Lost Victory British Dreams British Realities 1945 1950:

The Lost Victory Correlli Barnett, 1996 Governance, The State, Regulation and Industrial Relations Ian Clark, 2002-06 This book makes an important contribution to the history and theory of British post war economics in its presentation of an innovative historically informed yet contemporary theory of the British state **Jennie Lee** Patricia Hollis, 2014-09-18 First published in 1997 Patricia Hollis's biography of the pioneering Labour MP Jennie Lee 1904 1988 won both the Wolfson History Prize and the Orwell Prize It is the definitive study of this remarkable woman her stormy political career and her marriage to Aneurin Bevan In a new preface to this edition Hollis adds insights into Lee's life which emerged subsequent to first publication and also draws on her own experience as a Labour Minister from 1997 2005 Lee's lives and loves passions and drives are beautifully and frankly explored in Patricia Hollis's compelling book **THES** Superbly researched engrossingly written scrupulously honest Gerald Kaufman Daily Telegraph What makes it particularly fascinating is the author's own first hand knowledge of politics and of the Labour movement **TLS** One of the best political biographies of recent years Alan Watkins New Statesman Innovation Peter Ackroyd, 2021-09-28 Innovation the sixth and final volume in Peter Ackroyd's magnificent History of England series takes readers from the Boer War to the Millennium Dome almost a hundred years later Innovation brings Peter Ackroyd's History of England to a triumphant close Ackroyd takes readers from the end of the Boer War and the accession of Edward VII to the end of the twentieth century when his great granddaughter Elizabeth II had been on the throne for almost five decades It was a century of enormous change encompassing two world wars four monarchs Edward VII George V George VI and the Queen the decline of the aristocracy and the rise of the Labour Party women's suffrage the birth of the NHS the march of suburbia and the clearance of the slums It was a period that saw the work of the Bloomsbury Group and T S Eliot of Kingsley Amis and Philip Larkin from the end of the post war slump to the technicolor explosion of the 1960s to free love and punk rock and from Thatcher to Blair A vividly readable richly peopled tour de force Innovation is Peter Ackroyd writing at the height of his powers Revolution to Devolution Kenneth O. Morgan, 2014-09-15 This is an integrated range of studies focusing on Wales by a long established and internationally recognised academic authority and member of the House of Lords on the advance of democracy and the evolving idea of national identity in modern Britain It casts back to the impact of change in Europe and the wider world from the 1789 Revolution in France onwards covering key personalities such as Lloyd George and the impact of the First World War in Wales and relates to contemporary debates on Scottish independence and the connections with Europe to open up wider issues of open government foreign policy the rule of law and cultural diversity **Welfare Beyond the Welfare State** Felix Behling, 2018-01-12 This book examines employee welfare in British and German companies from the 19th century through to the present day Tracing the history of employee welfare this comparative study reveals new issues beyond the dominant focus on the welfare state showing that companies are an integral part of welfare systems with surprisingly few differences

between the UK and Germany Maintaining that employee welfare is a key feature of the modern employment relationship Behling shows how the welfare programme supported industrialisation in the 19th century by cementing the standard employment model of the Fifties and Sixties as well as how it revolves around corporate social responsibility today The result is an innovative exploration into the changing nature of employment relationships contemporary welfare systems and the co evolutionary rather than categorical development of economic and political institutions An engaging and well researched text this book will hold special appeal to scholars of social policy welfare politics as well as anyone interested in the role of the state in people s working lives *Post-War Planning on the Periphery* Thomas C Mills,2012-08-30 This book provides

