Imperial Plots Women Land and the Spadework of British Colonialism on the Canadian Prairies examines the goals aspirations and challenges met by women who sought land of their own Supporters of British women homesteaders argued they would contribute to the spade work of the Empire through their imperial plots replacing foreign settlers and relieving Britain of its surplus women Yet far into the twentieth century there was persistent opposition to the idea that women could or should farm British women were to be exemplars of an idealized white femininity not toiling in the fields In Canada heated debates about women farmers touched on issues of ethnicity race gender class and nation Despite legal and cultural obstacles and discrimination British women did acquire land as homesteaders farmers ranchers and speculators on the Canadian prairies They participated in the project of dispossessing Indigenous people Their complicity was however ambiguous and restricted because they were excluded from the power and privileges of their male counterparts **Imperial Plots** depicts the female farmers and ranchers of the prairies from the Indigenous women agriculturalists of the Plains to the array of women who resolved to work on the land in the first decades of the twentieth century

Beyond the state Anna Greenwood, 2015-12-01 This electronic version has been made available under a Creative Commons BY NC ND open access license The Colonial Medical Service was the personnel section of the Colonial Service employing the doctors who tended to the health of both the colonial staff and the local populations of the British Empire Although the Service represented the pinnacle of an elite government agency its reach in practice stretched far beyond the state with the members of the African service collaborating formally and informally with a range of other non governmental groups This collection of essays on the Colonial Medical Service of Africa illustrates the diversity and active collaborations to be found in the untidy reality of

government medical provision The authors present important case studies covering former British colonial dependencies in Africa including Kenya Malawi Nigeria Tanzania Uganda and Zanzibar They reveal many new insights into the enactments of colonial policy and the ways in which colonial doctors negotiated the day to day reality during the height of imperial rule in Africa The book provides essential reading for scholars and students of colonial history medical history and colonial administration An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
