Holy Intoxication to Drunken Dissipation
Barbara Y. Butler, 2006-05 On the eve of the Spanish conquest of the Inca Empire peoples throughout the Andes brewed beer from corn and other grains believing that this alcoholic beverage called asua was a gift from the gods a drink possessing the power to mediate between the human and divine Consuming asua to intoxication was a sacred tradition that humans and spirits shared creating reciprocal joy and ties of mutual obligation When Butler began research in Huaycopungo Ecuador in 1977 ceremonial drinking was causing hardship for these Quichua speaking people Then in 1987 a devastating earthquake was interpreted as a message from God to end the ritual obligation to get drunk Holy Intoxication to Drunken Dissipation examines how the defense of drinking and getting drunk ended abruptly as the people of Otavalo re evaluated their traditional religious life and their relationship with the wider Ecuadorian society and defended a renewed traditional indigenous culture with increasing pride This account presents both the local people s views of their struggles and a more general analysis of the factors involved and concludes with thoughts about how their culture will adapt in the future

Costume and History in Highland Ecuador Ann Pollard Rowe, Lynn A. Meisch, 2012-10-03 The traditional costumes worn by people in the Andes women s woolen skirts men s ponchos woven belts and white felt hats instantly identify them as natives of the region and serve as revealing markers of ethnicity social class gender age and so on Because costume expresses so much scholars study it to learn how the indigenous people of the Andes have identified themselves over time as well as how others have identified and influenced them *Costume and History in Highland Ecuador* assembles for the first time for any Andean country the evidence for indigenous costume from the entire chronological range of prehistory and history The contributors glean a remarkable amount of information from pre Hispanic ceramics and textile tools archaeological textiles from the Inca empire in Peru written accounts from the colonial period nineteenth century European style pictorial representations and twentieth century textiles in museum collections Their findings reveal that several garments introduced by the Incas including men s tunics and women s wrapped dresses shawls and belts had a remarkable longevity They also demonstrate that the hybrid poncho from Chile and the rebozo from Mexico diffused in South America during the colonial period and that the development of the rebozo in particular was more interesting and complex than has previously been suggested The adoption of Spanish garments such as the pollera skirt and man s shirt were also less straightforward and of more recent vintage than might be expected

Resources, Power, and Interregional Interaction Edward M. Schortman, Patricia A. Urban, 2013-03-09 Archaeological research on interregional interaction processes has recently reasserted itself after a long hiatus following the eclipse of diffusion studies This rebirth was marked not only by a sudden increase in publications that were focused on interaction questions but also by a diversity of perspectives on past contacts To perdurable interests in warfare were added trade studies by the late 1960s These viewpoints in turn were rapidly joined in the late 1970s by a wide range of intellectual schemes stimulated by developments in French Marxism referred to in various ways termed political ideology here and sociology Immanuel Wallerstein's world systems model Researchers ascribing to the aforementioned intellectual frameworks were united in their dissatisfaction with attempts to explain sociopolitical change that treated individual cultures or societies as isolated entities Only by reconstructing the complex intersocietal networks in which polities were integrated the natures of these ties who mediated the connections and the political economic and ideological significance of the goods and ideas that moved along them could adequate explanations of sociopolitical shifts be formulated Archaeologists seemed to be re-discovering in the late twentieth century the importance of interregional contacts in processes of sociopolitical change The diversity of perspectives that resulted seemed to be symptomatic of both an uncertainty of how best to approach this topic and the importance archaeologists attributed to it

Loanwords in the World's Languages Martin Haspelmath, Uri Tadmor, 2009-12-22 This

book is the first work to address the question of what kinds of words get borrowed in a systematic and comparative perspective. It studies lexical borrowing behavior on the basis of a world wide sample of 40 languages both major languages and minor languages and both languages with heavy borrowing and languages with little lexical influence from other languages. The book is the result of a five year project bringing together a unique group of specialists of many different languages and areas. The introductory chapters provide a general up to date introduction to language contact at the word level as well as a presentation of the project's methodology. All the chapters are based on samples of 1000-2000 words elicited by a uniform meaning list of 1460 meanings. The combined database comprising over 70 000 words is published online at the same time as the book is published. For each word information about loanword status is given in the database and the 40 case studies in the book describe the social and historical contact situations in detail. The final chapter draws general conclusions about what kinds of words tend to get borrowed, what kinds of word meanings are particularly resistant to borrowing and what kinds of social contact situations lead to what kinds of borrowing situations. **Andean**

Entrepreneurs Lynn A. Meisch, 2013-12-18 Native to a high valley in the Andes of Ecuador the Otavalos are an indigenous people whose handcrafted textiles and traditional music are now sold in countries around the globe. Known as weavers and merchants since pre-Inca times Otavalos today live and work in over thirty countries on six continents while hosting more than 145 000 tourists annually at their Saturday market. In this ethnography of the globalization process Lynn A. Meisch looks at how participation in the global economy has affected Otavalo identity and culture since the 1970s. Drawing on nearly thirty years of fieldwork she covers many areas of Otavalo life including the development of weaving and music as business enterprises, the increase in tourism to Otavalo, the diaspora of Otavalo merchants and musicians around the world, changing social relations at home, the growth of indigenous political power and current debates within the Otavalo community over preserving cultural identity in the face of globalization and transnational migration. Refuting the belief that contact with the wider world inevitably destroys indigenous societies Meisch demonstrates that Otavalos are preserving many features of their culture while adopting and adapting modern technologies and practices they find useful. **Spanish in Four**

Continents Carmen Silva-Corvalán, 1997-04-01 This collection is the first to examine the effects of bilingualism and multilingualism on the development of dialectal varieties of Spanish in Africa, America, Asia and Europe. Nineteen essays investigate a variety of complex situations of contact between Spanish and typologically different languages including Basque, Bantu languages, English and Quechua. The overall picture that evolves clearly indicates that although influence from the contact languages may lead to different dialects, the core grammar of Spanish remains intact. Silva-Corvalán's volume makes an important contribution both to sociolinguistics in general and to Spanish linguistics in particular. The contributors address theoretical and empirical issues that advance our knowledge of what is a possible linguistic change, how languages change and how changes spread in society in situations of intensive bilingualism and language contact, a situation that appears to be
