Understanding the Grief and Loss Experiences of Carers Kerry
 Jones,Joanna Horne,2024-11-01 This book draws on recent research and cutting edge ideas about bereavement and carers
 experiences across the life course to explore carers experience of loss and discuss their specific needs prior and or following
 the death of those they care for Whether care provided is related to a long term or life limiting condition many carers
 experience a multitude of losses including indefinite loss characterised by the loss of a taken for granted future and an
 inability to plan for the future Carers may also experience anticipatory grief as multiple losses such as companionship
 personal freedom and control manifest While many carers are dedicated and committed to their role they are subject to
 burnout and disenfranchised grief When the role of caregiver ends as a result of the death of those cared for this can
 represent a major change and a period of significant adjustment for carers leading to a range of emotions experienced This
 book presents and discusses research findings practitioner perspectives and a wealth of personal accounts to illuminate this
 vital but neglected area and extend our understanding of loss for carers across the life course This interdisciplinary and
 interprofessional volume brings together authors from a wide range of backgrounds including carers themselves It is an
 important contribution to the burgeoning literature around the role and experiences of carers and will interest academics
 students and practitioners in health and social care counselling and psychology with an interest in loss and bereavement
