Bushman, Richard Lyman Bushman, 2004 Eminent historian Richard Lyman Bushman presents an engaging history of the Mormon religion that is full of intricate subplots and peculiar twists He discusses the Book of Mormon s ambivalence toward republican government and its fascination with records translation and history

explores the culture of the Lamanites the enemies of the favored people and recasts Joseph Smith as an original thinker who offered the possibility of belief in a time of growing skepticism Believing History is also a rare and honest confession in which Bushman reflects on his faith and ponders how scholars are to write about subjects in which they are personally invested In this book believers gain a whole new perspective on their religion nonbelievers learn that Mormonism cannot be summed up with a simple label and all are treated to a provocative and open look at a believing historian studying his own faith

**Education in the School of Dreams** Jennifer Lynn Peterson, 2013-05-22 In the earliest years of cinema travelogues were a staple of variety film programs in commercial motion picture theaters These short films also known as scenics depicted tourist destinations and exotic landscapes otherwise inaccessible to most viewers Scenics were so popular that they were briefly touted as the future of film But despite their pervasiveness during the early twentieth century travelogues have been overlooked by film historians and critics In Education in the School of Dreams Jennifer Lynn Peterson recovers this lost archive Through innovative readings of travelogues and other nonfiction films exhibited in the United States between 1907 and 1915 she offers fresh insights into the aesthetic and commercial history of early cinema and provides a new perspective on the intersection of American culture imperialism and modernity in the nickelodeon era Peterson describes the travelogue s characteristic form and style and demonstrates how imperialist ideologies were realized and reshaped through the moving image She argues that although educational films were intended to legitimate filmgoing for middle class audiences travelogues were not simply vehicles for elite ideology As a form of instructive entertainment these technological moving landscapes were both formulaic and also wondrous and dreamlike Considering issues of spectatorship and affect Peterson argues that scenics produced and disrupted viewers complacency about their own place in the world **Souvenir Nation**

Bird, Jr., 2013-10-22 Buried within the collection of the Smithsonian Institution s National Museum of American History exists an astonishing group of historical relics from the pre Revolutionary War era to the present day many of which have never been on display Donated to the museum by generations of souvenir collectors these ordinary objects of extraordinary circumstance all have amazing tales to tell about their roles in American history Souvenir Nation presents fifty of the museum s most eccentric items Objects include a chunk broken off Plymouth Rock a lock of Andrew Jackson s hair a dish towel used as the flag of truce to end the Civil War the microphones used by FDR for his Fireside Chats and the chairs that seated Nixon and Kennedy in their 1960 television debate Historical Archaeology of Gendered Lives Deborah

Rotman, 2009-07-25 During the last half of the nineteenth century a number of social and economic factors converged that resulted in the rural village of Deerfield Massachusetts becoming almost entirely female This drastic shift in population presents a unique lens through which to study gender roles and social relations in the late nineteenth and early twentieth century The lessons gleaned from this case study will provide new insight to the study of gender relations throughout other historical periods as well Through an intensive examination of both historical and archaeological evidence the author

presents a clear picture of the gendered social relations in Deerfield over the span of seventy years While gender relations in urban settings have been studied extensively this unique work provides the same level of examination to gender relations in a rural setting Likewise where previous studies have often focused only on relations between married men and women the unique case of Deerfield provides insight into the experiences of single women particularly widows and spinsters This work presents a unique contribution that will be essential for anyone studying the historical archaeology of gender or gender roles in the Victorian era and beyond

Quinn, Mary M. Cronin, Lee Jolliffe, 2021-07-12 These new essays tell the stories of daring reporters male and female sent out by their publishers not to capture the news but to make the news indeed to achieve star billing and to capitalize on the Gilded Age public's craze for real life adventures into the exotic and unknown They examine the adventure journalism genre through the work of iconic writers such as Mark Twain and Nellie Bly as well as lesser known journalistic masters such as Thomas Knox and Eliza Scidmore who took to the rivers and oceans mineshafts and mountains rails and trails of the late nineteenth century shaping Americans perceptions of the world and of themselves **Spectacular Nature** Susan G. Maher, 2006-01-19 Americans often think of New Jersey as an environmental nightmare As seen from its infamous turnpike which is how many travelers experience the Garden State it is difficult not to be troubled by the wealth of industrial plants belching smokestacks and hills upon hills of landfills Yet those living and working in New Jersey often experience a very different environment Despite its dense population and urban growth two thirds of the state remains covered in farmland and forest and New Jersey has a larger percentage of land dedicated to state parks and forestland than the average for all states It is this ecological paradox that makes New Jersey important for understanding the relationship between Americans and their natural world In New Jersey s Environments historians policy makers and earth scientists use a case study approach to uncover the causes and consequences of decisions regarding land use resources and conservation Nine essays consider topics ranging from solid waste and wildlife management to the effects of sprawl on natural disaster preparedness The state is astonishingly diverse and faces more than the usual competing interests from environmentalists citizens and businesses This book documents the innovations and compromises created on behalf of and in response to growing environmental concerns in New Jersey all of which set examples on the local level for nationwide and worldwide efforts that share the goal of protecting the natural world

