Seafarer Community Toward A Social Understanding Of Seafaring:

Seafarer & Community Peter H. Fricke, 2023-10-27 *Seafarer Community* 1973 examines life on shipboard and how the communities which rely on the sea for their livelihood exist The main theme running through the chapters in this book is the observation of seafaring as an occupational community as observed by anthropologists economists geographers psychologists seafarers and sociologists The book explores the nature of seafaring communities and asks whether they exist as communities in their own right or if they are occupational subgroups within a larger community It also examines the psychological impact on seafarers of working within the closed communities of ships and analyses the problems of training and recruitment

Seafaring Labour Eric W. Sager, 1996 Sager argues that sailors were not misfits or outcasts but were divorced from society only by virtue of their occupation The wooden ships were small communities at sea fragments of normal society where workers lived struggled and often died With the coming of the age of steam the sailor became part of a new division of labour and a new social hierarchy at sea Sager shows that the sailor was as integral to the transition to industrial capitalism as any land worker

Mediterranean Seafarers in Transition, 2022-10-17 This volume discusses the effects of industrialization on maritime trade labour and communities in the Mediterranean and Black Sea from the 1850s to the 1920s The 17 essays are based on new evidence from multiple type of primary sources on the transition from sail to steam navigation written in a variety of languages Italian Spanish French Greek Russian and Ottoman Questions that arise in the book include the labour conditions wages career and retirement of seafarers the socio economic and spatial transformations of the maritime communities and the changes in the patterns of operation ownership and management in the shipping industry with the advent of steam navigation The book offers a comparative analysis of the above subjects across the Mediterranean while also proposes unexplored themes in current scholarship like the history of navigation Contributors are Luca Lo Basso Andrea Zappia Leonardo Scavino Daniel Muntane Eduard Page Campos Enric Garcia Domingo Katerina Galani Alkiviadis Kapokakis Petros Kastrinakis Kalliopi Vasilaki Pavlos Fafalios Georgios Samaritakis Kostas Petrakis Korina Doerr Athina Kritsotaki Anastasia Axaridou and Martin Doerr

Seafarer and Community Peter H. Fricke, 2025-04-02 *Seafarer Community* 1973 examines life on shipboard and how the communities which rely on the sea for their livelihood exist It looks at seafaring as an occupational community as observed by anthropologists economists geographers psychologists seafarers and sociologists

New Directions in Anthropology and Environment Carole L. Crumley, 2002-05-09 Carole L Crumley has brought together top scholars from across anthropology in a benchmark volume that displays the range of exciting new work on the complex relationship between humans and the environment Continually pursuing anthropology's persistent claim that both the physical and the mental world matter these environmental scholars proceed from the holistic assumption that the physical world and human societies are always inextricably linked As they incorporate diverse forms of knowledge their work reaches beyond anthropology to bridge the sciences social sciences and the humanities and to forge

working relationships with non academic communities and professionals Theoretical issues such as the cultural dimensions of context knowledge and power are articulated alongside practical discussions of building partnerships research methods and ethics and strategies for implementing policy New Directions in Environment and Anthropology will be important for all scholars and non academics interested in the relation between our species and its biotic and built environments It is also designed for classroom use in and beyond anthropology and students will be greatly assisted by suggested reading lists for their further exploration of general concepts and specific research Learn more about the author at the University of North Carolina Anthropology Department web pages **The Global Seafarer** T. R. Burg, 1995 Pirates are among the most heavily romanticized and fabled characters in history From Bluebeard to Captain Hook they have been the subject of countless movies books children s tales even a world famous amusement park ride In *Sodomy and the Pirate Tradition* historian B R Burg investigates the social and sexual world of these sea rovers a tightly bound brotherhood of men engaged in almost constant warfare What he asks did these men often on the

high seas for years at a time do for sexual fulfillment. Buccaneer sexuality differed widely from that of other all male institutions such as prisons for it existed not within a regimented structure of rule regulations and oppressive supervision but instead operated in a society in which widespread toleration of homosexuality was the norm and conditions encouraged its practice. In his new introduction Burg discusses the initial response to the book when it was published in 1983 and how our perspectives on all male societies have since changed. Provided by Publisher

The Historical Geography of Scotland Since 1707 David Turnock, 2005-08-04 This is the first book to take a comprehensive view of the historical geography of Scotland since the Union. The period is divided into sections separated by the Napoleonic Wars and the First World War and each section offers a general view followed by detailed studies giving a balanced coverage of regional and urban rural criteria and the economic infrastructure. The book contains a number of original researches and Dr Turnock attempts to set the Scottish experience in a framework of general ideas on modernisation.

The House of Percy Bertram Wyatt-Brown, 1996-11-21 The novels of Walker Percy: *The Moviegoer*, *Lancelot*, *The Second Coming* and *The Thanatos Syndrome* to name a few, have left a permanent mark on twentieth century Southern fiction. Yet the history of the Percy family in America matches anything perhaps that he could have created. Two centuries of wealth, literary accomplishment, political leadership, depression and sometimes suicide established a fascinating legacy that lies behind Walker Percy's acclaimed prose and profound insight into the human condition. In *The House of Percy*, Bertram Wyatt Brown masterfully interprets the life of this gifted family, drawing out the twin themes of an inherited inclination to despondency and an abiding sense of honor. The Percy family roots in Mississippi and Louisiana go back to Don Carlos Percy, an eighteenth century soldier of fortune who amassed a large estate but fell victim to mental disorder and suicide. Wyatt Brown traces the Percys through the slaveholding heyday of antebellum Natchez, the ravages of the Civil War which produced the heroic Colonel William Alexander Percy, the Gray Eagle, and a return to prominence in the Mississippi Delta after Reconstruction. In addition, the author recovers the tragic lives and literary achievements of several Percy-related women, including Sarah Dorsey, a popular post-Civil War novelist who horrified her relatives by befriending Jefferson Davis, a married man, and bequeathing to him her plantation home, Beauvoir, along with her entire fortune. Wyatt Brown then chronicles the life of Senator LeRoy Percy, whose climactic re-election loss in 1911 to a racist demagogue deeply stung the family pride but inspired his bold defiance to the Ku Klux Klan in the 1920s. The author goes on to tell the poignant story of poet and war hero Will Percy, the Senator's son. The weight of this family narrative found expression in Will Percy's memoirs, *Lanterns on the Levee*, and in the works of Walker Percy, who was reared in his cousin Will's Greenville home after the suicidal death of Walker's father and his mother's drowning. As the biography of a powerful dynasty steeped in Southern traditions and claims to kinship with English nobility, *The House of Percy* shows the interrelationship of legend, depression and grand achievement. Written by a leading scholar of the South, it weaves together intensive research and thoughtful insights into a riveting, unforgettable story.

