Search for the Paradise Land Michael Rice, 1985      The Quest Mircea Eliade, 2013-11-22 In The Quest Mircea Eliade stresses the cultural function that a study of the history of religions can play in a secularized society He writes for the intelligent general reader in the hope that what he calls a new humanism will be engendered by a confrontation of modern Western man with unknown or less familiar worlds of meaning Each of these essays contains insights which will be fruitful and challenging for professional students of religion but at the same time they all retain the kind of cultural relevance and clarity of style which makes them accessible to anyone seriously concerned with man and his religious possibilities Joseph M Kitagawa Religious Education      A Research Guide to the Ancient World John M. Weeks, Jason de Medeiros, 2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years A Research Guide to the Ancient World Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports from significant archaeological sites numismatics and paleography and writing systems These extensive author and subject indexes help facilitate ease of use      **Sumer and the Sumerians** Harriet E. narratives of creation destruction and rebirth reach to the very roots of the Biblical and Quranic Genesis *The Power of the Bull* Michael Rice,2014-02-25 Everyone has heard of the Minotaur in the labyrinth on Crete and many know that the Greek gods would adopt the guise of a bull to seduce mortal women But what lies behind these legends The Power of the Bull discusses mankind s enduring obsession with bulls The bull is an almost universal symbol throughout Indo European cultures Bull cults proliferated in the Middle East and in many parts of North Africa and one cult Mithraism was the greatest rival to Christianity in the Roman Empire The Cults are divergent yet have certain core elements in common Michael Rice argues that the ancient bulls were the supreme sacrificial animal An examination of evidence from earliest prehistory onwards reveals the bull to be a symbol of political authority sexual potency economic wealth and vast subterranean powers In some areas representations of the bull have varied little from earliest times in others it has changed vastly over centuries This volume provides a well illustrated and accessible analysis of the exceptionally rich artistic inheritance associated with the bull *Miscellanea Hasaitica* Daniel T. Potts,1989 An essay on the finds from sites in the al Hasa region of Saudi Arabia The presentation is organised chronologically from the 3rd millennium to the Sasanian period *In Search of Myths & Heroes* Michael Wood,2005 In this companion to a forthcoming PBS series Wood journeys to some of the remotest places on earth in search of four of mankind s most powerful myths Shangri La Jason and the Golden Fleece the Queen of Sheba and King Arthur *Handbook to Life in Ancient Mesopotamia* Stephen Bertman,2003 Explores the lifestyles of ancient Mesopotamia including the civilization rulers and leaders economics and more **False Inheritance** Michael Rice,2012-11-12 First Published in 1994 False Inheritance discusses the policies and actions of the successive administrations which have governed Israel since the formation of the state in 1948 Largely historical in its approach it has long been the author s conviction that the confrontation between the Palestinians the Arab states and Israel cannot be understood unless the historical parameters are firmly established Equally it is the purpose of this volume to demonstrate what seem to me to be the manifest consequences of the deceptions manipulations and cruelties which have been practised on the Palestine people in the names of Zionism and the Israeli state over the past half century and more *Bahrain* Fred H. Lawson,2019-03-05 First published in 1989 Bahrain is at the same time unique among the Arab oil producing Gulf states and indicative of future developments in these emirates Its uniqueness lies in the social political and economic structures of the country The indigenous population is characterized by a peculiar set of overlapping cleavages the country s industrial work force has a history of militant action and a degree of political consciousness unmatched in neighbouring states and the islands economy has achieved a level of diversification into non petroleum related activities that is the envy of planners in the surrounding area This study provides an overview of current trends on the islands and of the social and historical context from which they have emerged It is intended as an introduction to Bahraini affairs for the general reader and thus makes use of the existing literature wherever possible **Archetypes and Motifs in Folklore and Literature: A Handbook** Jane Garry,Hasan El-Shamy,2017-07-05

This is an authoritative presentation and discussion of the most basic thematic elements universally found in folklore and literature. The reference provides a detailed analysis of the most common archetypes or motifs found in the folklore of selected communities around the world. Each entry is written by a noted authority in the field and includes accompanying reference citations. Entries are keyed to the Motif Index of Folk Literature by Stith Thompson and grouped according to that Index's scheme. The reference also includes an introductory essay on the concepts of archetypes and motifs and the scholarship associated with them. This is the only book in English on motifs and themes that is completely folklore oriented, deals with motif numbers, and is tied to the Thompson Motif Index. It includes in-depth examination of such motifs as Bewitching Chance and Fate, Choice of Roads, Death or Departure of the Gods, the Double Ghosts and Other Revenants, the Hero Cycle, Journey to the Otherworld, Magic, Invulnerability, Soothsayer, Transformation, Tricksters, Civilizations.

