EDUCATION FOR ALL-ENCOMPASSING DEVELOPMENT

Rosary College of Commerce and Arts owes its humble beginning to the noble initiative of the late Rev. Can. Jose Roberto Vaz, who was then the Parish Priest of Rosary Church, Navelim. The College was established in June 1990 by the Archdiocese of Goa and Daman and is managed by the Diocesan Society of Education.

The College is located in the suburbs of the city of Margao. The College is a Co-ed institution, with almost two-thirds of the students being girls and many students being first-generation learners.

Guided by the vision and mission, the Management, Principals, and Teachers, over the years, have worked tirelessly to mold the lives of young students and have helped them realize their potential, develop a good character, and an all-round personality through multi-pronged thrusts spearheaded by the Institution.

Intellectual Development and Critical Thinking: The teaching-learning process is undertaken with state-of-the-art ICT /infrastructure facilities and modern pedagogies. The College emphasizes the use of student-centric/participatory teaching methodologies to help students develop their critical and creative thinking and develop problem-solving skills. Students are provided a diverse array of opportunities to enhance their knowledge beyond academics through organizing and participating in national and international conferences/seminars/webinars, guest lectures by eminent personalities, value-added certificate/diploma courses, hands-on training and workshops, field projects, and internships.

Psychological and Emotional Wellbeing: At the beginning of the academic year, approximately 23 students are assigned a mentor to help the students adapt to college life and develop a healthy relationship with their teachers. The mentor ensures the successful academic performance of students, builds their confidence, inculcates in them human values, and helps them gain insight into their problems. They also interact with the parents/guardians of every student during the open house. Students have access to two professional counselors on campus. Additionally, through the weekly Value Education sessions, an array of topics promoting the all-around development of the students are addressed.

Discipline and Character: One of the hallmarks of Rosary College, making it the most preferred College in South Goa, is the high standard of discipline that is observed on campus. The College strives to build a community of disciplined individuals through the Discipline Committee and various other policies. During the admissions, the Principal personally interacts with every student and their parent/ guardian and orients them towards the Institution's core values. Throughout the academic year, strong emphasis is placed on students' conduct, punctuality, dress code, and wearing of Id cards. The students' SMS portal updates parents on their ward's monthly

Leading America's Branch Campuses Samuel Schuman, 2009-06-16 Branch campuses are a growing and vital segment of the American higher education community But these campuses and the particular challenges of leading them have received far less attention than other types of institutions *Leading America's Branch Campuses* remedies this by providing focused pragmatic advice by experienced branch campus professionals across a very broad range of leadership issues These include areas such as curriculum system relations fund raising student affairs athletics public relations faculty issues communication internal and external program creation strategic planning campus organization and assessment Chapter contributors include campus presidents chancellors provosts deans program directors and faculty members They represent two year baccalaureate and graduate institutions and span the nation from Florida to Washington State Dr Schuman's style is direct and jargon free and he emphasizes practical issues more than abstract theories

Searching for a Corporate Savior Rakesh Khurana, 2011-09-19 Corporate CEOs are headline news Stock prices rise and fall at word of their hiring and firing Business media debate their merits and defects as if individual leaders determined the health of the economy Yet we know surprisingly little about how CEOs are selected and dismissed or about their true power This is the first book to take us into the often secretive world of the CEO selection process Rakesh Khurana's findings are surprising and disturbing In recent years he shows corporations

have increasingly sought CEOs who are above all else charismatic whose fame and force of personality impress analysts and the business media but whose experience and abilities are not necessarily right for companies specific needs The labor market for CEOs Khurana concludes is far less rational than we might think Khurana s findings are based on a study of the hiring and firing of CEOs at over 850 of America s largest companies and on extensive interviews with CEOs corporate board members and consultants at executive search firms Written with exceptional clarity and verve the book explains the basic mechanics of the selection process and how hiring priorities have changed with the rise of shareholder activism Khurana argues that the market for CEOs which we often assume runs on cool calculation and the impersonal forces of supply and demand is culturally determined and too frequently inefficient Its emphasis on charisma artificially limits the number of candidates considered giving them extraordinary leverage to demand high salaries and power It also raises expectations and increases the chance that a CEO will be fired for failing to meet shareholders hopes The result is corporate instability and too little attention to long term strategy The book is a major contribution to our understanding of corporate culture and the nature of markets and leadership in general

responding and that the American Association of Community and Junior Colleges AACJC the Association of Community College Trustees ACCT the League for Innovation in the Community College and the National Institute for Staff and Organizational Development NISOD were mentioned by 54% of the respondents Part 2 contains a guide to mission programs and activities of the 26 NL SO s serving associate degree colleges AACJC ACCT the League for Innovation in the Community College NISOD and the Phi Theta Kappa Society are described first followed by descriptions of six organizations that serve both two and four year institutions This section concludes with brief descriptions of other NL SO s with defined constituencies an international focus a focus on staff and institutional development or that are based at universities Part 3 describes the benefits of NL SO s provides guidelines for their use in human resource development and offers conclusions and recommendations Appendixes include descriptions of AACJC affiliated councils and university based higher education programs survey instruments and a list of respondents JMC

The Education Index ,1988 [The Overlooked Pillar](#) Alisa V. Moldavanova,2024-08-01 Offering an original perspective on the sustainable development discourse by emphasizing the importance of culture and cultural institutions in facilitating societal sustainability goals The Overlooked Pillar conceptualizes sustainability as an institutional logic that develops in organizations and is enacted by managers of such organizations who make decisions and engage in sustainable thinking on a daily basis leading them to reconcile current organizational realities and the need to adapt to those realities with considerations of the needs of future generations Drawing on more than five years of research conducted on a variety of organizations within the domain of the arts and humanities Alisa V Moldavanova provides a framework for organizational sustainability based on the dynamic interplay of two narratives institutional resilience and institutional distinctiveness and identifies mechanisms and strategies adopted by managers of cultural organizations that maintain and enhance intergenerational sustainability The broader intellectual implication of the insights offered here encompasses the critical notion that genuine long term sustainability the kind that secures the rights of future generations requires sustainable stewardship today
