

Sea People

Phyllis G. Jestice

Sea People:

Saltwater People Nonie Sharp, 2002-01-01 In October of 2001 the Australian High Court confirmed aboriginal title to two thousand kilometres of ocean off the north coast. The decision, which was the result of a seven year court battle, highlighted aboriginal belief that the sea is a gift from the creator to be used for sustenance, spirituality, identity and community. This evocative study of the people of northern coastal Australia and their sea worlds illuminates the power of human attachment to place. Saltwater People: The Waves of Memory offers a cross disciplinary approach to native land claims that incorporates historical and contemporary case studies from not only Australia but also New Zealand, Scandinavia, the US and Canada. Nonie Sharp discusses various issues of indigenous heritage including land claims, concepts of public and private property, poverty and the environment. Despite dispossession, the aboriginals of northern coastal Australia never faltered in their devotion to the sea, illustrating how profoundly such bonds are preserved in memory. Their moving story of surviving and winning a lengthy court battle provides valuable information for all countries dealing with similar issues of rights to tenure and natural resources. Sharp provides the first book length study of an integrated statement on the many defining qualities of the cultural relationship of aboriginals, non aboriginals and the concept of ownership over the sea and illustrates the wisdom that different traditions can offer one another.

The Sea Peoples and Their World Eliezer D. Oren, 2000-08-29 This volume presents the results of the 1995 international seminar on the history and archaeology of the Sea Peoples. The 17 comprehensive articles, written by leading scholars in the fields of Egyptology, Hittitology, biblical studies and Aegean, Anatolian and Near Eastern archaeology, examine current methodologies and interpretations concerning the origin, migration and settlement of the Sea Peoples against the overwhelming new archaeological record from sites throughout the Mediterranean basin and the Levant. *Symposium Series 11, University Museum Monograph 108*. *Boats of the World* Seán McGrail, 2002-01-18 Maritime archaeology, the study of man's early encounter with the rivers and seas of the world, only came to the fore in the last decades of the twentieth century, long after its parent discipline, terrestrial archaeology, had been established. Yet there were seamen long before there were farmers, navigators before there were potters and boatbuilders, before there were wainwrights. In this book Professor McGrail attempts to correct some of the imbalance in our knowledge of the past by presenting the evidence for the building and use of early water transport: rafts, boats and ships. *Huhito Fables Vol. 7* □□-Huhito, Warning: This fable may affect children's primary education. Rationalising the Bible □ Volume 2:

Conquest, Kings, Poetry and Prophecy Ivy Bedworth,2016-03-05 Rationalising the Bible is a collection of volumes that cover the books of the Old and New Testaments of the Holy Bible Written by mostly unidentified authors the Bible is generally attributed with being the moral compass of the world of Judeo Christian religious adherents In fact the Bible is mostly mythological history inaccurate science exaggerated reports of violence and discrimination against the people who settled the Fertile Crescent and a set of laws plagiarised from those already in existence in the area Even the writing of it claimed to be that of the patriarchs can clearly be identified in the reading of it as belonging rather to a period when all people in the civilised world were writing their stories It was not written as atheists often charge by illiterate nomadic tribespeople in pre history Instead it was written by politicians and priests at a time when the western civilisations were making their mark on the world s politics *The End of Civilization* Gordon Donnell,2016-07-13 APOCALYPSE It has been predicted countless times over thousands of years In the generation following 1200 BC it actually happened and no one saw it coming The great civilizations of the age fell The magnificent cities of the Eastern Mediterranean were destroyed or simply abandoned We have glimpses of the events from Homer s epic tales of the Trojan War and from hieroglyphics that tell of desperate battles fought by Egypt s Pharaohs to hold back invading hordes but the complete story of how and why the Eastern Mediterranean collapse came about has yet to be told The End of Civilization takes a fresh look at the evidence and develops a narrative that traces the collapse step by step and exposes the reasons behind it **Dragons & Dinosaurs**

Ford, 2005-07-05 Step into the Wardrobe This peerless companion has served as an adventurer's passport to the land of Narnia for twenty five years and was used by the cast and crew of the major motion picture The Chronicles of Narnia The Lion the Witch and the Wardrobe From Aslan the Great Lion to Zardeenah the mysterious lady of the night this comprehensive accessible book contains hundreds of alphabetically arranged and indexed entries covering all the characters events places and themes that Lewis brilliantly wove into his timeless and magical world For readers of all ages this is the perfect guide for the enchanted world of C S Lewis's The Chronicles of Narnia

