**Anne N. Dos Santos**

## **Secessionist Movements In Comparative Perspective:**

Secessionist Movements in Comparative Perspective International Centre for Ethnic Studies, 1990 Committed against an existing state secession often centred on a minority ethnic identity can result in a new national unit or a self governing area within the larger state This book examines the variety and growing incidence of secessionist movements around the world

*Secessionist Movements in Comparative Perspective* Ralph R. Premdas, 1990 *Secessionist Movements in Comparative Perspective* Ralph R. Premdas, De A. Samarasinghe, 1993 Committed against an existing state secession often centred on a minority ethnic identity can result in a new national unit or a self governing area within the larger state This book examines the variety and growing incidence of secessionist movements around the world **Creating New States** Aleksandar

Pavkovic, Peter Radan, 2016-05-13 Secession is the creation of a new independent state out of an existing state This key volume examines the political social and legal processes of the practice of secession Following an analysis of secessionist movements and their role in attempts at secession eight case studies are explored to illustrate peaceful violent sequential and recursive secessions This is followed by a look at the theoretical approaches and a discussion that focuses on the economic causes Normative theories of secession are discussed as well as the status of secession in legal theory and practice The book systematizes our present knowledge of secessions in an accessible way to readers not familiar with the phenomenon and its consequences It is ideal as a supplementary text to courses on contemporary political and social movements applied ethics and political philosophy international relations and international law state sovereignty and state formation Secessionist Movements and Ethnic Conflict Beata Huszka, 2013-10-15 This book analyses how national

independence movements rhetoric can inflame or dampen ethnic violence It examines the extent to the power of words matters when a region tries to break away to become a nation state Using discourse analysis this book examines how the process of secession affects internal ethnic relations and analyses how politicians interpret events and present arguments with the intention to mobilize their constituencies for independence With in depth case studies on the Slovenian the Croatian and the Montenegrin independence movements and by looking at cases from Indonesia and Spain the author investigates how rhetoric affect internal ethnic relations during secession and how events and debate shape each other The author demonstrates how in some cases of self determination elites push for a higher level of sovereignty in the name of economic advancement whereas in other cases self determination movements refer to ethnic identity and human rights issues Explaining how and why certain discourses dominate some independence movements and not others *Secessionist Movements and Ethnic Conflict* will be of interest to students and scholars of politics history nationalism ethnic conflict and discourse analysis **Federalism, Secession, and the American State** Lawrence M. Anderson, 2013-05-20 One important tradition

in political science conceives of the Civil War in the United States serving as the functional equivalent of the English and French Revolutions bringing with it the victory of liberal democratic industrialism over aristocratic agriculturalism From this

perspective the Civil War is notable for its impact on the American state Surprisingly however little attention has been paid to the distinguishing features of this historic rupture in American politics Through primary source research and the re analysis of the rich historical literature about the antebellum era and the causes of the Civil War Lawrence A Anderson explores the relationship between federalism and the movement for secession in the United States during the pre civil war era Focusing primarily on South Carolina Anderson carefully revisits theory on institutional analysis of political development to expose what caused secession in the United States

**The Ashgate Research Companion to Secession** Peter Radan, 2016-03-23 Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory Secession is usually an outcome of the political mobilization of a population on the territory to be detached and as a political phenomenon is a subject of study in the social sciences Its impact on inter state relations is a subject of study in international relations But secession is also subject to regulation both in the constitutional law of sovereign states and in international law Following a spate of secessions in the early 1990s legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions Moreover since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers This research companion has the following three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective In their accounts of past secessions and current secessionist movements the contributors to this volume focus on the following four components the nature and source of secessionist grievances the ideologies and techniques of secessionist mobilization the responses of the host state or majority parties in the host state and the international response to attempts at secession This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession

