Lyrics in Search of Music Terry L. Rath, 2018-11-20 I have composed the following collection of poetry for more than four decades This is my second published book of verse Once again it has been inspired by people places and life episodes that have been a large part of my life Writing has become a great passion for me as it occupies such a large part of my life In this book I cover several darker subjects from the less popular side of life that I didn't feature in depth in my first book Working in downtown Denver for more than ten years I encountered people that were struggling to just survive rather than actually living life My goal in compiling this collection is to present a strong mix of poetic subjects Terry L Rath *Essays in Honor of Steven Paul Scher and on Cultural Identity and the Musical Stage* Suzanne M. Lodato, Suzanne Aspden, Walter Bernhart, 2002 The eighteen interdisciplinary essays in this volume were presented in 2001 in Sydney Australia at the Third International Conference on Word and Music Studies which was sponsored by The International Association for Word and Music Studies WMA The conference celebrated the sixty fifth birthday of Steven Paul Scher arguably the central figure in word and music studies during the last thirty five years The first section of this volume comprises ten articles that discuss or are methodologically based upon Scher's many analyses of and critical commentaries on the field particularly on interrelationships between words and music The authors cover such topics as semiotics intermediality hermeneutics the de-essentialization of the arts and the works of a wide range of literary figures and composers that include Baudelaire Mallarmé Proust T S Eliot Goethe Hölderlin Mann Britten Schubert Schumann and Wagner The second section consists of a second set of papers presented at the conference that are devoted to a different area of word and music studies cultural identity and the musical stage Eight scholars investigate and often problematize widespread assumptions regarding national and cultural music language plots and production values in musical stage works Topics include the National Socialists construction of German national identity reception based examinations of cultural identity and various national opera styles and the means by which composers librettists and lyricists have attempted to establish national or cultural identity through their stage works *Genres of Critique* Karin van Marle, Stewart Motha, 2013-12-01 The book seeks to open and explore the liminal space of critique at the intersection of law aesthetics and politics The essays in this volume elaborate and expand the meaning and significance of critique through an engagement with aesthetic forms Although this endeavour has wider significance the focus is primarily on South Africa The various contributions arose out of a process of reading writing and discussion among visiting scholars at the Stellenbosch Institute for Advanced Study STIAS Stellenbosch University South Africa in 2010 The project responds to the limits of the transplantation of critical legal studies into different jurisdictions especially South Africa The essays develop an approach to critical legal thinking that is conscious of critique as a problem of genre and seek to open up this problem of genre in the context of critical legal studies **The War on Music** John

Mauceri, 2022-04-26 A prominent conductor explores how aesthetic criteria masked the political goals of countries during the three great wars of the past century Mauceri's writing is more exhilarating than any helicopter ride we have been on Air Mail Fluently written and often cogent Barton Swaim Wall Street Journal This book offers a major reassessment of classical music in the twentieth century John Mauceri argues that the history of music during this span was shaped by three major wars of that century World War I World War II and the Cold War Probing why so few works have been added to the canon since 1930 Mauceri examines the trajectories of great composers who following World War I created voices that were unique and versatile but superficially simpler He contends that the fate of composers during World War II is inextricably linked to the political goals of their respective governments resulting in the silencing of experimental music in Germany Italy and Russia the exodus of composers to America and the sudden return of experimental music what he calls the institutional avant garde as the lingua franca of classical music in the West during the Cold War The Thought of Music Lawrence

London Opera Observed 1711-1844, Volume IV Michael Burden, 2024-08-01 The thrust of these five volumes is contained in their title London Opera Observed It takes its cue from the numerous texts and volumes which during the seventeenth eighteenth and nineteenth centuries used the concept of spying or observing by a narrator or rambler as a means of establishing a discourse on aspects of London life The material in this five volume reset edition examines opera not simply as a genre of performance but as a wider topic of comment and debate The stories that surrounded the Italian opera singers illuminate contemporary British attitudes towards performance sexuality and national identity The collection includes only complete published material organised chronologically so as to accurately retain the contexts in which the original readers encountered them placing an emphasis on rare texts that have not been reproduced in modern editions The aim of this collection is not to provide a history of opera in England but to facilitate the writing of them or to assist those wishing to study topics within the field Headnotes and footnotes establish the publication information and provide an introduction to the piece its author and the events surrounding it or which caused its publication The notes concentrate on attempting to identify those figures mentioned within the texts The approach is one of presentation not interpretation ensuring that the collection occupies a position that is neutral rather than polemical

Music Writing Literature, from Sand Via Debussy to Derrida

Peter Dayan,2006 Why does poetry appeal to music Can music be said to communicate as language does What between music and poetry is it possible to translate These fundamental questions have remained obstinately difficult despite the recent burgeoning of word and music studies Peter Dayan contends that the reasons for this difficulty were worked out with extraordinary rigour and consistency in a French literary tradition echoed by composers such as Berlioz and Debussy which stretches from Sand to Derrida Their writing shows how it is both necessary and futile to look for music in poetry or for poetry in music

Jewry in Music David Conway,2011-12-15 David Conway analyses why and how Jews virtually absent from Western art music until the end of the eighteenth century came to be represented in all branches of the profession within fifty years as leading figures not only as composers and performers but as publishers impresarios and critics His study places this process in the context of dynamic economic political sociological and technological changes and also of developments in Jewish communities and the Jewish religion itself in the major cultural centres of Western Europe Beginning with a review of attitudes to Jews in the arts and an assessment of Jewish music and musical skills in the age of the Enlightenment Conway traces the story of growing Jewish involvement with music through the biographies of the famous the neglected and the forgotten leading to a radical contextualisation of Wagner s infamous Judaism in Music
