Legal Histories of Empire Lyndsay Campbell,Shaunnagh Dorsett,2024-10-11 This collection brings together an international group of scholars in order to provide new insights into the diversity of imperial legalities Across empires legalities were

produced not just or even through the imperial imposition of laws and legal forms but through local processes of negotiation and contestation. Far from the metropolises, local actors found ways to creatively navigate and subvert imperial frameworks and laws and to create space in which to shape new legalities responsive to local circumstance and need. Covering topics as diverse as smuggling in eighteenth-century Jersey, the criminalisation of female market women in World War II era southern Nigeria, and whiteness and race in sexual perversion cases in twentieth-century Malaya, the collection elaborates new legal histories of empire. Drawing from Britain, Ireland, Australia, Canada, the USA, India, Sri Lanka, Africa, and Malaysia, the collection brings together chapters that examine the stories of the peoples of empires and shows how they constituted, experienced, navigated, and subverted the legal complexities of living under empire. This book will be of interest to scholars and researchers in law and history but also to those with relevant interests in post-colonial and cultural studies as well as in criminology and sociology.

People, Place and Power on the Nineteenth-Century Waterfront Graeme J. Milne, 2016-08-24

This book explores the tenuous existence of seafarers divided between their time on the ocean and their residence in sailortown economies geared to exploit them. Particular attention is given both to the contribution of seafarers as a global workforce into the nineteenth century and to their help in creating vibrant multicultural enclaves in port cities worldwide. In addition, research explores the scandalized opinions of outside observers challenging ideas about public behavior and relationships. Sailortown myths persisted far into the twentieth century to the detriment of older waterfront districts and their residents, and readers will find this book invaluable in casting new light on forgotten communities whose lives bridged urban maritime and global histories.

Across Colonial Lines Devyani Gupta, Purba Hossain, 2023-02-09

Across Colonial Lines takes a multi-perspective approach to the study of empire and commodities and encourages readers to look at commodity histories in alternative spatial and temporal contexts. It offers a comparative understanding of commodities in the Venetian, Portuguese, Dutch, French, and British Empires. Highlighting the interwoven character of multiple commodity networks, this book situates commodities like gold, coffee, tea, and indigo to name a few within pre-existing networks of labour, consumption, and knowledge production. It explores the nexus between the local and the global and highlights the role played by individual producers, petty traders, sailors, and even consumers in creating regional circulations within a global political economy. In this volume, commodity networks are not just sites of production and trade but also of political control, social organisation, and consumption choices. They provide the impetus for globalisation from as early as the thirteenth century. Each chapter takes an individual commodity to illustrate the history of commodity transmission within imperial contexts. From early modern Venetian commerce to the trade networks of the Eurasian world, from the trading ambitions of British sailors to Portuguese global imperial ambitions, from the cross-imperial knowledge networks of indigo to the assertion of indigenous agency in Angola, and from the commodification of labour to the experience of tourism in the Caribbean and Indian Ocean World, *Across Colonial Lines* uses commodity networks as a lens to study empire building across varied yet

Essays on Production and Trade in Late Medieval Iberia and the Mediterranean Flávio Miranda, From the tenth century on technical and technological advancements in agriculture resulted in an unprecedented growth of cultivated land in Europe which would contribute to a progressive integration of markets This economic drive occurred during a time of profound political social and religious change In certain parts of Europe citystates emerged to become the standard form of polity breaking away from previous ruling models and thrusting a new era of urban life and economic development This period was also marked by the zenith of Islam throughout the Middle East the Maghreb and the Iberian Peninsula with its people revolutionising agricultural production Through specific case studies this book aims to understand how these pieces of the medieval economy worked and evolved how distinctive they were from one region to another and what consequences local regional and international trade have had in people s everyday lives *Outsourcing African Labor* Jeffrey Gunn, 2021-07-19 By the late eighteenth century the ever increasing British need for local labour in West Africa based on malarial climatic and manpower concerns led to a willingness of the British and Kru West African labourers from Liberia to experiment with free wage labour contracts The Kru s familiarity with European trade on the Kru Coast modern Liberia from at least the sixteenth century played a fundamental role in their decision to expand their wage earning opportunities under contract with the British The establishment of Freetown in 1792 enabled the Kru to engage in systematized work for British merchants ship captains and naval officers Kru workers increased their migration to Freetown establishing what appears to be their first permanent labouring community beyond their homeland on the Kru Coast Their community in Freetown known as Krutown provided a readily available labour pool and ensured their regular employment on board British commercial ships and Royal Navy vessels circumnavigating the Atlantic and beyond In the process the Kru established a network of Krutowns and community settlements in many Atlantic ports including Cape Coast Fernando Po Ascension Island Cape of Good Hope and in the British Caribbean in Demerara and Port of Spain *Outsourcing African Labour in the Nineteenth Century Kru Migratory Workers in Global Ports Estates and Battlefields* structures the fragmented history of Kru workers into a coherent global

framework The migration of Kru workers in the Atlantic Indian and Pacific Oceans in commercial and military contexts represents a movement of free wage labour that transformed the Kru Coast into a homeland that nurtured diasporas and staffed a vast network of workplaces As the Kru formed permanent and transient working communities around the Atlantic and in the British Caribbean they underwent several phases of social political and economic innovation which ultimately overcame a decline in employment in their homeland on the Kru Coast by the end of the nineteenth century by increasing employment in their diaspora There were unique features of the Kru migrant labour force that characterized all phases of its expansion The migration was virtually entirely male and at a time when slavery was widespread and the slave trade was subjected to the abolition campaign of the British Navy Kru workers were free with an expertise in manning seaborne craft and portorage Kru carried letters from previous captains as testimonies of their reliability and work ethic or they worked under the supervision of experienced workers who effectively served as references for employment They worked for contractual periods of between six months and five years for which they were paid wages The Kru thereby stand out as an anomaly in the history of Atlantic trade when compared with the much larger diasporas of enslaved Africans

Embodied History Simon P. Newman, 2013-03-01 Offering a new view into the lives and experiences of plebeian men and women and a provocative exploration of the history of the body itself Embodied History approaches the bodies of the poor in early national Philadelphia as texts to be read and interpreted Through a close examination of accounts of the bodies that appeared in runaway advertisements and in seafaring almshouse prison hospital and burial records Simon P Newman uses physical details to paint an entirely different portrait of the material circumstances of the poor examining the ways they became categorized in the emerging social hierarchy and how they sought to resist such categorization The Philadelphians examined in Embodied History were members of the lower sort a social category that emerged in the early modern period from the belief in a society composed of natural orders and ranks The population of the urban poor grew rapidly after the American Revolution and middling and elite citizens were frightened by these poor bodies from the tattooed professional sailor to the African American runaway with a highly personalized hairstyle and distinctive mannerisms and gestures to the vigorous and lively Irish prostitute who refused to be cowed by the condemnation of others to the hardworking laboring family whose weakened and diseased children played and sang in the alleys In a new republic premised on liberty and equality the rapidly increasing ranks of unruly bodies threatened to overwhelm traditional notions of deference hierarchy and order Affluent Philadelphians responded by employing runaway advertisements the almshouse the prison and to a lesser degree the hospital to incarcerate control and correct poor bodies and transform them into well dressed hardworking deferential members of society Embodied History is a compelling and accessible exploration of how poverty was etched and how power and discipline were enacted upon the bodies of the poor as well as how the poor attempted to transcend such discipline through assertions of bodily agency and liberty