**The Economics of Secession** NA NA, 2016-04-30

**Military Intervention and Secession in South Asia** Anne N. Dos Santos, 2007-10-30 From Chechnya in Russia to Kashmir in India to the Basque region in Spain secessionist movements remain a serious threat to international security Despite the importance of this issue the causes that bring about external military intervention in a secessionist war have not until now been adequately addressed In this book Dos Santos identifies the conditions that make international military intervention in a secessionist war more or less likely South Asia being fraught with secessionist movements Bangladesh Sri Lanka Kashmir and Punjab provides an ideal laboratory for the examination of this compelling issue Dos Santos argues that a shift in the balance of power between a secessionist group and its central government will lead to a preventive war on the secessionists by the central government In turn a preventive war of this nature may lead to an alliance between the secessionist group and an external power The stronger the alliance the greater the chances of an

international military intervention Understanding the conditions under which secessionist movements expand become secessionist wars and invite international military intervention on behalf of the secessionists has strong policy implications It can go a long way toward guiding policymakers who may want to mitigate or avoid these conditions in their states Dos Santos views both states and secessionist groups as primary actors and she examines both the distribution of power among states and the balance of power between central government and groups within states      **Secessionism** Jason Sorens,2012 An examination of the reasons independence movements remain peaceful or become violent      **Models of European Civil Society** Adam Jarosz,Katarzyna Kącka,2018-11-12 The following volume is devoted to the issues of European models of civil societies The aim of the authors is not to exhaust the whole topic but to bring forward some studies related to the civil society both in the historical but also present perspective Civil society is an important factor in a well functioning state and crucial for developing a real active and conscious community which is able to control the state and its servants Even more importantly when the state fails to react to negative developments or leaders misuse their power to enforce it in fulfilling its duties and in the most radical or dramatic cases to replace it or change the governors Democratic order gives the society enough tools to do this and the internet social media and other new means of communication improve the level of self organisation and shorten the time for potential reactions      **Lessons From the Political Economy of Small Islands** NA NA,2016-04-30 Small islands often enjoy a distinct juridical personality Many whether fully sovereign or not successfully deploy this gift of jurisdiction to economic advantage offsetting the potentially adverse effects of smallness isolation and peripherality These legal powers reflected in supportive policy and culture are themselves key economic resources in a development strategy Globalization can be richly asymmetrical offering lucrative opportunities for differentiation and nice strategies for small island jurisdictions This book documents such lessons from a most unlikely group of North Atlantic Islands      International Society and the De Facto State Scott Pegg,2019-12-16 Originally published in 1998 International Society and the De Facto Society explores the phenomenon of de facto statehood in contemporary international relations The de facto state is almost the inverse of what Robert Jackson has termed the quasi state The quasi state has an ambassador a flag and a seat at the United Nations but it does not function positively as a viable governing entity Its limitations though do not detract from sovereign legitimacy The de facto state on the other hand lacks legitimacy yet effectively controls a given territorial area and provides governmental services to a specific population The book engages in a birth life and death or evolution examination of the de facto state      **The Territorial Management of Ethnic Conflict** John Coakley,2004-08-02 The object of this book is to look at the manner in which states attempt to cope with ethnic conflict through territorial approaches This revised edition has new chapters covering Northern Ireland South Africa and Yugoslavia      **The Rising Tide of Cultural Pluralism** Crawford Young,1993 Two decades after the publication of his prize winning book The Politics of Cultural Pluralism Crawford Young and a distinguished panel of contributors assess the changing impact of cultural

pluralism on political processes around the world specifically in the former Soviet Union China United States India Ethiopia and Guatemala The result is an arresting look at the dissolution of the nation state system as we have known it Crawford Young opens with an overview of the dramatic rise in the political significance of cultural pluralism and of scholars changing understanding of what drives and shapes ethnic identification Mark Beissinger brilliantly explains the demise of the last great empire state the USSR while Edward Friedman notes growing challenges to the apparent cultural homogeneity of China Nader Entessar suggests intriguing contrasts in Azeri identity politics in Iran and the ex USSR Ronald Schmidt and Noel Kent explore the language and racial dimensions of the rising multicultural currents in the United States Douglas Spitz shows the extent of the decline of the old secular vision of India of the independence generation Alan LeBaron traces the recent emergence of an assertive Mayan identity among a submerged populace in Guatemala long thought to be destined for Ladinoization A case study of the diversity and uncertain future of Ethiopia dramatically emerges from four contrasting contributions Tekle Woldemikael looks at the potential cultural tensions in Eritrea Solomon Gashaw offers a central Ethiopian nationalist perspective Herbert Lewis reflects the perspectives of a restless and disaffected periphery and James Quirin provides an arresting explanation of the construction of identity amongst the Beta Israel Ethiopian Jews Virginia Sapiro steps back from specific regions offering an original analysis of the interaction between cultural pluralism and gender