readers with an insight to a previously unexplored aspect of Anglo American economic diplomacy during the Second World War *The Royal Highland Fusiliers* Trevor Royle,2011-07-15 The Royal Highland Fusiliers came into being in 1959 as a result of the amalgamation of two regiments both of which had strong connections with Glasgow and the west of Scotland The Royal Scots Fusiliers founded in 1678 by Charles Erskine fifth Earl of Mar and The Highland Light Infantry or HLI created in 1881 as a result of the amalgamation of the 71st Highlanders and the 74th Highlanders Two distinctive infantry traditions can be found in the names of these regiments which have helped to form the line infantry regiments of the British Army Fusiliers were armed with the flintlock fusil instead of the more common matchlock musket and light infantry came into being during the Napoleonic Wars to provide the army with a corps of skirmishing sharpshooters similar to Austrian and German J ger troops Amongst those who have served as fusiliers or light infantrymen are Hugh Trenchard who became Air Chief Marshal of the Royal Air Force Winston Churchill and David Niven who joined the HLI from Sandhurst in the inter war years All these traditions and personalities went into the making of a regiment whose name lives on in the 2nd battalion of The Royal Regiment of Scotland which was formed in 2006 as a result of the restructuring of the infantry regiments of the British Army **Veteran MPs and Conservative Politics in the Aftermath of the Great War** Richard Carr,2016-03-03

Between 1918 and 1939 448 men who performed uniformed service in the First World War became Conservative MPs This relatively high profile cohort have been under explored as a distinct body yet a study of their experiences of the war and the ways in which they and the Conservative Party represented those experiences to the voting public reveals much about the political culture of Interwar Britain and the use of the Great War as political capital Radicalised ex servicemen have thus far been considered a rather continental phenomenon historiographically And whilst attitudes to Hitler and Mussolini form part of this analysis the study also explores why there were fewer such types in Britain The Conservative Party it will be shown played a crucial part in such a process with British politics serving as a contested space for survivors interpretations of what the war should mean **Wales since 1939** Martin Johnes,2013-01-18 The period since 1939 saw more rapid and significant change than any other time in Welsh history Wales developed a more assertive identity of its own and some of the apparatus of a nation state Yet its economy floundered between boom and bust its traditional communities were transformed and the

Welsh language and other aspects of its distinctiveness were undermined by a globalizing world Wales was also deeply divided by class language ethnicity gender religion and region Its people grew wealthier healthier and more educated but they were not always happier This ground breaking book examines the story of Wales since 1939 giving voice to ordinary people and the variety of experiences within the nation This is a history of not just a nation but of its residents hopes and fears their struggles and pleasures and their views of where they lived and the wider world

The Argyll and Sutherland Highlanders Trevor Royle, 2011-07-15 The Argyll and Sutherland Highlanders is one of the best known regiments in the British Army In a previous incarnation as the 93rd Highlanders its soldiers were famed for being the thin red line that repulsed the Russian heavy cavalry at the Battle of Balaklava during the Crimean War When the regiment was ordered to disband in 1968 as part of wide ranging defence cuts a popular Save the Argylls campaign was successful in keeping the regiment in being In 2006 it became the 5th battalion of the new Royal Regiment of Scotland Formed by two earlier regiments The Argylls have a stirring history of service to the British Crown They served all over the empire taking part in the Indian Mutiny and the Boer War and fought in both World Wars In the post war period the Argylls captured the public imagination in 1967 when they reoccupied the Crater district of Aden following a period of riots Recruiting mainly from the west of Scotland the regiment has a unique character and throughout its history has retained a fierce regimental pride which is summed up by its motto sans peur meaning without fear The Argyll and Sutherland Highlanders puts its story into the context of British military history and makes use of personal testimony to reveal the life of the regiment

The World Reshaped Richard Cobbold, 2016-07-27 Half a century ago much of Asia lay in ruins shattered by the long years of total war Fifty years later much of the region has been transformed Asia today is an economic powerhouse generating wealth and prosperity on an enormous scale An increasing number of Asian countries have embraced a market economy and adapted their political structures to accommodate the resulting economic and social changes The so called Asian Dragons are roaring ahead Japan then Singapore Hong Kong Taiwan and South Korea led the way followed more recently by countries such as Malaysia Indonesia and Thailand and now Vietnam and the Philippines are set to join the dragon family Economic revolution in China combined with the steady liberalization of the Indian economy will spur future economic growth not just in Asia but in the world This volume investigates the economic military and political aspects of the remarkable developments in this part of the world over the past fifty years It also looks tentatively into the future to hazard a guess at what the next fifty years may hold