The Rise and Fall of the Ancient Israelite States Martin Sicker, 2003-10-30 By subjecting biblical writings to a political analysis Sicker constructs a plausible political history of the ancient Israelite states that dealt with virtually every issue faced by governments throughout subsequent history As he makes clear the way they dealt with those issues successfully or otherwise is highly instructive and relevant to today's analysis of geopolitical issues Our knowledge of the political history of ancient Israel is almost exclusively dependent on the information that may be gleaned from biblical writings which reflect a historiosophical perspective very different from that employed in modern historical writing Nonetheless and despite all the problems encountered in dealing with the biblical texts the history of the ancient Israelite states that can be derived from them has much to offer a student of politics Instead of the critical literary analysis common to contemporary biblical studies Sicker constructs a plausible political history of the ancient Israelite states that takes into consideration the geopolitical realities that directly conditioned much of that history as well as the religious dimensions of Israelite political culture that played a critical role in it He demonstrates

that the ancient Israelite states were confronted by virtually every political dilemma domestic and international encountered by states and governments throughout the subsequent history of the world The way they dealt with the issues successfully or otherwise is highly instructive and relevant to the complex issues faced by states and governments today Ancient Egyptian Warfare Phyllis G. Jestice,2009-08-22 A discussion of ancient Egyptian warfare looking at foot soldiers mounted soldiers weapons and armor sea battle and leaders *Early History of the Israelite People* Thompson,2024-07-15 Through a review of historical scholarship of the past century and an analysis of data drawn from archaeological excavations and surveys and from written and historical records from the late second and early first millennium the author reconstructs the historical basis of Israel s origins within the contexts of geography anthropology and sociology Thompson argues that none of the traditional models for the origin of biblical Israel in terms of conquest peaceful settlement or revolution are viable The indigenous nature of the Israelite people has roots that lead back to the late Neolithic period The Iron I period is not the period in which the origins of Israel are to be sought Rather the geographical and regional expansion of settlements in this period reflects an economic response to drought conditions that affected the entire East Mediterranean basin The ninth and eighth century states of Samaria and Jerusalem had separate and independent origins rooted in the development of a Mediterranean economy and an expansion of trade brought about by Assyrian interests The development of the ethnic concept of biblical Israel with its roots in the United Monarchy finds its context in history first at the time of the Persian renaissance guided by the theological concepts of exile and restoration Finally Thompson argues that biblical Israel is historically the creation of the tradition itself in the Persian period and attempts to outline both a historical context and an interpretative matrix for the Bible *The History of Ancient Palestine* Gösta Werner Ahlström,1993 In this magisterial work the history of the peoples of Palestine from the earliest times to Alexander s conquest is thoroughly sifted and interpreted All available source material textual epigraphic and archeological is considered and the approach taken aims at a dispassionate reconstruction of the major epochs and events by the analysis of social political military and economic phenomena The book chronologically structured is indispensable for the study of the Hebrew Bible and of the ancient Near East **The Kingdom of the Wind** Hiroyuki Itsuki,2014 Journalist Takashi Hayami meets Ai Katsuragi a member of a religious organization Tenmu Jinshinko which meets secretly at the tomb of the Emperor Nintoku and which adheres to the nomadic way of life of its ancestors They rely on the company Ikarino to fund the various political social and cultural activities they promote that protect their unique lifestyle But when Ikarino becomes a giant conglomerate that destroys the forests and mountains that form the foundation of the Tenmu Jinkshinko Hayami must join the group s struggle **Valley of Renewal** S.J. Saunders,2023-08-31 With the world itself in flux those called to defend it must grieve their losses swiftly and resume the work of protecting all they ve fought for Enemies advance on every front and Covorum s leaders again find themselves at a disadvantage due to the opposition s draconic insight into the rising conflict While friends are laid to rest old promises must

also be upheld Beings of great power await reshaping into their truest forms and the cost of such complete metamorphoses may prove more painful than the Heroes of Dragon s Nest could suspect A final destiny awaits friend and foe alike however a ritual with an expansive ending long delayed Only one of the world s sapient species one blood of the many will remain in the looming future yet the peoples of Deyrnas will have to come together as never before **The Wise Men and the Star** Dean G. Miller,2019-04-08 The story of the Wise Men in Matthew s Gospel has always been an enigma The only three important terms in that tale wise men star and east are all lost in obscurity rendering it useless as a record For this reason many scholars consider it just another miracle story of the kind that surrounded other ancient heroes But what if a piece of information was missing whose recovery would make it as clear today as it was to the original readers In The Wise Men and the Star Dr Miller explains how he uncovered that missing piece which then revealed who the Wise Men were the location of the East when they arrived in Bethlehem and what was the star they saw **The Ancient Near East, C. 3000-330 BC** Amélie Kuhrt,1995 A single authored two volume work which makes no claims to comprehensiveness but selectively treats periods and areas usually studied in universities treatment of Egypt is brief because of the availability of studies of Egyptian history at all levels It is intended as an introduction to ancient Near Eastern history to the main sources used for reconstructing societies and political systems and to some historical problems and scholarly debates The area discussed extends from Turkey Anatolia and Egypt in the west through the Levant which includes Israel Lebanon Jordan and Syria west of the Euphrates to Mesopotamia into Iran Volume I covers c 3000 BC to c 1200 BC volume II 1200 BC to 330 BC The author is a Reader in Ancient History at University College London Annotation copyright by Book News Inc Portland OR
