Critical Companion to William Butler Yeats David A. Ross,2014-05-14 Examines the life and writings of William Butler Yeats including a biographical sketch detailed synopses of his works social and historical influences and more *Sacred Images and Sacred Power in Byzantium* Gary Vikan,2003 In these studies Gary Vikan has opened new perspectives on the daily life and material culture of Late Antiquity more specifically on icons and relics and on objects revealing of the world of pilgrimage the early cult of saints and marriage He contextualizes these familiar categories of object in the patterns of belief and ritual extracted from contemporary texts and the objects themselves in order to understand their meaning within the everyday lives of those by whom and for whom they were made The studies give a nuanced delineation of the inherently ambiguous boundary between conventional religion and magic noting repeatedly those instances wherein the two are invoked in the same breath and by way of the same art object toward the same end From this historically constructed matrix of art belief and ritual the author derives an anthropologically defined paradigm of charisma and pilgrimage applied in one essay as an intriguing parallel to deconstructing the world of a contemporary secular saint Elvis Presley

Imagining Mary Daniel Rancour-Laferrriere,2017-11-15 *Imagining Mary* breaks new ground in the long tradition of Christian mariology The book is an interdisciplinary investigation of some of the many

Marys East and West from the New Testament Mary of Nazareth down to Our Lady of the Good Death in the twentieth century In *Imagining Mary* Professor Rancour Laferriere examines the mother of God in her multireligious and pan historical context The book is a scholarly study but it is written in a clear straightforward style and will be comprehensible to an educated and above all intellectually curious general audience It will appeal to anyone who has ever wondered for example about the flimsy scriptural basis of many beliefs about Mary or the tendency of many mariologists to depict Mary as an incestuous bride of Christ or the theological notion of Mary s loving consent to her son s crucifixion or the idea that Mary was a priest officiating at the sacrifice of her son or the unfortunate association of Mary with Christian anti semitism or the curious appeal of Mary to the terminally ill and so on Special attention is given to the psychology of representations of Mary such as the psychological basis for promoting Mary to the status of a goddess the psychology of Mary s compassion for her son at the foot of the cross and the psychological conflict in Mary s personal relationship with her son Jesus These topics are admittedly diverse but they all have long been on the minds of mariologists The author takes a questioning approach to received wisdom about marian themes including the assumption that one has to be a theist in order to understand the great appeal of Mary down the centuries Indeed *Imagining Mary* may be regarded as a first step in the direction of an atheist mariology

The Natural City Stephen B. Scharper, Ingrid Leman-Stefanovic, 2012-01-01 Urban and natural environments are often viewed as entirely separate entities human settlements as the domain of architects and planners and natural areas as untouched wilderness This dichotomy continues to drive decision making in subtle ways but with the mounting pressures of global climate change and declining biodiversity it is no longer viable New technologies are promising to provide renewable energy sources and greener designs but real change will require a deeper shift in values attitudes and

perceptions A timely and important collection The Natural City explores how to integrate the natural environment into healthy urban centres from philosophical religious socio political and planning perspectives Recognizing the need to better link the humanities with public policy The Natural City offers unique insights for the development of an alternative vision of urban life Anomalous States David Lloyd,1993 Anomalous States is an archeology of modern Irish writing David Lloyd commences with recent questioning of Irish identity in the wake of the northern conflict and returns to the complex terrain of nineteenth century culture in which those questions of identity were first formed In five linked essays he explores modern Irish literature and its political contexts through the work of four Irish writers Heaney Beckett Yeats and Joyce Beginning with Heaney and Beckett Lloyd shows how in these authors the question of identity connects with the dominance of conservative cultural nationalism and argues for the need to understand Irish culture in relation to the wider experience of colonized societies A central essay reads Yeats s later works as a profound questioning of the founding of the state Final essays examine the gradual formation of the state and nation as one element in a cultural process that involves conflict between popular cultural forms and emerging political economies of nationalism and the colonial state Modern Ireland is thus seen as the product of a continuing process in which Lloyd argues the passage to national independence that defines Ireland s post colonial status is no more than a moment in its continuing history Anomalous States makes an important contribution to the growing body of work that connects cultural theory with post colonial historiography literary analysis and issues in contemporary politics It will interest a wide readership in literary studies cultural studies anthropology and history
