perspective that shows just how far from new the New Age actually is **An International Psychology of Men** Chris Blazina, David S. Shen-Miller, 2011-01-19 This text is the first to provide a contextual understanding of the clinical issues that affect men and masculinity across a wide range of cultural and national settings It demonstrates that gender can no longer be viewed as an isolated characteristic in an era of increased globalization mental health professionals need to take ethnic and cultural issues into account to provide adequate care for male patients Numerous international perspectives are offered by the contributing authors authorities from countries such as Australia Argentina Denmark Canada India Ireland and South Africa on theoretical and clinical innovations for working with men Their chapters also offer insight into the socio cultural contexts for counseling men in and from their respective countries by exploring the ways in which being a man is socially defined what unique challenges men face and how these challenges can be negotiated within their specific cultural settings Topics addressed will include boyhood notions of manhood relationship concerns and power fatherhood and men s body image across the life span This text will ultimately enable mental health practitioners to have a better understanding of how to work more effectively with male clients **The Mythic Imagination** Stephen Larsen, 1996-03-01 Mythology is the universal tongue of human imagination As a tool for self discovery mythology is also a way of gaining access to the secrets of the psyche The Mythic Imagination is a quest for the ancient source of vision and meaning in the world of dream myth and archetype In the footsteps of Joseph Campbell Stephen Larsen guides the reader on a journey through the mythic landscape of the psyche His insight is that all of us at one time or another are engaged in creating personal mythologies that reflect the larger myths of the culture and our own deepest desires and aspirations This book is a guide for bringing the deeper mythic structures of experience into awareness for learning to recognize the archetypal content embedded in our dreams and daydreams feelings beliefs relationships conscious creations and behavior Student and authorized biographer of Joseph Campbell Larsen teaches us how to bring myth into our lives Reissue of the Bantam bestseller *War of Titans* Jackie DiSalvo, 2010-11-23 In a dramatically original analysis Jackie DiSalvo explores Blake s reworking of Genesis and Paradise Lost in his prophetic poem The Four Zoas creating a compelling new reading of both Milton and Blake With informed argument and provocative insights DiSalvo shows how Blake s view of history prefigures the revaluation of our own myths of origin prompted by new political psychological and feminist perspectives **Revolution** Saïd Amir Arjomand, 2019-05-02 A revolution is a discontinuity one political order replaces another typically through whatever violent means are available Modern theories of revolutions tend neatly to bracket the French Revolution of 1789 with the fall of the Soviet Union two hundred years later but contemporary global uprisings with their truly multivalent causes and consequences can overwhelm our ability to make sense of them In this authoritative new book Sa d Amir Arjomand reaches back to antiquity to propose a unified theory of revolution Revolution illuminates the stories of premodern rebellions from the ancient world as well as medieval European revolts and more recent events up to the Arab Spring of 2011 Arjomand categorizes revolutions in two

groups ones that expand the existing body politic and power structure and ones that aim to erode but paradoxically augment their authority The revolutions of the past he tells us can shed light on the causes of those of the present and future as long as centralized states remain powerful there will be room for greater and perhaps forceful integration of the politically disenfranchised
