J. Hillson, 1990-10-01 Automobiles interstate highways shorter work weeks longer vacations and higher salaries have all combined to bring the seashore closer to man Where once a visit to the shore was only a dream for many or a once in a lifetime trip for others the varied oceanic life that has held man's interest for centuries is now just beyond the garage doors of the American family The same curiosity that stirs the beachcombing instincts of coastal dwellers is possessed by inlanders and now a midwesterner too can do something about that curiosity A vacation at the shore is much within his grasp as a visit to the nearest state park Each year more and more inland residents are taking coastal vacations As a result beachcombing is more popular than ever with the same old questions being repeated over and over What's this Where do you suppose they came from Is that a plant or an animal Unfortunately the answers in too many instances are not readily available This book is written for the layman It is color coded and fully illustrated The casual visitor of the Atlantic Coast of the United States now has an easy to use illustrated guide for the quick identification of the marine plants along the coast      *Cape Wind Energy Project*, 2009      **The Seaweed Book** Rose Treat, 1995 Describes different types of seaweeds how to collect and preserve them and several ways to use them      **The Outer Lands: A Natural History Guide to Cape Cod, Martha's Vineyard, Nantucket, Block Island, and Long Island** Dorothy Sterling, 1992-06-17 Did you know that horseshoe crabs have been around for 200 million years That mussels spin long anchor lines and climb steep slopes with them Do you know what a Beetlebung tree is This is all part of Dorothy Sterling
