the late 1950s He has used it in domestic scaled works in dazzling large scale museum installations and in public spaces such as the Champs Elysees in Paris and the Millennium Dome in London Ian Wedde suggests in Bill Culbert that energy and travel congeniality and conviviality are also key to understanding of Culbert s immensely attractive but conceptually rigorous work from his wall mounted light sculptures made of cool white fluorescent tubes and coloured plastic containers his installations of objects from the local dump his battered suitcases wheels light bulbs bottles and wine glasses pouring light Culbert is a also generous artist acknowledging the importance of collaborators locations situations at a moment in time the wider culture and viewers Thoughtful compelling and extensively illustrated Bill Culbert Making Light Work is an assured participant in this conversation and readers will relish the opportunity to share in it **C/ID** Emily King,2006-07-13 Survey of the thirty best recent design work for cultural clients including galleries museums theatres and auditoriums The focus is on new identities and their application as well as smaller design solutions as gallery guides promotional programmes exhibition catalogues theatre programmes branded merchandising websites signage systems and temporary exhibition design **Tony Cragg at Goodwood** Tony Cragg,Mark Cass,2005 Tony Cragg at Goodwood is more than just a book presenting finished pieces of sculpture It is a book about the whole process involved in creating not only the pieces themselves but the largest exhibition of Tony Cragg s outdoor sculptures in Britain to date From conception through drawings to creation of the pieces in Cragg s studios in Wuppertal Germany to the sculptures arriving and being installed at the Goodwood Estate The concept not only reveals the process behind how the artist works but how the Cass Sculpture Foundation produced one of the largest sculpture projects ever realised with a British artist Photographer Leon Chew was commissioned to record all aspects of the project which culminates in 24 spectacular full spread photographs of the completed pieces situated in and around a new 5 acre site The show will be on for a full year **Marc Quinn. Catalogo della mostra (Roma, 22 giugno-30 settembre 2006). Ediz. italiana e inglese** Marc Quinn,Achille Bonito Oliva,Danilo Eccher,2006 Text by Danilo Eccher Marc Quinn Jason Shulman *Tate Modern Artists* Simon Morrissey,2005 Richard Wilson was born in London in 1953 Descended on one side from a line of builders and on the other of artists his work often comes closer to engineering or even architecture than it does to traditional sculpture Typically he transforms the viewer s environment into something unsettling and strange by the interventions he makes whether in the internal space of a gallery the structure of a building or in one of the ships with which he has a particular affinity Perhaps his best known work is 20 50 currently on show at and probably the most popular exhibit in the Saatchi Gallery in London For 20 50 Wilson flooded a gallery space with oil which has a highly reflective surface Into the oil is built a kind of narrow pier or promenade down which one person at a time can walk the oil perilously close to their body So reflective is the oil that the room induces a strong sense of disorientation Further along the River Thames next to the Millennium Dome is another Wilson piece that provides an unexpected sight moving freely through it is both a startling sculptural object in its own right and a comment on

the vanished shipping industry that was once a mainstay of the river community In Los Angeles Wilson was inspired by one of the most ubiquitous symbols of Californian life the swimming pool suspending a fibreglass pool shell from a sixty foot long pipe in MOCA's subterranean gallery Deep End In addition to and often in conjunction with these large scale projects Wilson makes films and sculpture takes photographs and stages performance events and has been a formative influence on a generation of British artists This lavishly illustrated career survey includes a new interview with Wilson and examines six key works in depth

The Sculpture of William

Turnbull Amanda Anne Davidson, 2005 This publication takes the reader through William Turnbull's artistic journey and explores his influences as well as his own constant sense of direction A fascinating narrative is counterbalanced by the first complete catalogue of the artist's entire sculptural output 1948 to 2003

Lynn Chadwick, Sculptor Dennis Farr, Lynn Chadwick, Eva Chadwick, 1997 This is the first comprehensive survey of the career of Lynn Chadwick 1914-2003 one of the greatest sculptors of the British postwar generation ranked alongside Henry Moore and Barbara Hepworth This book is a fitting tribute to Chadwick's brilliant career which spanned half a century Chadwick's work drew upon the natural world and his sculptures were largely based on the human figure or animal forms Though he insisted on the primacy of formal and technical concerns his animals explore states of aggression and vulnerability while the later archetypal figures examine aspects of human movement interaction and sexuality Offering a detailed critical explanation of Chadwick's career the book also incorporates excerpts from interviews and discussions with the artist at his home in Gloucestershire shortly before his death