Seas Merja-Liisa Hinkkanen, David Kirby, 2013-06-17 Exploring the themes of the human relationship with the marine environment and the ways in which the peoples of Northern Europe have experienced and exploited their seas this book reveals how human perception of the northern seas has changed over time Drawing on a wide variety of sources from Denmark and Britain to Norway Finland and Germany The Baltic and the North Seas is an insightful and colourful history of the politics economy and culture of this intriguing region

A Place to Belong Gerald L. Pocius, 2000 A Place to Belong is a profusely illustrated intimate contemporary portrait of Calvert a three hundred year old fishing village on Newfoundland's southern shore Often using its residents own words Gerald Pocius describes in detail the continual creative encounters between past and present between individual and community that make up daily life in Calvert By accepted standards of tradition Calvert's culture is declining Old structures are regularly torn down or renovated antique household items are replaced with modern conveniences Pocius argues however that the tangible expressions of a culture can be misleading Calvert's essence is not in the things owned and used by its residents but in the spaces in which those things abide and in the attitudes values and obligations that delineate the order of those spaces From woodlands water and fields to yards gardens and homes Calvert's physical and social structure is governed by shared concerns about the community's livelihood and welfare As a resident of Calvert puts it Where you're working in the same space with people you know it's just not practical to be falling out with everyone The sense of community that pervades Calvert is best exemplified by its annual draw for fishing berths Because productivity varies among offshore fishing grounds there is no private ownership of fishing rights Rather a lottery instituted in 1919 ensures each family the same chances for periodic access to the best fishing berths The draw continues until all the fishing berths are awarded but it is common for a family to opt out once they have drawn enough good berths There are also instances of the most successful fishing operations sharing their catches From his observations of Calvert's people at work and leisure Pocius provides evidence to confirm the viability and durability of their culture He reveals that standard assumptions about culture are inadequate particularly those based on the primacy of artefacts and on sharp dichotomies between tradition and modernity Calvert he shows belies our notion that declining cultural values and social segmentation are unavoidable side effects of modernisation and a rise in material well being A Place to Belong will promote a constructive scepticism about the ways we perceive and interpret cultures and most important will remind us of what it really means to belong to a place

Work, Consumption and Culture Paul Ransome, 2005-01-19 The central question in Work Consumption and Culture is

whether consumption has now displaced production as the defining factor in the lives of those in the industrialized West This book offers a comprehensive review of the key issues in the production consumption debate and where it might lead in the future Key to Paul Ransome s argument is the hypothesis that affluence is the crucial factor in the shift away from work and towards consumption Uniquely emphasizing the links between work consumption and culture rather than keeping each element separate the author looks at the changing significance of work in society the meaning growth and significance of affluence the growing importance of consumption as a source of identity and its implications the impact of the shift to consumption on work life balance Work Consumption and Culture engages the reader with its lively debating style It is an essential introduction for sociology and cultural studies students on courses relating to consumption and the role of work in contemporary society This book offers a balanced account of the changing importance of work and consumption in contemporary industrial society Clearly written the author identifies the central role that affluence plays in the relationship between work and consumption and in the development of social life and individual identity Professor Paul Blyton Cardiff Business School

Tourism, Globalisation and Cultural Change Donald V. L. Macleod, 2004-05-14 In what ways does tourism change the host community This book offers original insights into the broad and deep influences of tourism and places them within the historical context of globalisation Intensive fieldwork spanning many years on a Canary Island has produced a rich portrayal of the community examining the changes experienced in areas including their working lives families identities local culture values attitudes political structure and economic base The tourists predominantly independent are also examined and their unique impact analysed The research emphasises the indigenous experience and makes cross cultural comparisons especially with island communities It employs the methods of sociocultural anthropology and includes the multidisciplinary findings of tourism studies in doing so it is innovative and challenges standard understandings of the influence of specific types of tourism on small communities

State and Community in Fisheries Management E. Paul Durrenberger, Thomas King, 2000-05-30 Those who are involved with fishing and fisheries resource management including fishermen their communities production processing distribution and marketing industries and various government and non governmental organizations confront the contradictions arising from the appropriation allocation and distribution of fisheries and marine resources in a variety of ways The authors call into question the assumptions of policy prescriptions to common resource problems by examining the experiences of people and societies confronted with and adapting to these resource appropriation allocation and distribution problems They suggest that tragedies of resource depletion and institutional failure to deal with them are not characteristic of human nature but rather are by products of particular cultural practices institutions and assumptions The detailed empirical ethnographic study of these relationships holds great potential for informing those who are making future policy decisions as well as contributing to the theories of human behavior and cooperation to solve such problems