Felipe Fernandez-Armesto, 2001-09-14. In Civilizations, Felipe Fernandez-Armesto once again proves himself a brilliantly original historian capable of large-minded and comprehensive works; here he redefines the subject that has fascinated historians from Thucydides to Gibbon to Spengler to Fernand Braudel: the nature of civilization. To Fernandez-Armesto, a civilization is civilized in direct proportion to its distance, its difference from the unmodified natural environment by its taming and warping of climate, geography, and ecology. The same impersonal forces that put an ocean between Africa and India, a river delta in Mesopotamia, or a 2,000-mile-long mountain range in South America have created the mold from which humanity has fashioned its own wildly differing cultures. In a grand tradition that is certain to evoke comparisons to the great historical taxonomies, each chapter of Civilizations connects the world of the ecologist and geographer to a panorama of cultural history. In Civilizations, the medieval poem *Sir Gawain and the Green Knight* is not merely a Christian allegory but a testament to the thousand-year-long deforestation of the trees that once covered 90 percent of the European mainland. The Indian Ocean has served as the world's greatest trading highway for millennia, not merely because of cultural imperatives but because the regular monsoon winds blow one way in the summer and the other in the winter. In the words of the author, "Unlike previous attempts to write the comparative history of civilizations, it is arranged by environment rather than period, by period or society by society." Thus, seventeen distinct habitats serve as jumping-off points for a series of brilliant set-piece comparisons: thus, tundra civilizations from Ice Age Europe are linked with the Inuit of the Pacific Northwest, and the Mississippi mound builders and the deforesters of eleventh-century Europe are both understood as civilizations built on woodlands. Here, of course, are the familiar riverine civilizations of Mesopotamia and China, of the Indus and the Nile, but also highland civilizations from the Inca to New Guinea, island cultures from Minoan Crete to Polynesia to Renaissance Venice, maritime civilizations of the Indian Ocean and South China Sea, even the Bushmen of Southern Africa are seen through a lens provided by the desert civilizations of Chaco Canyon. More here are fascinating stories brilliantly told of the voyages of Chinese admiral Chen Ho and Portuguese commodore Vasco da Gama, of the Great Khan and the Great Zimbabwe. Here are

Hesiod's tract on maritime trade in the early Aegean and the most up to date genetics of seed crops Erudite wide ranging a work of dazzling scholarship written with extraordinary flair Civilizations is a remarkable achievement a tour de force by a brilliant scholar A Doctor in Saudi Arabia G. E. Moloney, Beyond Price R. A. Donkin, 1998 Man has been intrigued by the origin of pearls sensitive to their beauty and convinced of their medicinal value for at least 5 cent A mixture of folklore and observation preceded the earliest scientific inquiries Fishing and trade commenced in S Asia between India and Sri Lanka and around the Persian Gulf In W and Central Europe Inner Asia and China and N Amer Freshwater pearls were probably known and treasured before those of marine origin A refined nomenclature points to a long familiarity with etymologically related words for pearl Pearls were prominent among the luxury products of world trade and were high among the objectives of expeditions to the eastern and western Tropics Illustrations **Myths of Enki, The Crafty God**

Samuel Noah Kramer, John Maier, 2020-08-18 This ambitious and well researched study brings together for the first time translations of the ancient literature concerning the Sumerian god Enki one of four gods and goddesses who comprised the highest level of the Sumerian pantheon The very existence of these writings which date from the Third Millennium B C was unknown until about 100 years ago when their cuneiform script was deciphered Since then it has become apparent that Sumerian literature had a profound and enduring influence on both Biblical and classical Greek literature and so on the literature of the western world as a whole Kramer one of the world's leading sumerologists has prepared these translations from among the scores of works he has published over the last fifty years John Maier provides a full interpretive framework that places the translations in their broader comparative cultural context This rare collection will be of interest to students and scholars in a wide range of disciplines from Near Eastern and Biblical Studies to Mythology and Comparative Literature

Soul-Searching Luke Jeffrey Janssen, 2019-08-06 There are well over one hundred different views of the nature of human existence though the Bible may rule out many of these there still remains a large number that are all compatible with Scripture The Bible never explicitly defines the nature of the soul or spirit which is actually quite puzzling or even ironic given that one major aim of Scripture is spiritual development and ultimate questions about the soul In fact Judeo Christian thinking on those questions has been evolving over the course of four thousand years This book documents that evolution as a man named Abram left Babylon four thousand years ago journeying through the lands and the philosophies of civilizations preceding him by many more thousands of years while he and his descendants both physical and spiritual unpacked their understanding of our inner being the human soul and the afterlife That journey is followed to the present day and examines how a critically thinking Christian can embrace a theology of the human soul that is fully compatible with modern scientific findings including explanations for consciousness mind and soul **To the Ends of the Earth** Raimund J. Schulz, Raimund Schulz, 2024 To the Ends of the Earth is a major history of ancient exploration one that fully incorporates evidence from Greco Roman sources and those in China Central Asia India Egypt and Mesopotamia It presents a compelling portrait of the

adventurers who expanded knowledge of the world and brought far flung civilizations closer than ever before      **Searching for the Self** Adrian T.
