Los Angeles Christopher Rand, 1967 *Through the Lens of the City*, During the 1970s the National Endowment for the Arts Photography Surveys granted money to photograph American cities at the bicentennial and years that followed In *Through the Lens of the City* NEA Photography Surveys of the 1970s Mark Rice brings to light this long neglected photographic endeavor From 1976 to 1981 the NEA supported more than seventy projects that examined a wide range of people and places in America Artists involved included such well known photographers as Bruce Davidson Lee Friedlander and Joel Meyerowitz and many photographers who became widely known after their work with the surveys such as Robert Adams Joe Deal Terry Evans and Wendy Ewald Rice argues that the NEA Photographic Surveys drew from two wells a widespread sense of nostalgia and an intense public interest in photography Looking at the works from eight key cities Atlanta Buffalo Durham East Baltimore Galveston Long Beach Los Angeles and Venice the book uncovers marked differences as well as startling similarities in the concerns manifested by different photographers in far flung places Although the surveys are interesting both for their artistic merits and for their place in the history of American photography they are equally important as a documentation of bicentennial era America and a close examination of American cities A major shift in the ideals of civil engineering and urban planning was underway in the 1970s At the same time ideas and theories about photography were changing along with our notions of what the city could and should be These surveys capturing American cities in a fascinating period of flux show us American photographers matching artistry to subject matter in new and exciting ways Mark Rice is chair of the American studies department at St John Fisher College His work has been published in such periodicals as *Exposure* *Explore* and *Reviews in American History* *California's Spiritual Frontiers* Sandra Sizer Frankiel, 2023-04-28 *California's Spiritual Frontiers* Religious Alternatives in Anglo Protestantism 1850 1910 offers a profound exploration of how Anglo Protestantism evolved and adapted in California during a period of rapid cultural and societal transformation In a region where evangelical Protestantism initially sought to dominate the book reveals how traditional religious norms were challenged by liberal ideologies and metaphysical movements including Christian Science New Thought and Theosophy These alternative spiritual frameworks reshaped the religious landscape emphasizing individual spirituality mysticism and openness to non traditional beliefs The book vividly illustrates how California's unique social dynamics and cultural diversity fostered a distinctive blend of spiritual experimentation and adaptation Focusing on key regions such as the mining districts San Francisco Bay Area and early Los Angeles *California's Spiritual Frontiers* examines the interplay between traditional denominations emerging liberal thought and new metaphysical religions It details the challenges faced by Protestant leaders to maintain their influence amidst a largely unchurched population and the growing popularity of alternative spiritual paths This meticulously researched work not only provides a window into California's unique religious evolution but also contributes significantly to the broader study of American religious history highlighting

what makes the greatest city on earth so great With a foreword by legendary newspaperman Bill Gallo of the New York Daily News and lists from celebrity New Yorkers like Pete Hamill and Howard Stern this is a book no lover of New York City should be without *From Bible Belt to Sunbelt: Plain-Folk Religion, Grassroots Politics, and the Rise of Evangelical Conservatism* Darren Dochuk, 2010-12-13 A prize winning five decade history of the evangelical movement in Southern California that explains a sweeping realignment of American politics From Bible Belt to Sun Belt tells the dramatic and largely unknown story of plain folk religious migrants hardworking men and women from Oklahoma Texas and Arkansas who fled the Depression and came to California for military jobs during World War II Investigating this fiercely pious community at a grassroots level Darren Dochuk uses the stories of religious leaders including Billy Graham as well as many colorful lesser known figures to explain how evangelicals organized a powerful political machine This machine made its mark with Barry Goldwater inspired Richard Nixon s Southern Solution and achieved its greatest triumph with the victories of Ronald Reagan Based on entirely new research the manuscript has already won the prestigious Allan Nevins Prize from the Society of American Historians The judges wrote Dochuk offers a rich and multidimensional perspective on the origins of one of the most far ranging developments of the second half of the twentieth century the rise of the New Right and modern conservatism *Golden Dreams* Kevin Starr, 2011-09-09 A narrative tour de force that combines wide ranging scholarship with captivating prose Kevin Starr s acclaimed multi volume Americans and the California Dream is an unparalleled work of cultural history In this new volume Starr covers the crucial postwar period 1950 to 1963 when the California we know today first burst into prominence In a powerful blend of telling events colorful personalities and insightful analyses he brilliantly illuminates the dominant economic social and cultural forces in California in these pivotal years *California* David Sievert Lavender, 1987-01-01 From the earliest Spanish explorations in the late 1500s through the present California s history and growth have been both tumultuous and phenomenal All the historical facts are here the missions and the Indians the struggles between the Mexicans and the Americans the fabulous gold rushes statehood in 1850 railroad wars furious labor upheavals the disastrous scandals and bankruptcies of the 1920s and the recent gigantic tamperings with nature David Lavender tells with unusual clarity and grace the story of a beautiful state s rise to gigantism In an afterword to this Bison Book edition he looks at California today *City Bound* Gerald E. Frug, David J. Barron, 2013-07-02 Many major American cities are defying the conventional wisdom that suburbs are the communities of the future But as these urban centers prosper they increasingly confront significant constraints In City Bound Gerald E Frug and David J Barron address these limits in a new way Based on a study of the differing legal structures of Boston New York Atlanta Chicago Denver San Francisco and Seattle City Bound explores how state law determines what cities can and cannot do to raise revenue control land use and improve city schools Frug and Barron show that state law can make it much easier for cities to pursue a global city or a tourist city agenda than to respond to the needs of middle class residents or to pursue regional alliances But they

also explain that state law is often so outdated and so rooted in an unjustified distrust of local decision making that the legal process makes it hard for successful cities to develop and implement any coherent vision of their future Their book calls not for local autonomy but for a new structure of state local relations that would enable cities to take the lead in charting the future course of urban development It should be of interest to everyone who cares about the future of American cities whether political scientists planners architects lawyers or simply citizens *Southern California Business* ,1923 **History for Ready Reference from the Best Historians** Josephus Nelson Larned,1910 **History for Ready Reference from the Best Historians, Biographers and Specialists** Josephus Nelson Larned,1910 **Congressional Record** United States.
