Transformations of Trauma in Women's Writing Laura Alexander, 2023-01-10 This volume examines the ways in which trauma alters women's identities While some of the chapters look deeply at individual experiences many of the contributions look to national traumas and the consequences of political abuses including colonial subjugation and genocide for women The book shows that language has a transformative power to change us to give us a great capacity for inner and outer dialogues and for healing and self love As shown here women have historically employed autobiography and memoir to free themselves and others rather than seeing the limit of form they reinvent the parameters to offer a new relationship with language

Revisiting the Poetics and Politics of Modernism Tamlyn Avery, Sascha Morrell, 2025-12-02 This book revisits women's literature in 1922 long hailed as the miracle year of literary modernism a landmark year of avant garde innovations in publications that included James Joyce's *Ulysses* T S Eliot's *The Waste Land* and Ezra Pound's *The Cantos* Yet if 1922 has been considered a modernist annus mirabilis it was many things besides In 1922 or thereabouts according to Willa Cather the literary world broke in two sequestering traditional writers from those considered modern Many women writers produced work that year across a spectrum of genres forms and politics that would not be accepted into Hugh Kenner's modernist canon Nor however did they readily fit into Cather's categories in some cases rupturing and in other cases affirming a consensus of modernism as a masculinist culturally imperialist interwar enterprise Considering 1922's historical significance the essays in this collection seek greater inclusion of women in our memory of this year including writers from a

range of global and regional contexts and cultural backgrounds Extending other attempts to examine the gender politics of modernism modernity over the past thirty years the project draws connections between the significance of 1922 as it has been understood in the new modernist studies and feminist literary criticism that utilizes single year approaches to revisit and reflect on women s history and the gender politics of modernism *Nations of Nothing But Poetry* Matthew Hart,2010-04-22 Vernacular discourse from major to minor The impossibility of synthetic Scots or Hugh MacDiarmid s nationalist internationalism A dialect written in the spelling of the capital Basil Bunting goes home Tradition and the postcolonial talent T S Eliot versus E K Brathwaite Transnational anthems and the ship of state Harryette Mullen Melvin B Tolson and the politics of afro modernism Epilogue denationalizing Mina Loy **The Oxford Handbook of Modern and Contemporary American Poetry** Cary Nelson,2012-02-16 The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve as touchstones along the tour of the poetic landscape **The Little Magazine Others and the Renovation of Modern American Poetry** Suzanne W. Churchill,2017-03-02 Suzanne Churchill s well researched and superbly crafted study is the first book length treatment of Others an important and neglected little magazine that served as a laboratory for modernist poetic experimentation In discussions of influential poets such as Mina Loy Marianne Moore and William Carlos Williams whose careers Others helped launch Churchill counters the notion of Modernism as aesthetically self isolating and socially disengaged Rather she traces a correspondence between formal innovation and social change in American modernist poetry and argues that this dimension of modernist formalism is lost when poems are studied in isolation Others provides a framework for reassessing the scope and significance of modernist formalism The little magazine not only anchors modernist poetry in a social context but also leads to new insight into major modernist texts Churchill s commitment to her subject s broad cultural contexts makes her book important for students and teachers of Modernism as well as for those working in the fields of American poetry and poetics gender studies queer theory periodical studies and cultural studies
