Never Look a Polar Bear in the Eye Zac Unger, 2013-01-29 In this humorous mix of travelogue and memoir a writer temporarily moves his California family north to Canada's Polar Bear Capital of the World Welcome to Churchill Manitoba Year round human population 943 Yet despite the isolation and the searing cold here at the arctic's edge visitors from around the globe flock to the town every fall driven by a single purpose to see polar bears in the wild Churchill is The Polar Bear Capital of the World And for one unforgettable bear season Zac Unger his wife and his three children moved from Oakland California to make it their temporary home But they soon discovered that it's really the polar bears who are at home in Churchill roaming past the

coffee shop on the main drag peering into garbage cans scratching their backs against fence posts and front doorways Where kids in other towns receive admonitions about talking to strangers Churchill schoolchildren get Let's All Be Bear Aware booklets to bring home Lesson number 8 Never explore bad smelling areas Zac Unger takes readers on a spirited and often wildly funny journey to a place as unique as it is remote a place where natives tourists scientists conservationists and the most ferocious predators on the planet converge In the process he becomes embroiled in the controversy surrounding polar bear science and finds out that some of what we've been led to believe about the bears imminent extinction may not be quite the case But mostly what he learns is about human behavior in extreme situations and also why you should never even think of looking a polar bear in the eye

On Thin Ice Richard Ellis, 2010-12-07 From a graceful writer who's written some of the best natural history books of the past decade The New York Times Book Review comes an urgent stirring celebration and a rallying cry on behalf of one of earth's greatest natural treasures Polar bears fierce and majestic have captivated us for centuries Feared by explorers revered by the Inuit and beloved by zoo goers everywhere they are a symbol for the harsh beauty and muscular grace of the Arctic But as global warming threatens the ice caps integrity the polar bear has also come to symbolize the environmental peril that has arisen due to harmful human practices In the past twenty years alone the world population of polar bears has shrunk by half Today they number just 22 000