Uncommon Ground: Rethinking the Human Place in Nature William Cronon, 1996-10 This collection of essays historicizes the divorce of the natural from the human and shows that nature is a human construction arguing that what we have constructed we can reconstruct      Building on a Borrowed Past Sally J. Southwick, 2005 Annotation A highly original study that is of particular importance as communities across the United States and elsewhere explore heritage tourism as a way to boost local economies Sally J Southwick s book Building on a Borrowed Past Place and Identity in Pipestone Minnesota demonstrates how small town citizens and boosters contributed to the generic image of the Indian in American culture and describes the process of one culture absorbing the heritage of another for civic advantage BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Making Mountains** David Stradling, 2009-11-23 For over two hundred years the Catskill Mountains have been repeatedly and dramatically transformed by New York City In Making Mountains David Stradling shows the transformation of the Catskills landscape as a collaborative process one in which local and urban hands capital and ideas have come together to reshape the mountains and the communities therein This collaboration has had environmental economic and cultural consequences Early on the Catskills were an important source of natural resources Later when New York City needed to expand its water supply engineers helped direct the city toward the Catskills claiming that the mountains offered the purest and most cost effective waters By the 1960s New York had created the great reservoir and aqueduct system in the mountains that now supplies the city with 90 percent of its water The Catskills also served as a critical space in which the nation s ideas about nature evolved Stradling describes the great influence writers and artists had upon urban residents especially the painters of the Hudson River School whose ideal

landscapes created expectations about how rural America should appear By the mid 1800s urban residents had turned the Catskills into an important vacation ground and by the late 1800s the Catskills had become one of the premiere resort regions in the nation In the mid twentieth century the older Catskill resort region was in steep decline but the Jewish Borscht Belt in the southern Catskills was thriving The automobile revitalized mountain tourism and residence and increased the threat of suburbanization of the historic landscape Throughout each of these significant incarnations urban and rural residents worked in a rough collaboration though not without conflict to reshape the mountains and American ideas about rural landscapes and nature

Sam Patch, the Famous Jumper Paul E. Johnson, 2004-06-16 The true history of a legendary American folk hero In the 1820s a fellow named Sam Patch grew up in Pawtucket Rhode Island working there when he wasn't drinking as a mill hand for one of America's new textile companies Sam made a name for himself one day by jumping seventy feet into the tumultuous waters below Pawtucket Falls When in 1827 he repeated the stunt in Paterson New Jersey another mill town an even larger audience gathered to cheer on the daredevil they would call the Jersey Jumper Inevitably he went to Niagara Falls where in 1829 he jumped not once but twice in front of thousands who had paid for a good view The distinguished social historian Paul E Johnson gives this deceptively simple story all its deserved richness revealing in its characters and social settings a virtual microcosm of Jacksonian America He also relates the real jumper to the mythic Sam Patch who turned up as a daring moral hero in the works of Hawthorne and Melville in London plays and pantomimes and in the spotlight with Davy Crockett a Sam Patch who became the namesake of Andrew Jackson's favorite horse In his shrewd and powerful analysis Johnson casts new light on aspects of American society that we may have overlooked or underestimated This is innovative American history at its best

**Gateway State** Sarah Miller-Davenport, 2021-07-06 How Hawai'i became an emblem of multiculturalism during its journey to statehood in the mid twentieth century Gateway State explores the development of Hawai'i as a model for liberal multiculturalism and a tool of American global power in the era of decolonization The establishment of Hawai'i statehood in 1959 was a watershed moment not only in the ways Americans defined their nation's role on the international stage but also in the ways they understood the problems of social difference at home Hawai'i's remarkable transition from territory to state heralded the emergence of postwar multiculturalism which was a response both to independence movements abroad and to the limits of civil rights in the United States Once a racially problematic overseas colony by the 1960s Hawai'i had come to symbolize John F Kennedy's New Frontier This was a more inclusive idea of who counted as American at home and what areas of the world were considered to be within the U.S. sphere of influence Statehood advocates argued that Hawai'i and its majority Asian population could serve as a bridge to Cold War Asia and as a global showcase of American democracy and racial harmony In the aftermath of statehood business leaders and policymakers worked to institutionalize and sell this ideal by capitalizing on Hawai'i's diversity Asian Americans in Hawai'i never lost a perceived connection to Asia Instead their ethnic difference became a marketable resource to help other

Americans navigate a decolonizing world As excitement over statehood dimmed the utopian vision of Hawai i fell apart revealing how racial inequality and U S imperialism continued to shape the fiftieth state and igniting a backlash against the islands white dominated institutions

**The Retreats of Reconstruction** David E. Goldberg, 2016-11-01 Beginning in the 1880s the economic realities and class dynamics of popular northern resort towns unsettled prevailing assumptions about political economy and threatened segregationist practices Exploiting early class divisions black working class activists staged a series of successful protests that helped make northern leisure spaces a critical battleground in a larger debate about racial equality While some scholars emphasize the triumph of black consumer activism with defeating segregation Goldberg argues that the various consumer ideologies that first surfaced in northern leisure spaces during the Reconstruction era contained desegregation efforts and prolonged Jim Crow Combining intellectual social and cultural history *The Retreats of Reconstruction* examines how these decisions helped popularize the doctrine of separate but equal and explains why the politics of consumption is critical to understanding the long civil rights movement
