new world order Nelson Pallmeyer argues that the Gulf War was used to serve a very different purpose United States elites in the national security establishment instead sought to make the world safe for future wars to derail the post Cold War peace dividend and to foreclose the possibility of a world order based on international justice and commitment to human rights From the perspective of the Third World where ever greater debt leads to ever greater death Nelson Pallmeyer shows how the new world order is only a new way of managing the old world order the misery of the poor will continue to sustain the appetites of the rich Parallel to the increased pauperization of the Third World the 1980s saw the massive transfer of wealth within the United States from the poor to the very wealthy The consequences the decay of our cities and dramatic increases in racial violence drug abuse and crime At the same time the impending ecological crisis has escalated rapidly Finally Nelson Pallmeyer turns his attention to the role of Christians in blessing the new world order Appalled by the abuse of religious rhetoric in justification of the Gulf War he examines how Jesus confronted the world order of his day and calls for a radical discipleship that worships the God of life rather than the idols of power and wealth
