Sacred Word And Sacred Text Scripture In World Religions:

Sacred Word and Sacred Text Harold G. Coward, 1988 This fascinating study of the world's sacred texts explain how the value of written scripture over the oral aural experience is characteristic on recent Western history Even today it is atypical of how most believers experience scripture Sacred Word and Sacred Text demonstrates how scripture historically has partaken of both the oral and the written traditions and argues that of the two it is the oral world which has the greater power to transform lives from the back cover *Sacred Word and Sacred Text* Harold Coward, 1992-06 **Experiencing Scripture in World Religions** Harold Coward, 2013-04-05 An inside view of how the scriptures of world religions illuminate the lives and experience of their devotees *Sacred Texts of World Religions* Edited by: Kisak, 2015-09-01 Religious texts also known as scripture scriptures holy writ or holy books are the texts which various religious traditions consider to be sacred or central to their religious tradition Many religions and spiritual movements believe that their sacred texts are divinely or supernaturally revealed or inspired Attitudes towards sacred texts differ widely between religions Some religions make written texts widely and freely available while others hold that sacred secrets must remain hidden from all but the loyal and the initiate Most religions promulgate policies defining the limits of the sacred texts and controlling or forbidding changes and additions Some religions view their sacred texts as the Word of God often contending that the texts are inspired by God and as such should never be altered Translations of texts may receive official sanction but an original sacred language often has defacto absolute or exclusive authority This book serves as a reference guide that lists the works that the corresponding religions are based upon *Sacred Texts Interpreted* Carl Olson, 2017-10-05 Covering the major monotheistic religions Christianity Judaism and Islam as well as selected Eastern religions and Bah Zoroastrianism and Mormonism this cross cultural book offers excerpts of sacred texts and interprets passages to enable a deeper understanding of these religious writings Sacred Texts Interpreted Religious Documents Explained gives readers the opportunity to examine directly the primary sources of different religions and to better understand these texts through expert commentary on selected passages The interpretative material investigates the nature of sacred texts along with the relationship between sacred scripture and canon and it explains why these sacred texts have enduring significance and influence The author provides suggestions on how to read a sacred text before turning to the textual selections from 13 religious traditions arranged alphabetically beginning with the Bah religion and ending with Zoroastrianism Each chapter is devoted to the primary textual sources of a particular religious tradition and is prefaced by an introduction to the literature that places it within its historical and cultural heritage The emphasis for each religion is on its foundational scriptures that are often considered sacred by its adherents Readers will gain a much greater appreciation of how powerful religious texts have always been across human culture and throughout millennia and of how religious thought and ideology have shaped daily life built civilizations inspired art and literature and incited wars and violence *Sacred Scriptures of the World Religions* Joan

Hawkin,2012-02-01 This book penetrates the assumptions of Western technological society and exposes the powers that govern it The contributors argue that it is a mistake to think that religion and belief have been relegated to the private sphere and are no longer important in the public and political domains They assert that the twenty first century has a set of new gods the powers of globalization technology the market and military might that reign alongside those of traditional religions These are the forces to which the modern era has granted ultimacy This book looks at how major religions such as Christianity Islam Judaism Hinduism and Buddhism play an important role in politics and society on both the global and local levels The new gods of technology globalization and war are shown to exacerbate the existing cultural divisions and religious strife that mark our time By understanding the importance of that which is held sacred whether traditional belief or modern practice not acknowledged as belief the contributors help us to comprehend our present situation and challenges A

Beck,2023-05-01 For generations religion and music have been regarded as universals yet despite the fact that they have been frequently linked throughout history and topography and despite the importance of music in the early stages of religious studies their combined presence has not until now been considered a separate area of study and research While there are well developed fields of anthropology of religion psychology of religion and philosophy of religion the widely recognized connections between religion and sound chant and music warrant comparable study Drawing upon theories and methods in the study of both religion and music referencing examples from world religious traditions and addressing challenges posed by critics this book envisions a unified field for religion and music musicology of religion Grounded in the scope and methods of phenomenology and comparative analysis musicology of religion represents an innovative direction in interdisciplinary study enriched by the social sciences ethnomusicology philosophy theology liturgical studies and cognitive studies As conceived musicology of religion will spearhead new and creative paths in the study of religion **Re-imagining South Asian Religions**,2012-12-03 Re imagining South Asian Religions is a collection of essays offering new ways of understanding aspects of Hindu Tibetan Buddhist Sikh Jain Theosophical and Indian Christian experiences Moving away from canonical texts established authorities and received historiography the essays in this volume draw from a range of methodological perspectives including philosophy history hermeneutics migration and diaspora studies ethnography performance studies lived religion approaches and aesthetics Reflecting a balance of theory and substantive content the papers in this volume call into question key critical terms challenge established frames of reference and offer innovative and alternative interpretations of South Asian ways of knowing and being *The Message and the Book* John Bowker,Atlantic Books, an imprint of Grove Atlantic Ltd.,2012-03-27 Grand in its sweep this survey of the sacred writings of the major religions of the world offers a thoughtful introduction to the ideas and beliefs upon which great faiths are built Under the expert guidance of John Bowker a religious scholar and author of international stature readers explore the key texts of Jewish Christian Muslim Hindu Jain Sikh Buddhist Parsi Confucian Daoist and Shinto traditions The author discusses some 400 books among them such well known sacred texts as the Bible and the Quran but also spiritual writings by theologians philosophers poets and others Bowker provides clear and illuminating commentary on each text describing the content and core tenets of the work and quoting pertinent passages He also sets the writings in religious and historical contexts showing how they have influenced and in many cases continue to influence artistic musical literary and political traditions The Message and the Book is essential reading for anyone who wishes to understand the meaning and the deep significance of primary religious texts of civilizations around the globe **Veda and Torah** Barbara A. Holdrege,1996-01-01 In this book

