day and the original pitch documents before delving into the Daleks which almost didn't make the cut but inspired many monsters to follow. After three years, First Doctor William Hartnell left, prompting the BBC to recast their hit rather than end it, giving us the first regeneration and making TV history. We follow the succession of Doctors including Third Doctor Jon Pertwee, exiled to Earth and targeted by the Master, and see how the program reflected the feminism of the 1970s while gaining mainstream popularity with Fourth Doctor Tom Baker until declining support from the BBC eventually led to cancellation. Fan outcry saved the series only for it to suffer a repeat cancellation. Yet many continued to enjoy the Whoniverse in syndication, novels, audio dramas, and Doctor Who Magazine. Paul McGann impressed many as the Eighth Doctor in a 1996 TV movie but it failed to reignite the series. A new age dawned in 2005 with Ninth Doctor Christopher Eccleston and a serious special effects budget. Before Tenth Doctor David Tennant helped rocket the series to international popularity and a new era of spinoffs. With Eleventh Doctor Matt Smith, the show became a bona fide success here in America. Following the program's fiftieth anniversary, Whovians will meet the Twelfth Doctor, ushering in yet another era for the unstoppable Time Lord. Featuring discussions of concepts and characters with insights from producers, writers, and actors from across the years, here is a rich behind-the-camera investigation into the dazzling multiverse of Doctor Who.

Romanko, 2019-10-25 Samantha Stephens in *Bewitched*, Lieutenant Uhura on *Star Trek*, Wonder Woman, Xena Warrior Princess, Buffy the Vampire Slayer, and many more. Television's women of science fiction and fantasy are iconic and unforgettable, yet there hasn't been a reference book devoted to them until now. Covering 400 female characters from 200 series since the 1950s, this encyclopedic work celebrates the essential contributions of women to science fiction and fantasy TV, with characters who run the gamut from superheroes, extraterrestrials, and time travelers to witches, vampires, and mere mortals who deal with the fantastic in their daily lives.

Shocking Celebrity Deaths and Murders Dylan Frost, 2022-01-14 Despite their wealth, fame, and power, celebrities are ultimately just flesh and blood like all of us. Their status or accomplishments are not a magical shield of protection when it comes to death. In fact, in some cases, celebrities are more vulnerable than your average person. As we shall see in this book, a number of celebrities have been murdered by their own fans. A number of celebrities have also been murdered in cases that remain unsolved. Fame can be a fickle and fleeting phenomenon, and Hollywood is awash with former child stars who died in tragic circumstances when the phone stopped ringing and the money ran out. In this book, we will look at a number of celebrity deaths and murders. The cases that follow are eclectic and all darkly fascinating: drug overdoses, murders, suicides, crazed fans, unsolved deaths, autoerotic asphyxiation, car crashes, freak accidents, drownings, disease, and so on.
