**The Search for Cleopatra** Michael Foss, 1999-09-10 The myths surrounding Cleopatra are so vast and so contradictory that it is difficult to separate the real woman from the legend For centuries she has been portrayed as an Asian femme fatale the entrapping seductress of both Julius Caesar and Marc Antony and as a stunningly beautiful and ruthless queen who used her sexual wiles to subvert the course of Roman rule In this biography Michael Foss looks at the myths and then beyond using fresh research to bring to life the historical Cleopatra What emerges in vivid detail is the image of a woman with physical grace and appeal whose mind and political acumen were a match for Rome's mighty rulers Handsomely illustrated and impeccably documented The Search for Cleopatra offers a portrait of one of the most absorbing and intriguing figures of all history

**Race** Denise Eileen McCoskey,2021-03-25 How do different cultures think about race In the modern era racial distinctiveness has been assessed primarily in terms of a person s physical appearance But it was not always so As Denise McCoskey shows the ancient Greeks and Romans did not use skin colour as the basis for categorising ethnic disparity The colour of one s skin lies at the foundation of racial variability today because it was used during the heyday of European exploration and colonialism to construct a hierarchy of civilizations and then justify slavery and other forms of economic exploitation Assumptions about race thus have to take into account factors other than mere physiognomy This is particularly true in relation to the classical world In fifth century Athens racial theory during the Persian Wars produced the categories Greek and Barbarian and set them in brutal opposition to one another a process that could be as intense and destructive as black and white in our own age Ideas about race in antiquity were therefore completely distinct but as closely bound to political and historical contexts as those that came later This provocative book boldly explores the complex matrices of race and the differing interpretations of ancient and modern across epic tragedy and the novel Ranging from Theocritus to Toni Morrison and from Tacitus and Pliny to Bernal s seminal study *Black Athena* this is a powerful and original new assessment
