitious critical history of the ontology of sound suggesting that the avant garde ideal of pure sound was always an expression of western ethnocentrism Each of the musicians studied in this book re created or appropriated non European forms of expression as they conceived music ontologically often thinking music as something immediate and immersive from Satie's dabblings with mysticism and exoticism in bohemian Montmartre of the 1890s to Var se's experience of ethnographic exhibitions and surrealist poetry in 1930s Paris and from Boulez's endeavor to theorize a kind of musical writing that would absorb the sounds of non European musical traditions to Cage who took inspiration from Eastern thought as he wrote about sound silence and chance These modernist artists believed that the presence effects of sound in their moment were more real and powerful than the outmoded norms of the European musical past By examining musicians who strove to produce sonic presence specifically by re thinking the concept of musical writing criture the book demonstrates that we cannot fully understand French theory in its novelty and complexity without music and sound Supported by the AMS 75 PAYS Fund of the American Musicological Society supported in part by the National Endowment for the Humanities and the Andrew W Mellon Foundation Women's Negotiations and Textual Agency in Latin America, 1500-1799 Mónica Díaz, Rocío Quispe-Agnoli, 2016-12 Fidelity discourse and the pacification of tyrants and Indians Violence and Desire in Brazilian Lesbian Relationships Andrea Stevenson Do a Mariana Osorio de Narv ez Allen, 2016-04-08 In Violence and Desire in Brazilian Lesbian Relationships Allen examines the lives of Brazilian women in same sex relationships This examination contributes to interdisciplinary discussions of female same sex sexuality violence race and citizenship Using fifteen months of ethnographic fieldwork primarily with Afro Brazilian women in the city of Salvador da Bahia Allen argues that Brazilian lesbian women reject Brazilian cultural norms that encourage male domination and female submission through their engagement in romantic relationships with each other At the same time Allen claims

lesbian women also reproduce Brazilian cultural ideals that associate passion intensity and power with physical dominance through their engagement in infidelity and intimate partner violence. The book demonstrates that lesbian women are nonetheless marginalized as Brazilian citizens through widespread social and political invisibility despite these apparent displays of masculinized power The Smell of Slavery Andrew Kettler, 2020-05-28 In the Atlantic World different groups were aromatically classified in opposition to other ethnic gendered and class assemblies due to an economic necessity that needed certain bodies to be defined as excremental which culminated in the creation of a progressive tautology that linked Africa and waste through a conceptual hendiadys born of capitalist licentiousness The African subject was defined as a scented object appropriated as filthy to create levels of ownership through discourse that marked African peoples as unable to access spaces of Western modernity Embodied cultural knowledge was potent enough to alter the biological function of the five senses to create a European olfactory consciousness made to sense the African other as foul Fascinating informative and deeply researched The Smell of Slavery exposes that concerns with pungency within the Western self were emitted outward upon the freshly dug outhouse of the mass slave grave called the Atlantic World New Era - New Religions Dr Andrew Dawson, 2013-05-28 New Era New Religions examines new forms of religion in Brazil The largest and most vibrant country in Latin America Brazil is home to some of the world's fastest growing religious movements and has enthusiastically greeted home grown new religions and imported spiritual movements and new age organizations In Brazil and beyond these novel religious phenomena are reshaping contemporary understandings of religion and what it means to be religious To better understand the changing face of twenty first century religion New Era New Religions situates the rise of new era religiosity within the broader context of late modern society and its ongoing transformation African-Atlantic Cultures and the South Carolina Lowcountry Ras Michael Brown, 2012-08-27 Examines perceptions of the natural world in ideas and practices of African descended communities in South Carolina from the colonial period to the twentieth century Religions of the Caribbean Lizabeth Paravisini-Gebert, Margarite Fernández Olmos, 2011-07-11 A comprehensive introduction to the syncretic religions developed in the Caribbean region Creolization the coming together of diverse beliefs and practices to form new beliefs and practices is one of the most significant phenomena in Caribbean religious history Brought together in the crucible of the sugar plantation Caribbean peoples drew on the variants of Christianity brought by European colonizers as well as on African religious and healing traditions and the remnants of Amerindian practices to fashion new systems of belief Creole Religions of the Caribbean offers a comprehensive introduction to the syncretic religions that have developed in the region From Vodou Santer a Regla de Palo the Abaku Secret Society and Obeah to Quimbois and Espiritismo the volume traces the historical cultural origins of the major Creole religions as well as the newer traditions such as Pocomania and Rastafarianism This second edition updates the scholarship on the religions themselves and also expands the regional considerations of the Diaspora to the U S Latino community who are influenced by Creole spiritual practices Fern ndez
