Mysticism, Myth and Celtic Identity Marion Gibson, Shelley Trower, Garry Tregidga, 2013 *Mysticism Myth and Celtic Identity* explores how the mythical and mystical past informs national imaginations Building on notions of invented tradition and myths of the nation it looks at the power of narrative and fiction to shape identity with particular reference to the British and Celtic contexts The authors consider how aspects of the past are reinterpreted or reimagined in a variety of ways to give coherence to desired national groupings or groups aspiring to nationhood and its defence The coverage is unusually broad in its historical sweep dealing with work from prehistory to the contemporary with a particular emphasis on the period from the eighteenth century to the present The subject matter includes notions of ancient deities Druids Celticity the archaeological remains of pagan religions traditional folk tales racial and religious myths and ethnic politics and the different types of returns and hauntings that can recycle these ideas in culture Innovative and interdisciplinary the scholarship in *Mysticism Myth and Celtic Identity* is mainly literary but also geographical and historical and draws on religious studies politics and the social sciences Thus the collection offers a stimulatingly broad number of new viewpoints on a matter of great topical relevance national identity and the politicization of its myths

Hidden History (Volume 2 of 2) (EasyRead Super Large 18pt Edition) , The Mythic Forest, the Green Man and the Spirit of Nature Gary R. Varner, 2006 Mankind has given a recognizable face to the awesome and impalpable forces of nature in the image of the Green Man and the nature spirits that this book explores The ways in which

different societies and different craftsmen have depicted these spirits display the wide creative range of the human imagination but the persistence of the theme suggests that in all their many facets these spirits represent a deep primordial sense that humans have shared since civilization began For the very origin and message of these images have remained the same even if somewhat altered over time Traditional customs from around the world from the rites that celebrate spring and egg on the forces of fertility to folk health remedies and the use of talismans to ward off illness and other evils show some surprising similarities and hint at the shared origins of human culture Even though the original significance of many customs has been lost or diluted they still hold an appeal and many towns even today are re introducing seasonal fairs to recreate the link between man and nature Varner presents examples ancient and new from Europe and Asia East Coast and West and identifies in particular the different guises of the Green Man who has figured in architecture since before the advent of Christianity and still makes his appearance today peering out from behind his leaves on California banks and New York brownstone houses