Barbara Holdrege has set a high standard for comparative work and has made an important contribution to both Hindu and Jewish studies She has looked at Veda and Torah not simply as scripture but as systems of meaning symbol systems each with its own affiliated meanings each with its symbolic context and each with its history of interpretation **Canonization and Decanonization** A Van Debeek, Karel Van Der Toorn, 1998 This volume is the most wide ranging religio historical study on de canonization ever published It contains significant contributions to the study of canonization in different religions in ancient times as well as in modern societies An Annotated Bibliography adds greatly to its value Fifty Years of Religious Studies in Canada Harold Coward, 2014-11-07 In Canadian universities in the early 1960s no courses were offered on Hinduism Buddhism or Islam Only the study of Christianity was available usually in a theology program in a church college or seminary Today almost every university in North America has a religious studies department that offers courses on Western and Eastern religions as well as religion in general Harold Coward addresses this change in this memoir of his forty five year career in the development of religious studies as a new academic field in Canada He also addresses the shift from theology classes in seminaries to non sectarian religious studies faculties of arts and humanities the birth and growth of departments across Canada from the 1960s to the present the contribution of McMaster University to religious studies in Canada and Coward s Ph D experience there the Centre for Studies in Religion and Society at the University of Victoria and the future of religious studies as a truly interdisciplinary enterprise Coward s retrospective while not a history as such documents information from his varied experience and wide network of colleagues that is essential for a future formal history of the discipline His story is both personally engaging and richly informative about the development of the field Canonical Texts: Bearers of Absolute Authority - Bible, Koran, Veda, Tipiaka Rein Fernhout, 2023-12-28 This book introduces a new approach to the comparative study of sacred texts here the Christian Bible the Islamic Koran the Hindu Veda and the Buddhist Tipiaka The author demonstrates that in spite of their great differences these works show a fundamental analogy Considered as canonical within their own religious context each text possesses absolute authority in comparison with other authoritative texts from their respective religious traditions This fundamental analogy allows one to describe the growth and history of these canons step by step as a process that takes place in analogous phases that are clearly distinguishable The author follows a strictly phenomenological method he tries to understand the development of these canons in terms of a potential that lies within the phenomena themselves i e the texts while refraining in any way from assessing their claim to absolute authority In part I the author describes the development from the revelation of the texts to a climax with respect to reflection on the canons This climax has been reached in all four cases Part II investigates the crisis that these canons are currently undergoing as a consequence of the modern intellectual climate Can we expect that this crisis will be overcome by the canons And if so will they be in a position of mutual exclusion or will they form a sort of unity such as for example the Old and New Testament in the Christian Bible Finally the author traces what the religions themselves have postulated about the

future of their respective canons The result is surprising the current crisis is only faint reflection of what according to age old predictions awaits the canons in the future

Fighting Words John Renard,2012-12-31 One of the critical issues in interreligious relations today is the connection both actual and perceived between sacred sources and the justification of violent acts as divinely mandated Fighting Words makes solid text based scholarship accessible to the general public beginning with the premise that a balanced approach to religious pluralism in our world must build on a measured well informed response to the increasingly publicized and sensationalized association of terrorism and large scale violence with religion In his introduction Renard provides background on the major scriptures of seven religious traditions Jewish Christian including both the Old and New Testaments Islamic Baha i Zoroastrian Hindu and Sikh Eight chapters then explore the interpretation of select facets of these scriptures focusing on those texts so often claimed both historically and more recently as inspiration and justification for every kind of violence from individual assassination to mass murder With its nuanced consideration of a complex topic this book is not merely about the religious sanctioning of violence but also about diverse ways of reading sacred textual sources

Religious Therapeutics Gregory P. Fields,2002-01-01 Religious therapeutics explores the relationship between psychophysical health and spiritual and health presents a model for interpreting connections between religion and medicine in world traditions This model emerges from the work s investigation of health and religiousness in classical yoga Ayurveda and Tantra Three Hindu traditions note worthy for the central role they accord the body Author gregory P Fields compares Anglo European and Indian philosophies of body and health and uses fifteen determinants of health excavated from texts of ancient hindu medicine to show that health concerns the person not the body or body mind alone

Hindu Ethics Harold Coward,Julius Lipner,Katherine K. Young,1989-01-01 Modern Western approaches to India often have focused on metaphysics at the expense of ethics leading many to see Hinduism as only concerned with the esoteric and the otherworldly The chapters of this book offer case study explorations that are selected and presented to invite comparisons with the modern West Such comparisons will help to remove the apparent otherworldly nature of Hindu thought from the minds of Western readers as well as give depth and new significance to Indian ideas in the areas of medical ethics social ethics and human rights The case studies demonstrate that Indian thought has not ignored deep reflection on ethical problems that are presenting serious challenges to the modern world They demonstrate that Hinduism has a firm grounding in ethics even when the most difficult questions are raised