**Just Peace** M. Fixdal, 2012-08-20 Drawing on many of the wars and peaces of recent decades this book offers a persuasive new perspective on postwar justice In her analysis wars of succession wars for territory and the political institutions that precede and follow wars Fixdal explores the outer limits of the idea that it is worth paying almost any price for peace The Dynamic of Secession Viva Ona Bartkus, 1999-06-28 This book first published in 1999 offers an explanation for the occurrence of secessionist conflict based on a comparative study of numerous historical examples **Separatism** Metta Spencer, 1998 As we approach the millennium the world is experiencing civil wars exclusively half of which are being waged over the issue of secession This book offers a comparative view of nine historic separatist movements some of which have achieved the break up of an empire or a state and others that to date have not Separatist struggles occur in waves that tend to coincide with upsurges of democratization Several chapters explore this connection making comparisons with economic and geopolitical causes The authors analyze the long term effects of secession after partition ethnic strife typically continues for generations minorities decline in status and democracy and human rights are derogated The break up of one state often leads to further fragmentation as in the disintegration of the Ottoman Austro Hungarian and Russian empires where years later separatism unfolded in the successor states of Yugoslavia Czechoslovakia Palestine Chechnya and Tatarstan The authors attribute much of today's separatism to the demagoguery of politicians losing legitimacy in post communist states for whom nationalism is a convenient populist ideology A broader explanation however points to the failure of modern democracies to develop constitutional mechanisms reconciling the expression of particularistic identities with the

universalism of citizenship The book reviews proposals toward that end *Palgrave Advances in Development Studies* J. Haynes, 2005-04-21 *Palgrave Advances in Development Studies* aims to provide readers with an understanding of the disparate theories concerning development their assumptions and the intellectual forces underpinning them In thirteen specially commissioned essays leading contributors from the field of Development Studies present the relevant material to analyze and evaluate current debates about development together with the intellectual tools to judge contemporary arguments concerning development across the world and the ability to relate theories of development to contemporary policy issues

**Secession and Statehood** Ana Gemma López Martín, José Antonio Perea Unceta, 2021-09-08 This book analyses the complex phenomenon of secession as a form of creation of States from the perspective of international law As opposed to other approaches based on the analysis of the political foundation of the secessionist processes or on the construction of a legal basis that justifies the existing practice the aim is to provide an explanation of secession as a practice covered neither by the legal regime of the United Nations for the self determination of colonial peoples nor by the regulations and guidelines relating to the human rights of minorities and indigenous populations both in the UN and in regional organisations Organization of American States Council of Europe or African Union It is stated that secession is a practice that does not comply with international peremptory norms such as those that prohibit going against the territorial integrity of the States the use of force or intervention in the internal affairs of other States Even being aware of the inevitable consequences of the effective creation of States and other de facto entities on trade relations communications and the rights of individuals among other matters secession is a practice that should lead to an obligation of nonrecognition by States and by international organisations As an example of this practice the secessionist process in Catalonia since 2014 is explained and studied

If you ally infatuation such a referred **Secessionist Movements In Comparative Perspective** book that will have the funds for you worth, get the no question best seller from us currently from several preferred authors. If you want to comical books, lots of novels, tale, jokes, and more fictions collections are then launched, from best seller to one of the most current released.

### **Secessionist Movements In Comparative Perspective Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Secessionist Movements In Comparative Perspective PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals

fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Secessionist Movements In Comparative Perspective PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Secessionist Movements In Comparative Perspective free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### FAQs About Secessionist Movements In Comparative Perspective Books

1. Where can I buy Secessionist Movements In Comparative Perspective books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
