*Community Development Arenas In Singapore* S Vasoo, Bilveer Singh, Xian Jie Chan, 2019-09-26 In the last two decades or so community development efforts in Singapore have strongly focused on task centred community activities namely short term projects revolving around socio educational and recreational activities Such an emphasis is further reinforced by the outsourcing of community services to the private sector which is contracted to deliver services or activities Although the consequences are not seen immediately they will in the longer term reinforce learned helplessness of the participants or beneficiaries who are usually relegated to passive or dependent roles Through the insights of contributors who are practitioners in the community development field this book argues that more resources and initiatives must be accorded to community organisations so as to redirect to a community or resident centric approach towards community work intervention In short more reaching out to people or community groups should be undertaken Covering a broad range of arenas including health housing ageing community integration and bonding among others this book will open up a wider horizon for community development efforts and provide a reservoir of ideas and strategies to build a stronger and resilient community for more effective community problem solving

This book presents the findings from the Enhancing Positive Outcomes in Youth and the Community EPYC study. EPYC is a groundbreaking nationwide 10-year longitudinal study on young offenders in Singapore. It focuses on understanding crime prevention, rehabilitation, and reintegration of these youths. Data were collected through yearly interviews, external assessments, and linkage of administrative records to provide a comprehensive picture of participants. In addition, a non-offender youth sample was included as a normative comparison sample. The research and findings of this book focus on Prevalence rates and comorbidity of Emotional and Behavioural Problems (EBPs) in young offenders, Drug use, and Re-offending Risk and Protective Factors for EBPs. As this study represents one of the first in Asia and one of few across the globe with such in-depth investigations, it aims to advance the understanding of youth offending and associated emotional and behavioural issues. This book is best suited for criminal justice and mental health scholars, practitioners, and policy makers who are working with Asian populations or interested in cross-cultural comparisons.

**Restorative Justice in Educational Settings & Policies** Dennis S.W. Wong, Mark Tsagas, Sara Natividad, Giorgia Varvello, Marianne Kiff, Beata Czarnecka-Dzialuk, Ahn Eunhyung, Debarati Halder, Hannah Kim, Jae Young Lee, Miranda Forsyth, Dora Kuir-Ayius, Michelle Rooney, Mary Aisi, Katherine Kwan Yui, Wendy C.Y. Lui, Rick Sarre, 2019-04-01. Edited by two leading restorative justice scholars from the West and East, this unique e-book bridges a gap in the literature by bringing together new evidence on the application of restorative practices in educational settings. The book has two aims. First, it builds a bridge between the restorative justice world in the East with that of the West. The volume demonstrates how similar the theoretical and practical experiences are in the two sides of the world. It presents us with evidence of what works in policy, research, and practice and allows us to make comparisons for the future. Secondly, the book challenges restorative justice, which is often seen through the narrow lenses of the criminal justice system.

**BOOK REVIEW** It is arrogant indeed to think that schools in the west have all the answers and we are somehow more advanced in our thinking and practice. The scope of the chapters in this book travels many of the issues that face schools and systems everywhere. This book is highly

*Social Policy in Post-Industrial Singapore* Kwen Fee Lian, Chee-Kiong Tong, 2008-03-31 Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge

intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counter factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind
