Sculpture The Shapes Of Belief:

Sculpture: the Shapes of Belief Penelope Naylor, 1971 Describes the history significance and variety of sculpture from ancient times to the present *The Shape of Belief* Mary Nooter Roberts, Allen F. Roberts, Fine Arts Museums of San Francisco, 1996 The catalogue of an exhibit at the Fine Arts Museum of San Francisco November 1996 to April 1997 illustrating in color 70 objects donated to the museum by art collector Heide Also includes an essay on the art forms and cultures and map of West Africa Distributed by U of Washington Press Annot **Sculpture in Religion** Rebecca Murphy, AI, 2025-02-26 Sculpture in Religion explores the multifaceted role of three dimensional art in shaping religious beliefs and practices across various cultures The book examines how sculptures of deities saints and sacred narratives influence both the construction of sacred spaces and the evolution of religious thought A key insight is the exploration of theological rationales behind religious imagery asking why some religions embrace it while others prohibit it Another focus looks at how religious sculpture has been used to legitimize power and reinforce social hierarchies The book analyzes religious sculpture not just as decorative but as a dynamic force in shaping religious identities Beginning with a theoretical framework it proceeds through case studies from ancient Egyptian Greek Roman Buddhist Hindu Christian and Islamic traditions showing cross religious approaches to sacred iconography The central chapters explore localized traditions while later chapters address iconoclasm and reform It uses archaeological findings textual sources and art historical analyses to provide a comprehensive understanding of religious sculpture s enduring power Indigenous Shona Philosophy Mungwini, Pascah, 2019-04-15 Some of the most provocative questions confronting philosophers in Africa are grounded in the historical memory of conquest and the peripheralisation the continent Mungwini offers a critical reconstruction of indigenous Shona philosophy as an aspect of the African intellectual heritage held hostage by colonial modernity In this comprehensive work he lays bare the thoughts of the Shona who are credited with the founding of the ancient Great Zimbabwe civilisation Retracing the epistemic thread in the fabric of Shona culture and philosophy he explores the assumptions that inform their thinking The exchange of such knowledge is fundamental to the future of humanity Sculpture Philip Rawson, 2016-11-11 Philip Rawson a distinguished academic and author practiced as a sculptor all of his life Sculpture his final book completes the trilogy begun with his classic works Drawing and Ceramics As in those earlier volumes Rawson provides a clear factual description of the underlying principles and structural techniques of the art Although Rawson discusses sculptures from many places and periods including Africa Asia Greece Medieval and Renaissance Europe and twentieth century Europe and America Sculpture is not a history as such Rather it is an original analysis of sculpture as a fundamental and integral form of human language capable of conveying a variety of different insights offering a wealth of cultural and symbolic meaning In the course of this analysis Sculpture explores the full range of expressive techniques available to the sculptor today Rawson s intent is to reveal possible modes of sculptural thought for practitioners and to enable the nonexpert to better understand and appreciate the

emotional and intellectual content of any work

Volume 9: Aesthetics and Philosophy of Art Guttorm

Fløistad,2007-03-16 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far eight volumes are published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volume 6 1 and Volume 6 2 Asian Philosophy Volume 7 and Philosophy of Latin America Volume 8
