The Interest of America in Sea Power, Present and Future (Dodo Press) Alfred Thayer Mahan, 2008-03 Alfred Thayer Mahan 1840-1914 was a United States Navy officer geostrategist and educator His ideas on the importance of sea power influenced navies around the world and helped prompt naval buildups before World War I Despite his success in the Navy his skills in actual command of a ship were not exemplary and a number of vessels under his command were involved in collisions On the other hand the books he wrote ashore made him arguably the most influential naval historian In 1885 he was appointed lecturer in naval history and tactics and the Naval War College Before entering on his duties Mahan was pointed to write his future studies and lectures on the influence of sea power He organized his lectures into his most influential books The Influence of Sea Power upon History 1660-1783 1890 To a modern reader his emphasis on sea borne commerce may seem commonplace but the notion was much more radical in Mahan's time His other works include The Interest of America in Sea Power Present and Future 1897 and Types of Naval Officers 1902

The Influence of Sea Power Upon History, 1660-1783 (Annotated) Alfred Thayer Mahan, 2020-04-09 Differentiated book It has a historical context with research of the time The influence of sea power on history 1660-1783 is a naval war story published in 1890 by Alfred Thayer Mahan He details the role of sea power

during the 17th and 18th centuries and discussed the various factors necessary to support and achieve sea power with an emphasis on having the largest and most powerful fleet. Academics considered it the most influential book in naval strategy. Its policies were quickly adopted by most major navies which eventually led to the First World War naval arms race. It is also cited as one of the factors contributing to the United States becoming a great power. Mahan formulated his concept of sea power while reading a history book in Lima, Peru. The book was published by Mahan while he was president of the United States Naval War College and was the culmination of his ideas about naval warfare. Mahan began the book with an examination of the factors that led to the supremacy of the seas, especially how Britain was able to achieve its near dominance. He identified characteristics such as geography, population, and government and expanded the definition of maritime power as a strong commercial and naval fleet. Mahan also promoted the belief that any army would succumb to a strong naval blockade.