Manufacturing in Transition Rick Delbridge, James Lowe, 2005-08-04 The future of British manufacturing is of immense importance and topicality As we slide towards a service sector economy based on finance and tourism it is worth reflecting on whether this is the most appropriate or inevitable scenario Manufacturing in Transition makes a genuinely interdisciplinary contribution to the debate over the UK's strategy for industrial renewal Aimed primarily at business economics and industrial relations students it looks at the current state of British manufacturing sector within the global

economy and asks whether manufacturing matters in the twenty first century The books explores key issues such as the chances of renewal developments in the management and organisation of operations and supply chains the differences made by Japanese methods This is a timely assessment of the UK s industrial development and makes a major contribution to debates over the industrial strategy and the position of manufacturing within industrialized economies **Britain's**

Experience of Empire in the Twentieth Century Andrew Thompson,2016-11-24 Written by specialists from various fields this edited volume is the first systematic investigation of the impact of imperialism on twentieth century Britain The contributors explore different aspects of Britain s imperial experience as the empire weathered the storms of the two world wars was subsequently dismantled and then apparently was gone How widely was the empire s presence felt in British culture and society What was the place of imperial questions in British party politics Was Britain s status as a global power enhanced or underpinned by the existence of its empire What was the relation of Britain s empire to national identities within the United Kingdom The chapters range widely from social attitudes to empire and the place of the colonies in the public imagination to the implications of imperialism for demography trade party politics and political culture government and foreign policy the churches and civil society and the armed forces The volume also addresses the fascinating yet complex question of how after the formal end of empire the colonial past has continued to impinge upon our post colonial present as contributors reflect upon the diverse ways in which the legacies of empire are interpreted and debated in Britain today

1995 Massimo Mastrogregori,2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **Class, Politics, and the Decline of Deference in**

England, 1968-2000 Florence Sutcliffe-Braithwaite,2018-03-01 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people s narratives about social change and their own identities throughout the period 1968 2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of

deference which transformed people's attitudes towards class and towards politics. The study also examines the claim that Thatcher and New Labour wrote class out of politics, arguing that this simple and highly political narrative misses important points. Thatcher was driven by political ideology and necessity to try to dismiss the importance of class, while the New Labour project was good at listening to voters, particularly swing voters in marginal seats, and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness. But this did not add up to an abandonment of a majoritarian project, as New Labour reoriented their political project to emphasize using the state to empower the individual.

Monetary Policy and Financial Repression in Britain, 1951 - 59 W. Allen, 2014-08-03. This book explores the politics of formulating monetary policy in the 1950s and the techniques of implementing it, and discusses the parallels between the present monetary situation and that of 1951.

The Tragedy of Great Power Politics John J. Mearsheimer, 2001. A decade after the cold war ended, policy makers and academics foresaw a new era of peace and prosperity, an era in which democracy and open trade would herald the end of history.

A Necessary Fantasy? Dudley Jones, Tony Watkins, 2021-10-28. This book addresses a variety of issues through the examination of heroic figures in children's popular literature, comics, film, and television.

Scott Lithgow Lewis Johnman, Hugh Murphy, 2017-10-18. This work studies the history of two major Scottish shipbuilding firms based on the River Clyde: Scotts Shipbuilding and Engineering Company and Lithgows Limited. It traces each firm's origin, success, decline, and collapse, and places the events into the historical context of maritime Britain. The aim is to enhance the academic understanding of the cause and effect of the decline of the British shipbuilding industry, delving beyond the factors of poor industrial relations, international market conditions, and entrepreneurial failure in search of further answers. As a private company, Lithgows Limited provides useful insights into company management outside of state control. The authors base their analysis on the catalogued volumes of Scotts and Lithgows records, though due to the large number of gaps in the data, they also conducted interviews with major players in each company from the post-war period. Public business and banking records also provide supplementary material. The book is separated into eight chapters plus a concluding ninth, an appendix listing ships built by Scott Lithgow Limited between 1970-1987, and a select bibliography.
